KELLY
BARB WIRE COMPANY,
SUCCESSORS TO
THORN WIRE HEDGE CO.,

ONLY SAFE BARB WIRE FOR HORSES.

A YIELDING BARB ROD to the POUND.

Sold only to One Dealer in a Place.

The great advantage of this style of barb is, that when an animal is pricked the barb will turn just enough to let him off without *tearing out the flesh.* It costs but little more per rod than the *hide-ripping wire usually sold.* *The Paint is warranted* to be as durable as galvanizing.

Country Merchants will find it to their advantage in securing the agency on a class of goods that is in demand and that has no competitor of its kind. We also make both *Two* and *Four-Point Wire Barbs.*

HOW TO KEEP A STORE.

By S. H. TERRY.

406 PAGES, 5x7½ INCHES.

This book should be in the hands of every one interested in the selling of goods at retail. Among the subjects discussed are: The selection of a business; choice of a locality; buying a stock of goods; examining, marking and arranging goods; how to advertise; employment of clerks; selling for cash and credit; keeping accounts; expenses; copartnerships; losses by fire, theft, &c.; influences of social life on business; buying at auction; investment of profits; insolvency; business qualifications. Every branch of the retail trade is treated upon in a direct, business-like manner. It is a thoroughly practical book for merchants and clerks.

PRICE, $1.50.

Regenerative Gas Furnaces.

For Melting, "Reheating" and "Puddling" with manufactured or natural gas.

All Furnaces built from the most improved designs; in the strongest and most substantial manner, and guaranteed to work satisfactory, with the lowest fuel consumption per ton of metal worked, and the lowest percentage of loss by oxidation.

Particular attention is called to the extreme simplicity and durability of our Furnaces.

Have contracted for 98 furnaces since January 1, 1887.

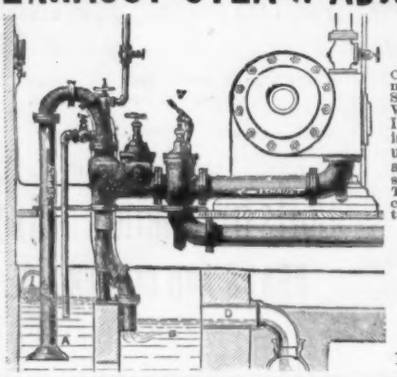
THE KORTING

EXHAUST-STEAM-ADJUSTABLE-CONDENSER,

FOR STEAM ENGINES AND PUMPS



This CONDENSER requires no Tank, no Pump, no Water Column of Thirty-four feet, or Hot Well, nor does it need any Foundation, and there is no continual waste of Steam to operate Air Pumps. It provides for its own Water Supply, whether lifting or from a fall of water. It will lift water Twenty Feet, and when a fall of water is available, only One Foot head is required. The means used to accomplish this is the exhaust Steam Velocity, as it comes from Steam Engine Cylinder. The best results can be obtained without any cost of maintenance. The Price is lower than any other Condenser. There is considerable saving in the use of Steam, and Twenty-five to Thirty per cent. increase in the Power of Engine.

Several Hundred of these Condensers are now in use.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent postpaid, on receipt of the price, 75 cents, by

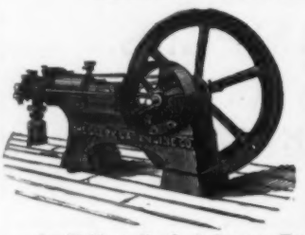
THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.



Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject.

July, 1887. WM. SELLERS & CO., Incorporated, Philadelphia, Pa.

PATENT PORTABLE.

ROPE HOIST.

ONE MAN SUFFICIENT.

The Best Quick Lift Hoist Made.

WILL HOLD A LOAD AT ANY POINT.

Ropes weigh less than chain. Can be used for long or short lifts. Without touching hand rope, the load may be quickly lowered by a slight steady pull on brake cord. Load rope can be pulled up or down by hand instead of pulling on hand rope to raise or lower empty hook. Send for descriptive circulars of specialties.

BELDEN'S

Upright Power Hammer.

This Hammer possesses advantages superior to any other in the market. It has neither cylinders, valves nor piston rods, consequently repairs are trifling. It takes up less space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.

It can be worked to strike good alternate blows on a ½-inch and ⅝-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the

R. A. BELDEN COMPANY, Danbury, Conn.

Cut of 60 lb. Hammer.

MANUFACTURERS OF THE

Champion Steel Pressure Blowers, Fan Blowers, Exhaust Fans,

To suit every Possible Situation and Kind of Work.

ALSO A FULL LINE OF

Lever and Crank Blowers, Portable Forges, Stationary Forges, Blacksmiths' Drills, Tire Benders, Tuyere Irons, &c., &c., &c.

CAUTION.

We desire to call your attention to the fact that the great reputation and popularity of our Machines have induced a concern to attempt an exact imitation thereof; also, issuing a facsimile copy of our late catalogue. We find they have bought a full line of our Champion Lever Blowers, Champion Lever Forges and Eureka Tire Benders, taken them apart, and used them as patterns, regardless of our "Patents."

We simply wish to make the above facts known and warn all trespassers on our rights of our intention to prosecute.

NOTICE.—The valuable feature of our Power Fan Blowers and Steel Pressure Blowers is our Champion Journal Box. It has a universal adjustment whereby it comes readily into perfect line with the shaft.

REMEMBER

our goods are sold strictly on their merits, and each and every article sold is guaranteed to give entire satisfaction. Write for our 64-page catalogue.

Grocers' Novelty Wanted

to sell to retail trade through traveling men. Must be patented, and first class. Address, with full particulars,

"E. D. E."

P. O. Box 131, Canton, Ohio.

WANTED.

A 25-ton Fly-Wheel to fit a 14-inch Shaft Rim of Fly-Wheel to be 10 to 12 inches across the face.

Also two second-hand Independent Air Pumps and Condensers—Diameter of Steam Cylinder, 12; Air Cylinder, 14; Stroke, 16. Diameter of Steam Cylinder, 10; Air Cylinder, 12; Stroke, 14. Address

LORD ESTATE,
68 Wall St., New York.

Do You "Catch On?"

Having one of the largest and most complete plants for the manufacture of AUGERS and AUGER BITS, we wish to arrange with some enterprising party for the extensive manufacture of these goods. Factory and machinery thoroughly equipped in all parts and ready for immediate resumption of the works. Several valuable Patented Specialties in the line in hand, which will insure the success and profit of the business. To the right man a rare and profitable investment is here offered. Should such be preferred, would sell the entire machinery, with or without the factory, at a great bargain.

GEO. F. STEARNS,
Chester, Conn.

A GOOD HARDWARE BUSINESS FOR SALE.

Wishing to retire from all active business, the undersigned offer for sale their valuable and thoroughly established business. The stock is clean and well selected. Waverly, New York, is a growing place, with considerable manufacturing, and surrounded by a good farming country; has good water, gas works and sewers, also five railroads radiating from it. The location of the store building is central, with every convenience, including hydraulic elevator, &c. The business has been conducted successfully as wholesale and retail; can be continued as we have conducted it, or else we can soon reduce the stock, and it can be conducted as a retail alone.
In negotiating sale, reference given and required.

MERRIAM BROS., Waverly, N. Y.

FOR SALE.

AN UNUSUAL OFFER.

An old established Hardware Business doing the leading wholesale and retail trade in one of the best towns in Minnesota. This is an opportunity seldom offered. Reason for sale, death of proprietor. Address

H. V. RUTHEFORD,
Attorney-at-Law, St. Paul, Minn.

IRON ORE PROPERTY.

For Sale or Lease, situate within three miles of the C. & O. Ry., at White Sulphur Springs, W. Va., about 3000 Acres, underlaid near surface by a persistent seam of red oxide iron ore from 10 to 60 feet in thickness. Numerous analyses show

61 per cent. Metallic Iron.
.07 per cent. Phos.
.05 per cent. Sulphur.

Six miles of outcrop have been proved by a number of openings. The helderberg limestones, more than 300 feet thick, are exposed at many points, and the hills containing the New River coking coals are within sight. There are good sites for furnace plants in the immediate vicinity, and ample water for all purposes. For further particulars, apply to

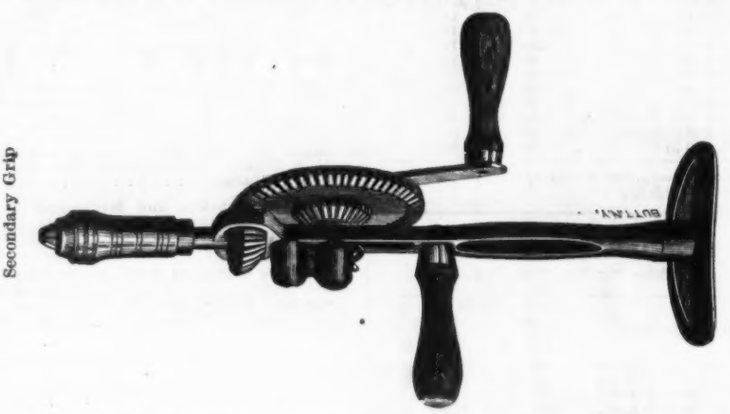
BREAST DRILL, No. 12.



This is the Drill which we have made for many years and sold at $30 list. It has a Malleable Iron Stock, Japanned, Rosewood Handles, Polished and Plated Chuck, changeable Gears, one even and the other 3 to 1. It has a Barber Improved Chuck with our recent improvement, which makes it hold perfectly tools of all shapes and sizes.

We are now putting a Secondary Grip on our No. 10, 12 and 13 Breast Drills which works automatically and will hold round twist drills perfectly. It adds much to the cost of goods, but nothing to the selling price.

MILLERS FALLS CO.,

THE FREEZER OF THE FUTURE.

WHAT IS?

SHEPARD'S "LIGHTNING"

(Quadruple Motion), with Hinge Top and Famous Wheel Dasher.

WHO SAYS SO?

Ask any of the many dealers who have sold the "LIGHTNING" if the demand has not been greater than the supply.

Ask, also, any one who has used the "LIGHTNING" if it doesn't freeze quicker, easier, and make not only better and lighter ice cream than any other freezer, but make more of it from given quantity of cream.

So don't place your freezer orders until you have found out what the "LIGHTNING" can be bought for—for the best, you know, is always the cheapest in the end.

If you haven't seen the "LIGHTNING" order a sample quick, and ascertain for yourself if in addition to being the most attractive in appearance it doesn't produce the best results. If this is all so, how about your having it for sale?

SHEPARD HARDWARE CO., *Buffalo, N. Y.*

ROSE

Ventilating Window Sash Lock.

A safeguard against the incessant rattling of windows. They will lock the sash (upper and lower) securely at any desired point, affording safe means of ventilation. By its pressure against the sash it acts as a weather strip to keep out dust and cold air. They are easily put on, cannot get out of order and do not damage the finish on a window. Made in variety of ornamentation in Malleable Iron (Nickel Plated and Bronzed), and Bronzed Metal. Send for descriptive circular of **Andrus Sash Balance and Rose Ventilating and Sash Locks, &c.**

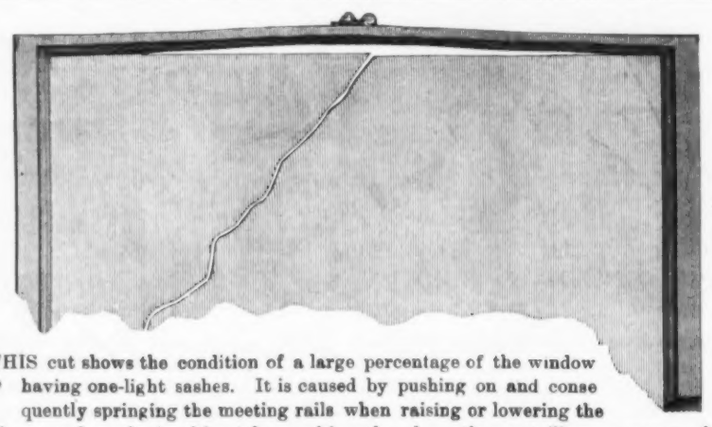
THE PUMP CATECHISM. A Practical Help to Runners, Owners, and Makers of Pumps of any kind, covering the theory and practice of designing, Constructing, Erecting, Connecting and Adjusting. By ROBERT GRIMSHAW, M. E., 18mo. cloth, **$1.00.** Sent, postpaid, on receipt of price, by

DAVID WILLIAMS,
Publisher and Bookseller,
66 & 68 Duane Street, New York.

Manhattan Leather Works,

DOG COLLARS, HARNESS, CHAINS, ETC.,

298 Broadway, - - New York.



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age*.

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

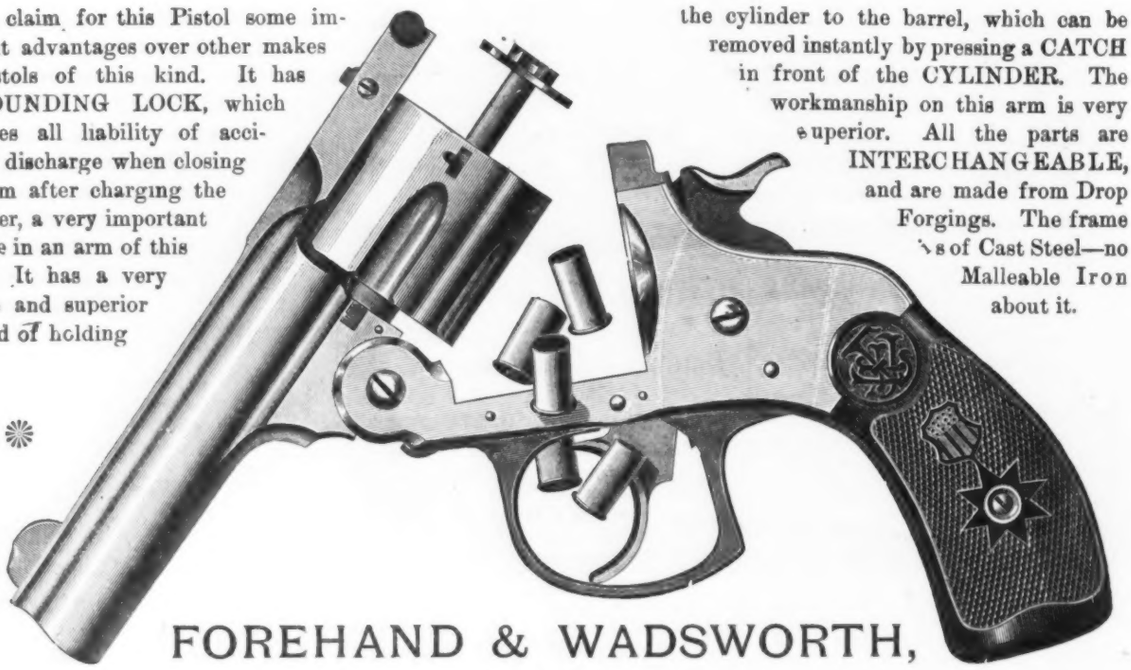
SEND FOR DESCRIPTIVE CIRCULAR.

FOREHAND & WADSWORTH'S

New Model Automatic Shell-Extracting Revolver

32 and 38-100 Center Fire.

We claim for this Pistol some important advantages over other makes of pistols of this kind. It has REBOUNDING LOCK, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. It has a very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a CATCH in front of the CYLINDER. The workmanship on this arm is very superior. All the parts are INTERCHANGEABLE, and are made from Drop Forgings. The frame is of Cast Steel—no Malleable Iron about it.

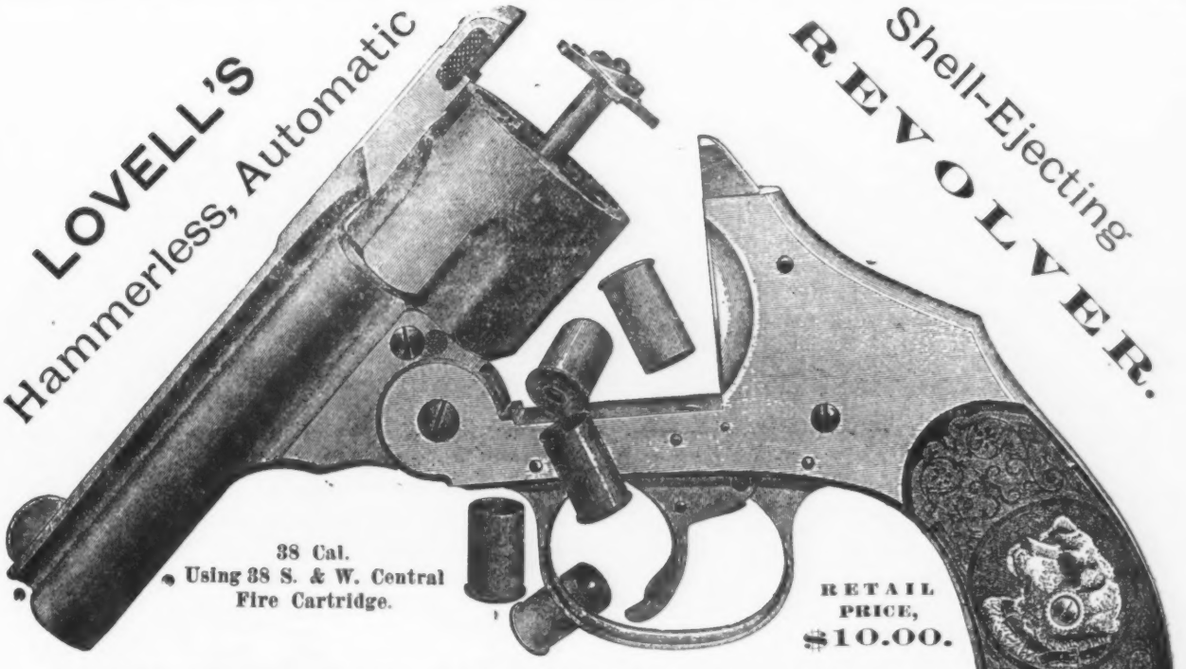


FOREHAND & WADSWORTH,

Worcester, Mass., U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

LOVELL'S Hammerless, Automatic Shell-Ejecting REVOLVER.



38 Cal.
Using 38 S. & W. Central Fire Cartridge.

RETAIL PRICE, $10.00.

This Revolver has many improvements not to be found in any other make, including *Improved Automatic Shell Ejector, Rebounding Lock.* Improved method of instantly removing the Cylinder, and the *Safety Attachment* in forward part of Trigger which renders accidental discharges *absolutely impossible. It is the Safest Revolver Made.* Descriptive Circular and Prices to the Trade Furnished on Application.

—MANUFACTURED BY—

THE NEW BAKER.

The Gun for the Hardware Trade.

MOST SYMMETRICAL, BEST BALANCED, NEATEST LOOKING GUN of its class ever offered to the SHOOTING PUBLIC

PRICE, $30.00.

We do not expect to equal Guns selling at $100 and upward in perfection of outside finish, but *we do give our customers a Well-Proportioned, Well-Balanced, Well-Finished Gun* with Walnut Stock, Checkered Pistol Grip, as shown in cut, Rubber Butt Plate, English Twist Barrels, Extension Rib, Top Snap Action, Rebounding Locks, Compensating Fore-End, Low Circular Hammers, Interchangeable Parts, Solid Strikers and Top Rib finished with a Corrugated Matting. *In fact, including every modern improvement.*

The "NEW BAKER" cannot be excelled for Close, Hard, Long-Range Shooting in the Field or at the Trap by any Gun made, no matter what the price.

OUR GUARANTEE.

We agree to replace at our Factory all parts that fail through defects of material or workmanship without charge to our customers whether the Gun is purchased direct from us or through dealers. The NEW BAKER is made in both 10 and 12 Gauges. The 10 Gauge Barrels being 30 or 32 inches long, and weighing from 8 to 11 pounds. The 12 Gauge are made 28, 30 and 32 inches long, weighing from 7½ to 9 pounds. All Guns being Full Choked or one Barrel Choked, and the other Cylinder or modified Choke as ordered without extra charge.

—MANUFACTURED BY—

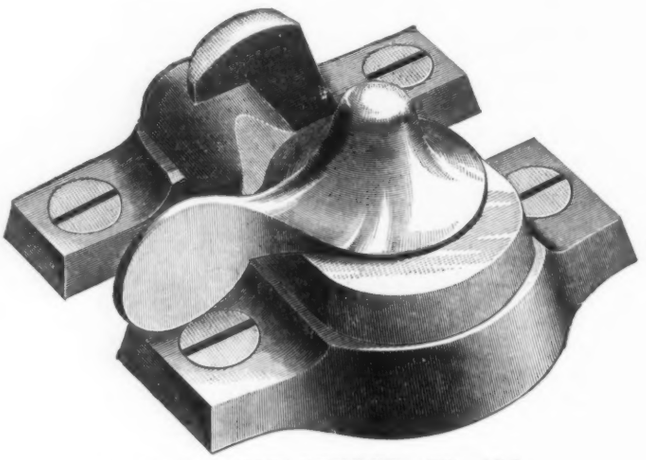
SYRACUSE FORGING & GUN CO.,

32 Basin St., - Syracuse, N. Y.

THE IVES PATENTED

SASH LOCKS AND MORTISE BOLTS

A very important feature of the IVES SASH LOCK, is in its securely locking when closed and simultaneously drawing the meeting rails closely together All the movements are accomplished by cams without the instrumentality of springs, thus avoiding the possibility of getting out of order.



IVES' PATENT BURGLAR PROOF SASH LOCKS AND MORTISE BOLTS are made under TWELVE PATENTS, but are no more expensive than many of the more common bolts and sash fasteners now on the market.

ARE MANUFACTURED IN ALL

STYLES OF FINISH.

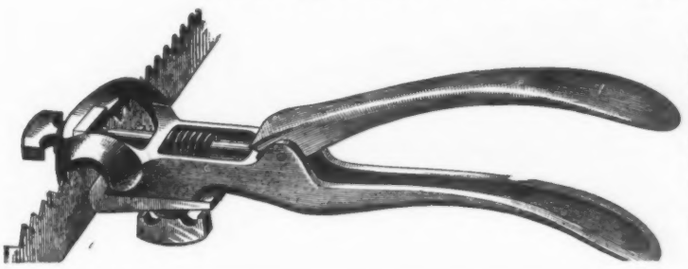
MORRILL'S PERFECT SAW-SETS.



On the application by the administratrix of the estate of the late Asa Farr, for the appointment of a receiver, the New York Supreme Court decided that the business in saw-sets carried on by Mr. Charles Morrill, at 64 College Place, since the death o Mr. Farr, belonged to the Farr estate—the court saying:

"After Farr's death Morrill could not seize upon the books office and assets of Farr's businessand by an usurpation of owner ship undertake to substitute himself in Farr's place in the busi ness the latter had built up."

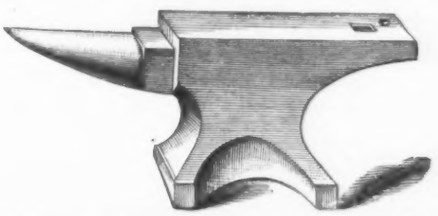
Under the instructions of the court I shall continue the manufacture and sale of the Morrill saw-set.

CHAUNCEY S. TRUAX, Receiver in FARR vs. MORRILL,
64 College Place, New York City.

Peter Wright's Patent Solid Wrought Anvil.

PETER WRIGHT PATENT SOLID WROUGHT

Fac-simile of Trade Mark.



Fac-simile of Green Label.

By Royal Letters Patent.

V. R.

PETER WRIGHT'S
SOLID WROUGHT
ANVIL
Made of Best Scrap Iron!
THE BICK FACE AND END ALL IN ONE SOLID PIECE!

The high reputation attained by these Anvils has led makers of an inferior anvil to imitate the brand, with the view of thereby more readily marketing their goods. The trade is cautioned in buying to see that each anvil is stamped with the full trade mark on one side and has the green label affixed to the other; fac-similes of both are shown above.

Cronk's Patent Wire Cutter and Bender.

8 in. per doz. pair, - - - - - - - - $15.00
10 in. " " - - - - - - - - - - 21.00

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is especially adapted to farmers' use in building Wire Fence, &c.

Our reasons for claiming that we have the best Pliers in the Market are :

FIRST.—We use the best Tool Steel and they are nicely finished.

SECOND —We combine both Flat and Round Nosed Pliers in one, the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, Brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barb Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken.

By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

TOWER & LYON, GENERAL AGENTS, 95 CHAMBERS STREET, NEW YORK.

WIGGER'S

PATENT SASH LIFTERS

A simple contrivance designed to facilitate the Raising and Lowering of

ONE-LIGHT SASHES.

Nearly all modern buildings are constructed with single-light sashes, the raising and lowering of which is attended with difficulty

The adjustment of the lower sash is especially inconvenient when screens are used.

These Sash Lifters will be found indispensable in overcoming this constant annoyance.

Latching is facilitated, window sticks and hooks done away with, springing the sash and loosening the glass prevented, &c.

Made of a strip of concave-convex metal, with knobs pressed up, and fitting over the bead on the side rail of sashes.

Made in any size from 28 to 44 inches in length.

Sample Cards, Price Lists and Circulars on application.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street, NEW YORK.

THE GIANT PAD LOCK.

Centennial Award. "Superior in Every Respect.

This is one of the best selling locks in the market, and affords the dealer a large profit. It is thoroughly and strongly made—of the best material—very handsome in appearance, and every Lock is warranted. Orders solicited.

THE GIANT METAL SASH CHAIN

is a substitute for cord in hanging weights to windows. It is manufactured by us only, and by automatic machinery, patented and owned exclusively by ourselves, and whereby we secure uniformity of construction and quality. We have been to great expense in producing a metal having all the qualities and conditions requisite for making suitable chain for this purpose, and to prevent other chain of the same pattern of link and of the same general appearance, but made from an inferior metal, being offered as the same thing, we patented the word "Giant" as a Trade-Mark, as applied to either metal or chain. Trade-Mark Registered April 16, 1878, and October 22, 1878, and our metal is therefore known in the market as "Giant Metal," and our chain as "Giant Metal Sash Chain."

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S (THE ONLY GENUINE) LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the ABSOLUTE PERFECTION of the products.

THE WIDE AWAKE DEALER is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

MANUFACTURERS OF

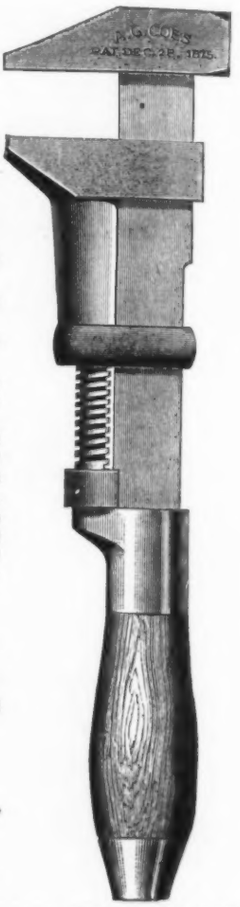
A. G. COES'

PATENT

SCREW WRENCHES,



The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer than any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL COMPANY, Springfield Mass.

This Wrench can be Furnished with Long Nut or Sleeve.

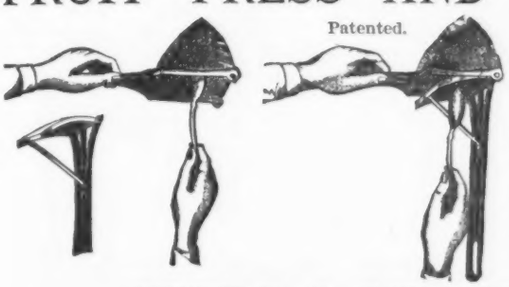
"STAR" COFFEE MILLS.

PRICE LIST ON APPLICATION.

THE "DIEHL"

FRUIT PRESS AND STRAINER.



Patented.

We make this Press with *removable* plunger handle to permit the cups being *easily cleaned*. With the permanent handle it is a most *difficult* thing to *thoroughly clean* a press because the plunger invariably falls *directly* in *front* of the *cup* every time it is turned over to dump the matter out of it.

Without the plunger it makes a splendid *dipper strainer* for dipping and straining out of the pot. It is also a good *gravey, &c., &c. strainer.* **It makes a great, great improvement.**

ORDER A LOT AT ONCE.

Bucket Pump and Water Purifier

FOR WELLS AND CISTERNS OF ANY DEPTH.

Warranted to Purify a Foul Well or Cistern in ten days' Use.

Does not freeze. It has no wooden tubing to wear out, decay and pollute the water; no iron tubing to rust; no suckers or valves to wear out; never has to be *primed, packed or thawed out;* has no *Leather, Rubber* or wood in contact with the water to contaminate it, and you do not have to pump out a pailful of water to get a *fresh, cool drink*, for every cup goes down full of air to the bottom and fills with cold water as the air escapes. A sample pump will be sent to any responsible dealer on 30 days' trial and if not satisfactory in every particular, and found superior to any pump on earth for domestic use, may be returned at our expense. Awarded *gold medal at World's Exposition*, New Orleans and highest premiums at Alabama State Fair, St. Louis, Columbus, Iowa, Arkansas, Dayton, Omaha, Macon, Mobile and Cincinnati. An energetic dealer wanted in every town. For terms and discounts address

LIGHTNING HAY KNIVES

WEYMOUTH'S PATENT.

This Knife is the **BEST IN USE** for cutting down hay and straw in mow and stack cutting fine feed from bale, cutting corn stalks for feed, cutting peat & ditching marshes. The blade is **Best Cast Steel,** spring temper, easily sharpened, and is giving *universal* satisfaction. A few moments' trial will show its merits, and parties once using it are unwilling to do without it. Its sales are fast increasing for export as well as home trade, and it seems destined to take the place of all other Hay Knives. They are nicely packed in boxes, 1 dozen each of 60 pounds weight, suitable for shipping by land or water to any part of the world.

Manufactured only by

HIRAM HOLT & CO. **EAST WILTON, Franklin Co., MAINE.**

For sale by the Hardware trade generally.

CAUTION.

We are informed that various parties are infringing upon the widely-known Letters Patent granted originally to GEORGE F. WEYMOUTH for an improved Hay Knife. The invention patented to GEORGE F. WEYMOUTH is embodied in a sword-shaped blade provided with operating handles for working the same, the edge of the sword-blade being furnished with knife-edged serrations or teeth. ☞ **It is our purpose to PROSECUTE ALL INFRINGEMENTS,** and to hold responsible to the full extent of our ability and of the law all parties who manufacture any knife infringing upon the patent, or who deal in the same. Several suits are now pending in the U. S Courts. ☞ **All manufacturers and dealers are hereby warned** of our rights, and **the public are cautioned** against purchasing any Hay Knives, made as described above, which are not of our *genuine* manufacture.

FAY'S COMBINED TRAY AND SIDE, BRACED AND BOLTED WHEELBARROW.

Classifying Wheelbarrows from the shape of that part which holds the load, there have been but three kinds which have come into general use. We may mention as the most important the Railroad, Dump or Tray Barrow its principal uses being on Canals, Levees and Grades. Second is the Side, Garden or Farm Wheelbarrow, for family use in Cities, Towns and Country. The third is the Hopper Wheelbarrow with a flat bottom and four flaring sides all stoutly fastened together, for Ore, Mortar, Shells and kindred uses. It will be seen from an examination of the cut that FAY'S WHEELBARROW combines all the advantages that may be claimed for the above styles, either jointly or separately. It has a larger range of usefulness than any of the old styles. It is superior to the tray wheelbarrow for the following reasons: It holds more; it can be filled faster; a larger load can be moved as easily; it dumps better. It is superior to the Side, Garden or Farm Wheelbarrow, for the following reasons: Its sideboards are as easily removed and replaced as in the old style; the size and shape of the box is such that it will not scatter the contents. Finally, it must be apparent to all who have given the cuts, explanations and claims a careful and thoughtful consideration that the "COMBINED WHEELBARROW" is the best for general use that has ever been invented. We manufacture Wheelbarrows of every description. If you are interested, we shall be pleased to send you our complete Catalogue and quote you prices.

PATENT

Lawn Sprinkler.

Cheapest and Best in Use.

Agents Wanted. Liberal discount to buyers.

¾ inch regular Hydrant Thread, or Pipe Thread to order) per doz. $7.50
1 in. co. Reg. Gas Pipe Thread, " 12.00
Sample Sprinkler sent, prepaid on receipt of 60 cents.

The Spray from it covers *upwards of 1000 sq. feet of lawn.* It is the only patent adjustable Sprinkler which is acceptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or nail openings to clog up it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray *as coarse as rain or as fine as mist,* and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

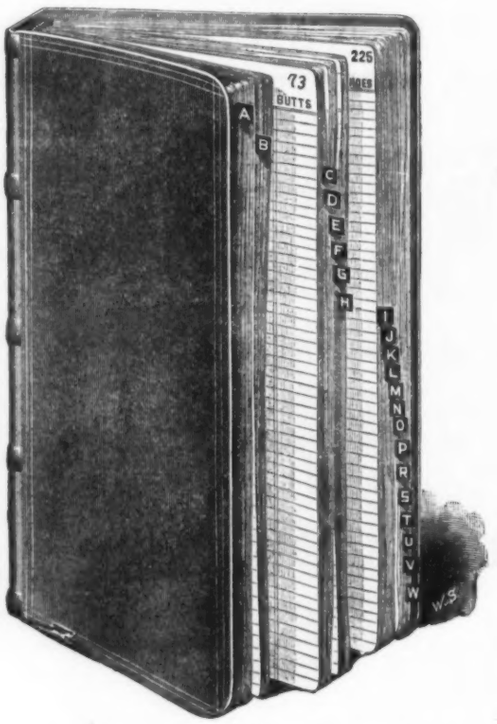
LAMBERSON'S
HARDWARE PRICE BOOKS.



POCKET EDITION,

4 x 7 inches, 250 pages.

BOUND IN LEATHER.

PRICE, · $4.00.

LARGE SIZE,

FOR

OFFICE USE.

6 x 9½ inches, 500 pages.

BOUND IN LEATHER,

PRICE, · $8.00.

THE illustration serves to show the general appearance of the Large Price Book. Dealers who have copies of the first edition will observe that the old classification is abandoned and the alphabetical arrangement adopted in its place. The names of different articles are printed at the upper corner of each page. The index cut on the front edge of the book gives a ready reference to the beginning of each letter, and by turning the corners of the pages any item desired in that division can be very quickly found.

On the first page opened to by the index letter will be found a list of articles beginning with that particular letter, arranged with two spaces after each item for additions of other goods in proper alphabetical order.

Sizes of leading lines are printed, and in case of Rules and Planes comparative numbers are given. Lists are omitted for the obvious reason that they are liable to change, but forms are arranged so that lists may be added with pencil. Useful tables are inserted on Strap Hinges, Nuts, Washers, Wire, Rivets, Stocks and Dies, Rope and Nails. The book is intended primarily for ***Salesmen,*** but it is no less useful to ***Buyers*** or ***Stock*** and ***Entry Clerks,*** and can be adapted to any purpose for which a price book may be desired. The general plan of the Pocket Edition is the same as in the large book, but the ruling and printing are on a smaller scale. The book is small enough to be carried in the pocket without inconvenience, but the arrangement is so perfect that it will cover a very complete line of hardware.

Palmer Hardware Mfg. Co, Troy, N. Y.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Blake & Johnson, Waterbury, Ct.
Wheeler, Madden & Clemson Mfg. Co., Middletown, N. Y.

Saw Sets.
Truax, Chauncey S., 64 College Place, N. Y.

Saw Vises.
Seneca Falls Mfg. Co., Seneca Falls, N. Y

Scales, *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon John & Sons, Cliff, N. Y
Howe Scale Co., Rutland, Vt.
Riehlé Bros., Philadelphia.
Troemner, Henry.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Ct.
Gay & Parsons, Augusta, Me.
Ehrich Rdw. Mfg. Co., Plantsville, Conn.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
Wm. H. Haskell Co., Pawtucket.
Miles F. S., 205 Quarry, Philadelphia
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Seneca Falls Mfg. Co., Seneca Falls, N. Y
King, O'Connor & Co., Baltimore, Md.

Scythe Stones and Whetstones.
A. F. Pike Mfg. Co, Pike Stat'n, N.H.
Cleveland Stone Co., Cleveland, O.
Lake Huron Stone Co., Detroit and Chicago.

Shafting, *Makers of.*
Cresson Geo. V., Philadelphia, Pa.
Pierson & Co 24 to 27 West, N. Y.
Wood, Thos. & Co., Phila., Pa.

Shears, Iron.
E. W. Bliss Co., Brooklyn, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn.
Henry Seymour Cutlery Co., N. Y.
Schollhorn & Co., New Haven, Ct.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Shoe Brushes.
Thompson Mfg. Co., Lansingb'h, N. Y.

Shovels, Spades and Scoops.
Hussey, Binns & Co., Pittsburgh, Pa.
Rowlands Sons, T., Philadelphia, Pa.
Sanford Fork and Tool Co., Terre Haute, Ind.

Shutter Worker.
Dodd Shutter Worker Co., 26 Church, N. Y.

Sinks.
Douglas W. & B., Middletown, Conn.

Smelting Works.
Reeves Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander W. R. & Co., N. Y.
Walsh Owen 105 Walker, N. Y.
Wollensak, J. F., Chicago, Ill.

Sporting Goods.
Field, J. B. & Co., Detroit, Mich.
Shields, Jno. & Co., Brookline, Mass.

Spelter.
Manning & Squier 111 Liberty, N. Y.

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Ma
Sabin Machine Co., Montpelier, Vt
Titus & Babcock, Rochester, N. Y.
Tuck Mfg. Co., Brockton, Mass.

Spring Hinges.
Chicago Spring Butt Co., Chicago, Ill.
Stover Mfg. Co., Freeport, Ill.
Union Mfg. Co., 103 Chambers, N. Y.
Van Wagoner & Williams Co., N. Y.

Stamping Works.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Staples.
New Haven Staple Works, New Haven, Conn.

Strops.
Torrey J. R. & Co., Worcester, Mass.

Steam Hammers, &c., *Makers of.*
Dienelt & Eisenhardt, Philadelphia.
Dudgeon Richard, 24 Columbia, N. Y.
Duncan W. P. & Co., Bellefonte Pa.

Steam Heating.
Broomell & Sanas, York, Pa

Steam Pumps, &c., *Manufacturers.*
Goulds Mfg. Co., 60 Barclay, N. Y.
Hooker-Colvile Steam Pump Co., St. Louis, Mo.
McGowan John H. & Co., Cincinnati.
Norwalk Iron Wks.Co., 80. Norwalk.

Steam Traps.
Aller Amos, 109 Liberty, N. Y.

Steel Figures and Alphabets.
Stutsman J. M., 181 William, N. Y.

Steel Importers.
Abbott Jere & Co., N. Y. & Boston.

Bradley's HEATING FORGES

Established 1832

Pat. Aug. 30, 1887

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

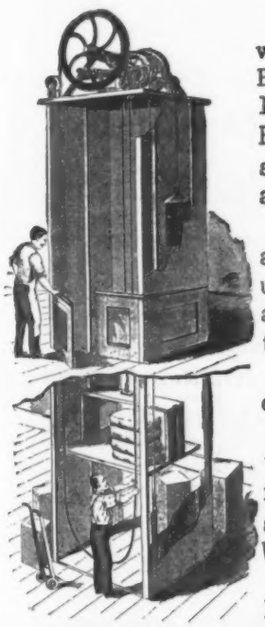
Established 1832.

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

THE HUMPHREY PONY HAND ELEVATOR.

(Patent Applied for.)



For light Store and Factory work, Hospitals and Public Buildings. For Trunk and Invalid lifts. For carrying Coal, Flour, Ashes and other heavy substances in Tenements, Flats and Private Dwellings.

So simple in construction, and price so low that it can be used in many places instead of a dumb waiter, and has many times the lifting capacity.

Capacity 500 pounds. Price of fixtures, $36 per set.

We are also manufacturers of the New York Safety Dumb Waiter fixtures, the most complete, simple and absolutely safe Dumb Waiter fixtures ever made.

Send for Descriptive Catalogue.

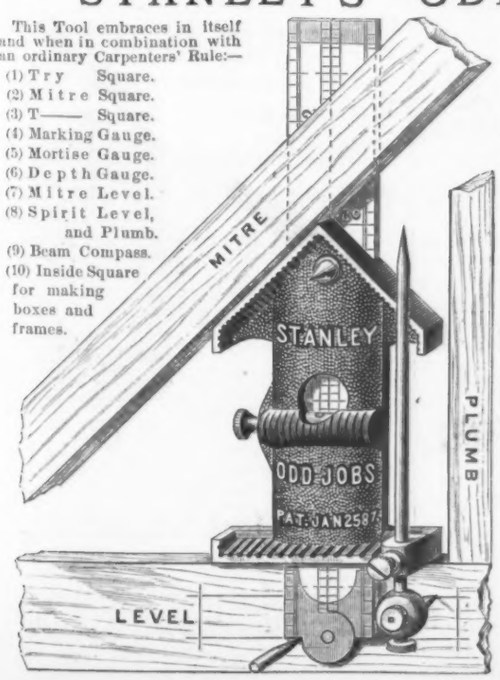
THE EDWARD STORM SPRING CO., Limited, Poughkeepsie, N. Y.

or JOHN H. GRAHAM & CO., Sole Mfrs.' Agents, 113 Chambers Street, New York.

STANLEY'S "ODD-JOBS."

This Tool embraces in itself and when in combination with an ordinary Carpenters' Rule:—

(1) Try Square.
(2) Mitre Square.
(3) T—— Square.
(4) Marking Gauge.
(5) Mortise Gauge.
(6) Depth Gauge.
(7) Mitre Level.
(8) Spirit Level, and Plumb.
(9) Beam Compass.
(10) Inside Square for making boxes and frames.



Attach the Tool to a Rule, making a try-square, or a T-square with long or short tongue; also, a right or left hand mitre-square. The pointed steel rod is a scratch-awl.

A marking-gauge is made by setting the point, or pencil, at any required distance from the square end of the stock. A mortise-gauge, also, by inserting an additional point, or pencil, in the angle at head of the Rule. A graduated depth-gauge is furnished by extending the Rule down from the square end of the stock.

The steel point at mitred end of the tool forms a center, from which a circle can be swung (as with a beam compass) 11½ to 13 inches in diameter. For small circles, reverse the steel rod, to bring the pencil nearer the center-point.

A circle of 25 inches diameter can be swung, if the Rule alone is used, with a pencil in the angle at its head.

No. 1. Odd-Jobs, Nickel-Plated, with Level.....$0.75

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

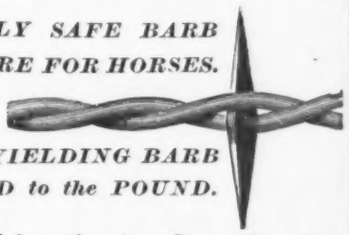
KELLY
BARB WIRE COMPANY,
SUCCESSORS TO
THORN WIRE HEDGE CO..

ONLY SAFE BARB WIRE FOR HORSES.



A YIELDING BARB ROD to the POUND.

Sold only to One Dealer in a Place.

The great advantage of this style of barb is, that when an animal is pricked the barb will turn just enough to let him off without *tearing out the flesh.* It costs but little more per rod than the *hide-ripping wire usually sold. The Paint is warranted* to be as durable as galvanizing.

Country Merchants will find it to their advantage in securing the agency on a class of goods that is in demand and that has no competitor of its kind. We also make both *Two* and *Four-Point Wire Barbs.*

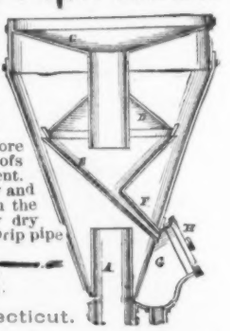
LYMAN

Steam Condensing Exhaust Pipe Head

For the protection of Roofs and Walls of Buildings from the Hot and Greasy Condensation emitted from Exhaust Pipes.



The water of Condensation from Exhaust Pipes of Steam Engines when discharged above roofs and alongside of walls will, in a short time, cause considerable damage in the rotting of roofs and also wash away the mortar in brick walls, as the condensation is always hot and therefore very destructive. This Exhaust Pipe Head will effectually keep the roofs and walls entirely dry and avoid the repairs on roofs formerly so frequent. Another advantage in the use of this Head is in protecting the passers-by and sidewalks from a shower of greasy water which invariably happens when the exhaust pipe is exposed near the street. The escape steam is perfectly dry and noiseless, and there is no back pressure on the Exhaust pipe. The Drip pipe conveys away the condensation wherever desired. Send for Circulars.

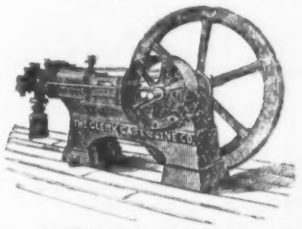
Our patented Vertical Boiler will not prime. No danger of burning flues

THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.



Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject. WM. SELLERS & CO., Incorporated,

July, 1887. Philadelphia, Pa.

THOMAS WOOD & CO.

Send for Circulars.

BELDEN'S
Upright Power Hammer.
This Hammer possesses advantages superior to any other in the market. It has neither cylinders, valves nor piston rods—consequently no friction. It takes up less space, less power to drive, strikes harder and truer blows than hammers with double the weight of ram.
It can be worked to strike good alternate blows on a 1-inch and ¾-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the
R. A. BELDEN COMPANY, Danbury, Conn.

Cut of 60 lb. Hammer.

"ALWAYS READY."

HIGGINSVILLE, Mo., July 1, 1887.

Hooker-Colville Steam Pump Co., St. Louis, Mo.:

GENTLEMEN:—We have been using one of your No. 4 Piston Pumps for nearly a year to our entire satisfaction. We have not had any trouble with it since it started. We are more than pleased with the Pump, it is **always ready** and does its work to perfection, and we unhesitatingly recommend it to any one needing Steam Pumps.

Very respectfully,
THE HIGGINSVILLE MILLING CO.,

CAUTION.

We desire to call your attention to the fact that the great reputation and popularity of our Machines have induced a concern to attempt an exact imitation thereof; also, issuing a fac-simile copy of our late catalogue. We find they have bought a full line of our Champion Lever Blowers, Champion Lever Forges and Eureka Tire Benders, taken them apart and used them as patterns, regardless of our "Patents." We simply wish to make the above facts known and warn all trespassers on our rights of our intention to prosecute.

IRON ORE PROPERTY.

For Sale or Lease, situate within three miles of the C. & O. Ry., at White Sulphur Springs, W. Va., about 3000 Acres, under-laid near surface by a persistent seam of red oxide iron ore from 10 to 60 feet in thickness. Numerous analyses show

61 per cent. Metallic Iron.
.07 per cent. Phos.
.05 per cent. Sulphur.

Six miles of outcrop have been proved by a number of openings. The helderberg limestones, more than 300 feet thick, are exposed at many points, and the hills containing the New River coking coals are within sight. There are good sites for furnace plants in the immediate vicinity, and ample water for all purposes. For further particulars, apply to

FOR RENT!!! "Water Power," "Water Power."—The nearest available water power to New York City at Boonton, New Jersey. Constant all the year around! This magnificent water power will be leased in small or large quantities to suit the tenant. Suitable buildings erected for all kinds of manufacturing purposes. Splendid shipping facilities! On the line of railroad and canal. Only 50 minutes from New York City by train. This power will be leased at a great reduction on steam. Address LORD ESTATE, 68 Wall Street

COIL-BOILERS FOR THE U NITED STATES NAVY.—NAVY DEPARTMENT, Washington, D. C., August 2, 1888.—The Navy Department, having in view the possible decrease in weight of machinery in vessels of war by the use of tubulous, sectional or coil-boilers, has determined to adopt such boilers, if suitable can be found, for a portion of the steam-power of one or more of the vessels about to be built. To this end manufacturers who wish to offer such boilers for use by the Department are hereby invited to furnish plans of the same, adapted to an armored coast-defence vessel, on or before September 15, 1888. Plans must be accompanied by certificates that boilers of the same make are or have been in successful use at sea or on shore. Plans showing the space in the vessel available for boilers, particulars of the duty required and other information, may be obtained upon application to the Bureau of Steam Engineering. The boiler which appears to the Department, after investigation, to be the best for the purpose, taking into account the evaporative efficiency, the dryness of the steam, the weight of the boiler, the weight of the water contained, the accessibility for repairs, the ease of making repairs, the simplicity and interchangeability of the parts, the space occupied, the ease of firing and of regulating the feed, the suitability for working in battery, the capability of long-continued steaming without cleaning, and the durability, will be adopted in the coast-defense vessel above mentioned, provided that the price, which must be stated when the plans are submitted, is satisfactory to the Navy Department. Such boilers as appear to possess merit will be tested by the Navy Department, if the manufacturers so desire, to determine which is the more suitable for the purpose. Manufacturers who wish their boilers to be tested must furnish a boiler of the type of one of those proposed for the vessel and prepare it for test, either at their own works or at such place as may be arranged with the Department. The expense of the test of the accepted boiler will be borne by the Navy Department, and the cost of the fuel used in the test of the second best will also be borne by the Navy Department. All other tests must be at the expense of the parties offering boilers for competition.

WILLIAM C. WHITNEY,
Secretary of the Navy.

A GOOD HARDWARE BUSINESS FOR SALE.

Wishing to retire from all active business, the undersigned offer for sale their valuable and thoroughly established business. The stock is clean and well selected. Waverly, New York, is a growing place, with considerable manufacturing, and surrounded by a good farming country; has good water, gas works and sewers, also five railroads radiating from it. The location of the store building is central, with every convenience, including hydraulic elevator, &c. The business has been conducted successfully as wholesale and retail; can be continued as we have conducted it, or else we can soon reduce the stock, and it can be conducted as a retail alone.

In negotiating sale, reference given and required.

MERRIAM BROS., Waverly, N. Y.

Valuable Manufacturing Property
FOR SALE.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 h.-p. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired.

Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

WANTED.

HARDWARE SPECIALTIES to manufacture or will buy good patents. Address with particulars

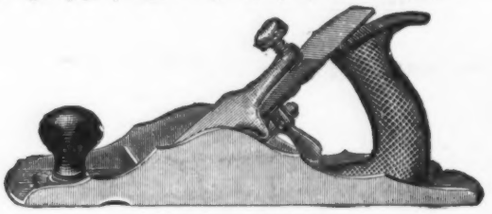
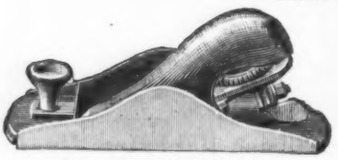
CHAPLIN'S PATENT IRON AND WOOD BOTTOM PLANES.



Jacks and Jointers.

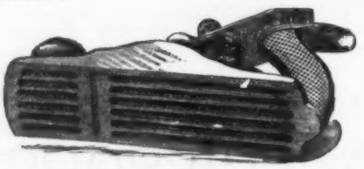
Jack Plane.—Nos. 77, 78.



Nos. 20 and 30 Blocks.

These planes (*with a smooth face*) have been in the market for many years, obtaining a steadily increasing trade as they have become known. We claim for them the utmost simplicity of construction, prompt adjustment and superior beauty of style and finish.

The clamp plate and lever are nickel-plated; the handle is of checkered rubber, which is stronger than any wood handle, and affords an easy, firm grip—also made with nickled iron handle.



Smooth Plane, Corrugated Bottom.

This Cut shows the surface of our new Corrugated Iron Planes. The corrugations afford ample air spaces, and reduce the traction and friction to the minimum. Same price as smooth face.

Corrugated face.	Smooth face.	
	No. 202, Iron Smooth Plane, 7x1⅝ in. Cutter	$3.00
	No. 203, Do., do., 8x1¾ in. do	3.52
	No. 204, Do., do., 9x1¾ in. do	3.35
No. 1205	No. 205, Do., do., 9x2 in. do	3.50
	No. 206 Iron Jack Plane, 12x2	3.85
No. 1207	No. 207, Iron Jack Plane, 15x2¼	4.25
No. 1208	No. 208, Iron Fore Plane, 18x2¼	5.00
No. 1210	No. 210, Iron Joiner Plane, 22x2⅜	5.75

Corrugated face.	Smooth face.	
	No. 211, Iron Joiner Plane, 24x2⅜	$6.75
	With Adjustable Throat.	
	No. 233, Iron Smooth Plane, 8x1¾.	3.50
No. 1255	No. 255, Iron Smooth Plane, 9x2.	3.75
	All of these Planes are nickel-plated finish.	
	No. 20, Block Plane, Japanned, 6½x1⅝ in. Cutter	1.40
	No. 30. Block Plane, Nickel-Plated, 6½x1⅝ Cutter	1.65

OUR NEW WOOD BOTTOM PLANES.

The Clamping Plate and Lever are nickel-plated; the Beechwood has been thoroughly seasoned and is a thicker block than usual, though the Plane is no heavier than those already in the market.

No. 72.	Smooth Plane, 7	x1¾ inch Cutter,	$2.00
" 73.	" " 8	x1¾ " "	2.00
" 74.	" " 8½	x2 " "	2.00
" 75.	Handled Smooth Plane, 9	x2 in. Cutter,	2.50
" 76.	" " " 10	x2⅜ "	2.75
" 77.	Jack Plane, 15	x2⅛ inch Cutter,	2.35
" 78.	" 15	x2¼ "	2.60
" 79.	Fore Plane, 18	x2⅜ inch Cutter,	2.75
" 80.	" " 20	x2⅜ " "	2.75
" 81.	Jointer Plane, 22	x2⅜ inch Cutter,	3.00
" 82.	" " 24	x2⅛ " "	3.10
" 83.	" " 26	x2⅝ " "	3.25
" 84.	" " 28	x2⅜ " "	3.25

The Adjustable Mouth Smooth Plane is a new feature, and meets with a great deal of favor.

A NEW DEPARTURE!

The Smith & Wesson Hammerless, Safety

REVOLVER.

Provided with Automatic Shell Extractor, Rebounding Lock.

Absolute Protection from Accidental Discharge Insured.

CALIBRE 32, WEIGHT 14½ OZ.
—AND—
CALIBRE 38, WEIGHT 18½ OZ.,
NOW READY,

The Latest production from the Works of SMITH & WESSON, Springfield, Mass., Manufacturers of Superior Revolvers, both Double and Single Action.

SUPERIORITY IN EVERY POINT UNIVERSALLY CONCEDED.

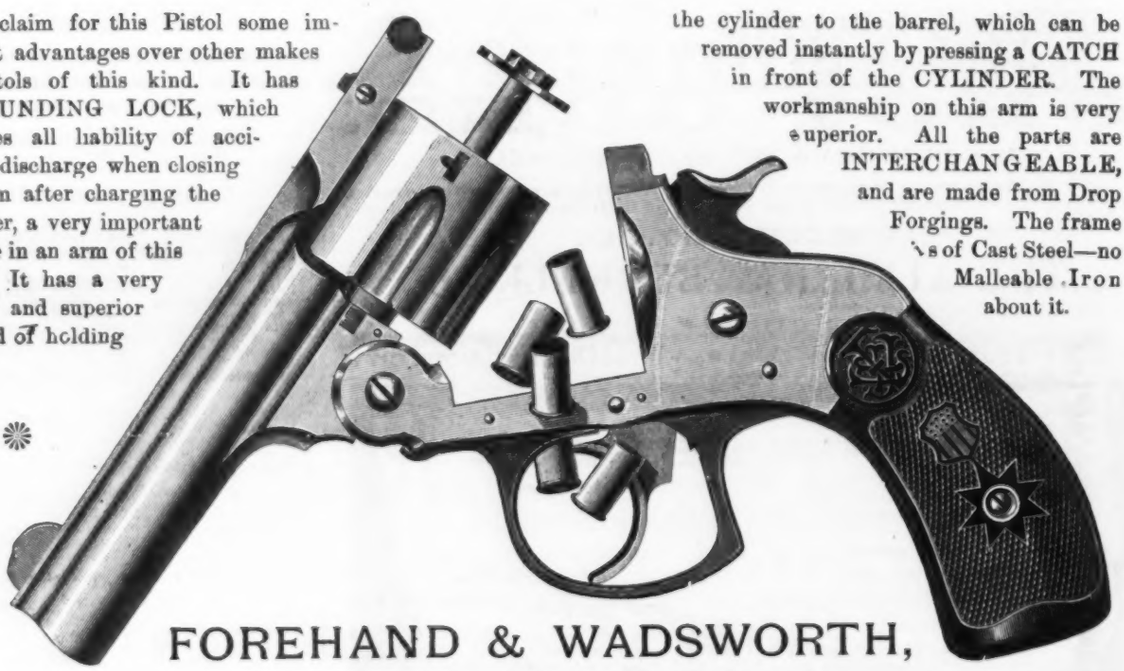
SEND FOR DESCRIPTIVE CIRCULAR.

FOREHAND & WADSWORTH'S

New Model Automatic Shell-Extracting Revolver

32 and 38-100 Center Fire.

We claim for this Pistol some important advantages over other makes of pistols of this kind. It has REBOUNDING LOCK, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. It has a very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a CATCH in front of the CYLINDER. The workmanship on this arm is very superior. All the parts are INTERCHANGEABLE, and are made from Drop Forgings. The frame is of Cast Steel—no Malleable Iron about it.



FOREHAND & WADSWORTH,

Worcester, Mass., U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

LOVELL'S Hammerless, Automatic Shell-Ejecting REVOLVER.

38 Cal.
Using 38 S. & W. Central Fire Cartridge.

RETAIL PRICE, $10.00.

This Revolver has many improvements not to be found in any other make, including *Improved Automatic Shell Ejector, Rebounding Lock.* Improved method of instantly removing the Cylinder, and the *Safety Attachment* in forward part of Trigger which renders accidental discharges *absolutely impossible. It is the Safest Revolver Made.* Descriptive Circular and Prices to the Trade Furnished on Application.

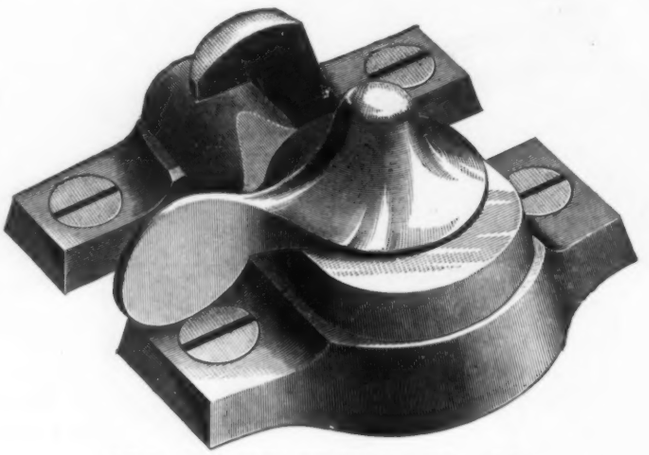
THE IVES PATENTED

SASH LOCKS AND MORTISE BOLTS

A very important feature of the IVES SASH LOCK, is in its securely locking when closed and simultaneously drawing the meeting rails closely together All the movements are accomplished by cams without the instrumentality of springs, thus avoiding the possibility of getting out of order.



IVES' PATENT BURGLAR PROOF SASH LOCKS AND MORTISE BOLTS are made under TWELVE PATENTS, but are no more expensive than many of the more common bolts and sash fasteners now on the market.

ARE MANUFACTURED IN ALL

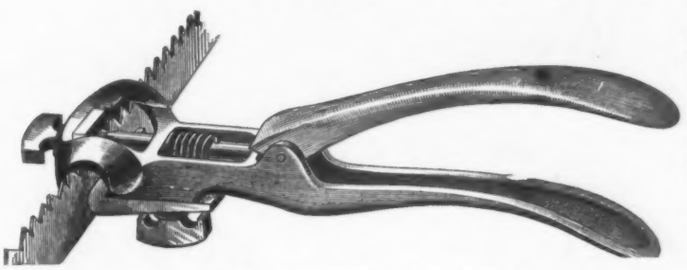
MORRILL'S PERFECT SAW-SETS.



On the application by the administratrix of the estate of the late Asa Farr, for the appointment of a receiver, the New York Supreme Court decided that the business in saw-sets carried on by Mr. Charles Morrill, at 64 College Place, since the death o Mr. Farr, belonged to the Farr estate—the court saying:

"After Farr's death Morrill could not seize upon the books office and assets of Farr's businessand by an usurpation of owner ship undertake to substitute himself in Farr's place in the busi ness the latter had built up."

Under the instructions of the court I shall continue the manufacture and sale of the Morrill saw-set.

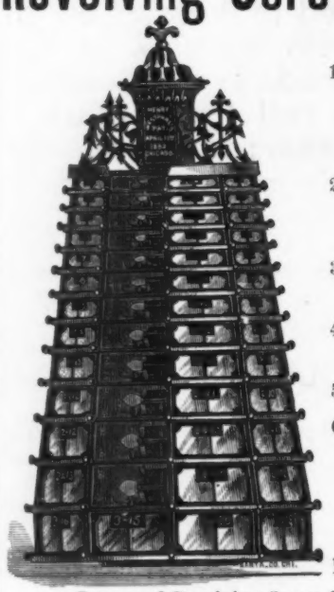
CHADBORN & COLDWELL MANUF'G CO.,
NEWBURGH, N. Y.

WESTPHAL'S IMPROVED

Revolving Screw Bolt & Shot Cases.

Advantages in Using.



1st—It is impossible to mix the different sizes of screws, bolts or shot. This is *a very important point*, and cannot be claimed in any other construction for holding these goods.

2nd—Only those behind the counter have access to the contents of the cases, thus preventing customers from helping themselves.

3rd—The condition and amount of stock is shown at a glance.

4th—They will save much space and many feet of shelving in any store.

5th—Any size can be found instantly.

6th—In addition to their great usefulness, they will ornament the counters of any store, for in these cases, utility, strength and beauty are combined.

Those who have used them say they would not part with them for many times their cost.

Improved Revolving Screw Case. Made Entirely From Iron and Glass.

SEND FOR ILLUSTRATED CIRCULARS.

THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

THE BOSTON KNOB CO.,

MANUFACTURERS OF FINE DOOR KNOBS,

No. 169 HIGH STREET,

GEO. F. WHITING, (FORT HILL SQUARE.)

President and Manager.

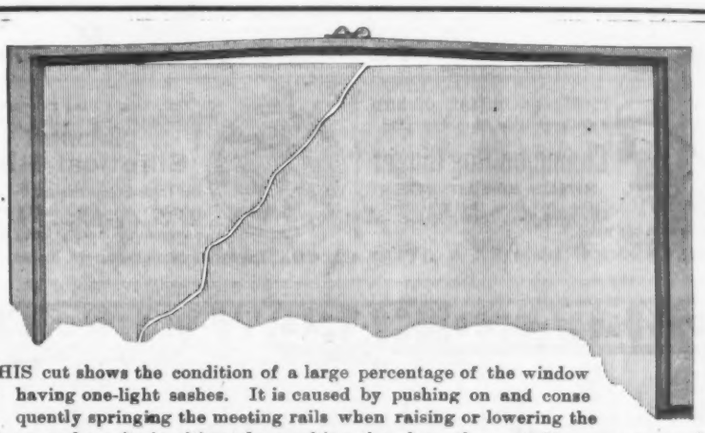
THE peculiar qualities of the Knobs made by the Boston Knob Company are, their great *strength, beauty* and *durability.*

Unlike all others, they improve in appearance, while bronze, brass or wooden knobs commence to depreciate as soon as used. The Knobs manufactured by this Company do not require cleaning or polishing.

They are furnished in a variety of colors to harmonize with the finish or decoration of rooms.

They are warranted to wear as long as any knob made. This Company use the *New Boston Spindle.*

Send to the office of the Company for prices, or to any leading wholesale hardware dealer.



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age.*

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S

THE ONLY GENUINE

LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the ABSOLUTE PERFECTION of the products.

THE WIDE AWAKE DEALER is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.

GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

MANUFACTURED ONLY BY THE

Coes Wrench Co.,

WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES'

PATENT

SCREW WRENCHES,

The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer than any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

A. G. COES & CO.

Warehouse:

Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

LIGHTNING HAY KNIVES

WEYMOUTH'S PATENT.

This Knife is the **BEST IN USE** for cutting down hay and straw in mow and stack, cutting fine feed from bale, cutting corn stalks for feed, cutting peat & ditching marshes. The blade is **Best Cast Steel**, spring temper, easily sharpened, and is giving *universal* satisfaction. A few moments' trial will show its merits, and parties once using it are unwilling to do without it. Its sales are fast increasing for export as well as home trade, and it seems destined to take the place of all other Hay Knives. They are nicely packed in boxes, 1 dozen each of 60 pounds weight, suitable for shipping by land or water to any part of the world.

Manufactured only by

HIRAM HOLT & CO. **EAST WILTON, Franklin Co., MAINE.**
For sale by the Hardware trade generally.

CAUTION.

We are informed that various parties are infringing upon the widely-known **Letters Patent** granted originally to GEORGE F. WEYMOUTH for an improved Hay Knife. The invention patented to GEORGE F. WEYMOUTH is embodied in a sword-shaped blade provided with operating handles for working the same, the edge of the sword-blade being furnished with knife-edged serrations or teeth. ☞ **It is our purpose to PROSECUTE ALL INFRINGEMENTS,** and to hold responsible to the full extent of our ability and of the law all parties who manufacture any knife infringing upon the patent, or who deal in the same. Several suits are now pending in the U. S. Courts. ☞ **All manufacturers and dealers are hereby warned** of our rights, and **the public are cautioned** against purchasing any Hay Knives, made as described above, which are not of our *genuine* manufacture.

EAST WILTON, Sept. 1, 1886.

IKE'S WHETSTONES ARE THE BEST.

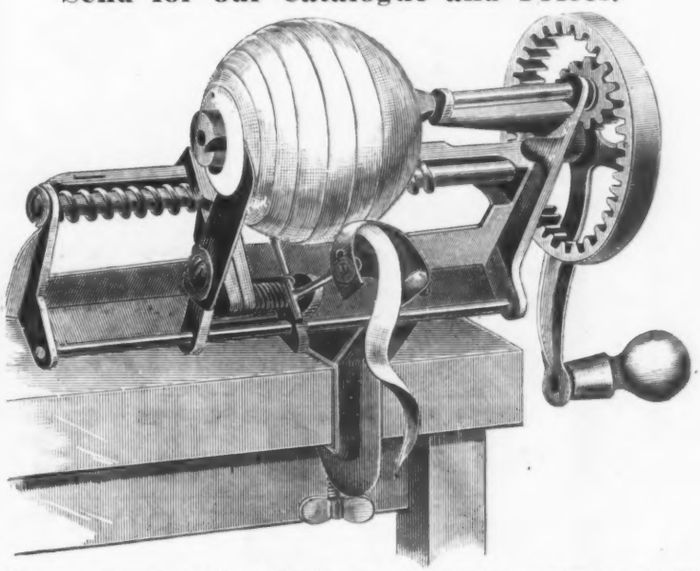
IF YOU WANT **APPLE PARERS** OF ANY KIND

Send for our Catalogue and Prices.



This cut represents the "Family Bay State" Parer, Corer and Slicer. We make the "Eureka" for Evaporators (hand or power), the "Imp'd Bay State," "New Lightning," "White Mountain," "Turn Table," and others. Prices, sizes and capacity to suit the wants of all.

GOODELL CO.,

Antrim, N. H.

THE ROYAL DAUBER.

WITH MUD SCRAPER ATTACHED.

Patented April 26, and September 27, 1887.

An entirely new thing in Blacking Brushes, consisting solely of TINNED MALLEABLE IRON and PURE BRISTLES. **SOLID, ROUND-FACED, INDESTRUCTIBLE.**

SOLID.—Not bored and drawn, nor secured with pitch or cement. Not several small knots, but ONE SOLID KNOT OF PURE BRISTLES. NO HORSEHAIR.

ROUND-FACED.—Takes Blacking from the box on its centre instead of its edges, and will therefore spread it evener, smoother and thinner, ensuring a better polish than any flat-faced brush.

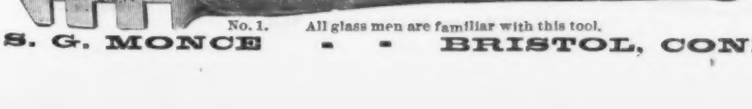
INDESTRUCTIBLE.—Because the only materials used are tin-coated iron and bristles, put together to stay, the knot of bristles being held IN ONE SOLID MASS, BY COMPRESSION, IN A GRIP OF IRON, and fastened with an iron rivet. Warranted not to "spread" or "clog" with blacking.

WILL OUTLAST A DOZEN OF ANY OTHER KIND.

This DAUBING BRUSH is made WITH A SCRAPER FOR REMOVING MUD FROM THE CREVICES OF THE SHOES. The utility of this is too apparent to need a word of commendation.

PEABODY & PARKS, MFRS., TROY, N. Y.

MONCE'S Novelty Glass Cutters are the standard. No. 17 just out. Send for Illustrations and Price. We also make the Compartment Font Interchangeable Lock Stencils that are having such a run.



No. 1. All glass men are familiar with this tool.

S. G. MONCE - - BRISTOL, CONN.

How to Keep a Store.

By S. H. TERRY.

406 Pages, 5 x 7½ inches.

This book should be in the hands of every one interested in the selling of goods at retail. Among the subjects discussed are: The selection of a business; choice of a locality; buying a stock of goods; examining, marking and arranging goods; how to advertise; employment of clerks; selling for cash and credit; keeping accounts; expenses; copartnerships; losses by fire, theft, &c.; influences of social life on business; buying at auction; investment of profits; insolvency; business qualifications. Every branch of the retail trade is treated upon in a direct, business-like manner. It is a thoroughly practical book for merchants and clerks.

PRICE, $2.50.

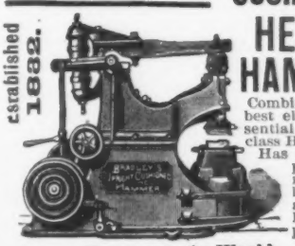
Bradley's HEATING FORGES

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER



Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

Cannon's Diamond Point Nail Sets have now been on the market long enough to prove true the many merits we claim for them, and they are to-day the best known, the most largely used, and universally popular Nail Set ever made. They can be bought from all Jobbers in Hardware in the United States, and are also sold in Canada, England, Germany, Australia, New Zealand and Mexico. For catalogue and price address the manufacturers,

THE EDWARD STORM SPRING CO., Limited,
Poughkeepsie, N. Y.
or, JOHN H. GRAHAM & CO., Sole Mf'rs Agents,
113 Chambers St., New York.

WEST'S MOULDERS' TEXT BOOK

BEING PART II. OF AMERICAN FOUNDRY PRACTICE,

Giving the best methods and rules for obtaining good castings, with detailed description for making moulds. A thoroughly practical book that should be in the hands of every moulder.

PRICE, - Cloth, - 460 Pages, - - $2.50.

Sent, post-paid, on receipt of price by

DAVID WILLIAMS, Bookseller and Pulisher, 66 and 68 Duane St., New York.

STANLEY'S
Beading, Rabbet & Slitting Plane.

PRICE.

No. 45. Iron Stock and Fence, **$8**

A Southern Carpenter writes concerning this tool: "A first-class Mechanic's pet. *Worth its weight in silver.*"

A Western Carpenter writes concerning this tool: "I have just finished one house, on which it paid for itself."

FOR SALE BY ALL
HARDWARE DEALERS.

GATE CITY STONE FILTER CO.,

46 Murray St., New York.

Open Cut shows Filter Disc used in our Filters, and Separate Patent Ice Chamber.

☞ Fine China and Gray Stone-ware Jars to hold the Water.
☞ A NATURAL STONE for a Filtering Medium.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

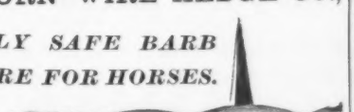
KELLY
BARB WIRE COMPANY,
SUCCESSORS TO.
THORN WIRE HEDGE CO.,

ONLY SAFE BARB WIRE FOR HORSES.



A YIELDING BARB ROD to the POUND.

Sold only to One Dealer in a Place.

The great advantage of this style of barb is, that when an animal is pricked the barb will turn just enough to let him off without *tearing out the flesh.* It costs but little more per rod than the *hide-ripping wire usually sold. The Paint is warranted* to be as durable as galvanizing.

Country Merchants will find it to their advantage in securing the agency on a class of goods that is in demand and that has no competitor of its kind. We also make both *Two* and *Four-Point Wire Barbs.*

GENERAL AGENT FOR
WHITWELL FIRE-BRICK STOVES
AND
CLAPP-GRIFFITHS PATENTS FOR MANUFACTURE OF SOFT STEEL
Especially adapted for A No. 1 Boiler Plates Boiler Rivets, Wire Rods, Stay Bolts Stamping Ware, Nail Plates, &c.

Will contract to completely erect, equip and place in operation Blast Furnace Whitwell Stoves and Steel Plants as above. As I manufacture at our own works everything appertaining to Blast Furnace and Steel Works construction, can guarantee promptness and satisfaction.

M. V. SMITH,
Metallurgical Engineer,
Representing the Latest Improvements in
Regenerative Gas Furnaces, Artificial Gas Producing Furnaces, Rolling Mills, Steel Works, Blast Furnaces and Methods for Reducing and Treating Precious Metals. Artificial Gas applied to all branches of Metallurgy, Illuminating and Domestic Uses.
Estimates, Specifications and Plans furnished on Short Notice.
Office, BISSELL BLOCK,
PITTSBURGH, PA.

The Iron-Masters'
LABORATORY.
Exclusively for the
Analysis of Ores of Iron, Pig and Manufactured Iron, Steels, Limestone, Clays, Slags and Coal for Practical Metallurgical Purposes.
339 Walnut St., Philadelphia.
With Branch at Warrenton, Virginia.
J. BLODGET BRITTON.

This laboratory was established in 1866, at the instance of a number of practical Iron Masters, expressly to afford prompt and reliable information upon the chemical composition of the substances above mentioned, for smelting and refining purposes, the object being to make it at once a convenient, practically useful, and comparatively inexpensive adjunct to the Furnace, Forge and Rolling Mill.

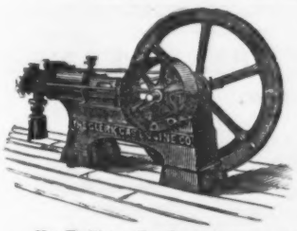
THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.



Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

THE CLERK GAS ENGINE CO., 1012-1016 Filbert St., Philadelphia

Branch Offices: 142 Chambers St., New York; 4 West 14th St., New York; 76 Dearborn St., Chicago.

LOCKPORT IMPROVED WAGON JACK

The Neatest, Lightest, Strongest, Most Compact and Cheapest Wagon Jack now in the Market.

MADE ENTIRELY OF METAL, EXCEPT THE HANDLE. THE TUBE IS WROUGHT IRON PIPE; THE LIFTING-ROD STEEL, AND THE CASTINGS GREY IRON. THE STEEL LIFTING-ROD IS ADJUSTABLE IN HEIGHT AND IS HELD BY A FRICTION CLUTCH, OPERATED BY A POWERFUL COMPOUND LEVER.

In Size, General Appearance, and Ease of Operation, in Comparison with its Power

IT IS UNEQUALED.

BAYONET AWNING-POST BASE

Made of Malleable Iron, and intended to be driven directly into the ground. No tearing-up of pavements or digging post-holes. Can be planted in **5 minutes** by **any unskilled laborer.** Much cheaper than the common cast-iron Bases, apart from the great saving in time and labor required to plant them.

No skilled labor required to erect Awning Frames if our

Malleable Awning-Frame Fittings

are used. Send for Circular, and the above statement will be made clear to you.

PANCOAST & MAULE,

243-245 South Third St., Philadelphia.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject. WM. SELLERS & CO., Incorporated,

July, 1887. Philadelphia, Pa.

PATENT PORTABLE

ROPE HOIST.

ONE MAN SUFFICIENT.

The Best Quick Lift Hoist Made.

WILL HOLD A LOAD AT ANY POINT.

Ropes weigh less than chain. Can be used for long or short lifts. Without touching hand rope, the load may be quickly lowered by a slight steady pull on brake cord. Load rope can be pulled up or down by hand instead of pulling on hand rope to raise or lower empty hook. Send for descriptive circulars of specialties.

ENERGY MFG. CO.,

BELDEN'S

Upright Power Hammer.

This Hammer possesses advantages superior to any other in the market. It has neither cylinders, valves nor piston rod to occasionally repair, takes up less space, less power to drive, strikes more and truer blows than hammers with double the weight of ram.

It can be worked to strike good alternate blows on a ¼ inch and ¾ inch bar when it is running empty, and by putting on the belt to do far greater advantage than any other hammer known. Manufactured by the

R. A. BELDEN COMPANY, Danbury, Conn.

Cut of 60 lb. Hammer.

OHIO TOOL CO.,
Columbus, O.

COIL-BOILERS FOR THE UNITED STATES NAVY.—NAVY DEPARTMENT, Washington, D. C., August 2, 1888.—The Navy Department, having in view the possible decrease in weight of machinery in vessels of war by the use of tubulous, sectional or coil-boilers, has determined to adopt such boilers, if suitable can be found, for a portion of the steam-power of one or more of the vessels about to be built. To this end manufacturers who wish to offer such boilers for use by the Department are hereby invited to furnish plans of the same, adapted to an armored coast-defence vessel, on or before September 15, 1888. Plans must be accompanied by certificates that boilers of the same make are or have been in successful use at sea or on shore. Plans showing the space in the vessel available for boilers, particulars of the duty required and other information, may be obtained upon application to the Bureau of Steam Engineering. The boiler which appears to the Department, after investigation, to be the best for the purpose, taking into account the evaporative efficiency, the dryness of the steam, the weight of the boiler, the weight of the water contained, the accessibility for repairs, the ease of making repairs, the simplicity and interchangeability of the parts, the space occupied, the ease of firing and of regulating the feed, the suitability for working in battery, the capability of long-continued steaming without cleaning, and the durability, will be adopted in the coast-defense vessel above mentioned, provided that the price, which must be stated when the plans are submitted, is satisfactory to the Navy Department. Such boilers as appear to possess merit will be tested by the Navy Department, if the manufacturers so desire, to determine which is the more suitable for the purpose. Manufacturers who wish their boilers to be tested must furnish a boiler of the type of one of those proposed for the vessel and prepare it for test, either at their own works or at such place as may be arranged with the Department. The expense of the test of the accepted boiler will be borne by the Navy Department, and the cost of the fuel used in the test of the second best will also be borne by the Navy Department. All other tests must be at the expense of the parties offering boilers for competition.

WILLIAM C. WHITNEY,
Secretary of the Navy.

FACTORY LOCATIONS.

Correspondence invited from manufacturers seeking new locations, or from parties wishing to engage in manufacturing enterprises.

Full information given regarding the many advantages offered by our city as a manufacturing centre, among them being 16 lines of railroads; coal at 50 cents per ton, &c., &c.

Good reason for selling. Correspondence and investigation from parties meaning business solicited. Address
"WESTERN CITY,"
Office of *The Iron Age*, 66-68 Duane St., N. Y.

Valuable Manufacturing Property

FOR SALE.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 h.-p. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired.

Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

AN IRON CO. having large quantity of orders, a well-equipped, newly built and well located Plant, for the manufacture of Steam-Heating Material, such as Radiators, Pipe Fittings, &c., and worth about $50,000, net, wish to increase their capital and business and obtain from $10,000 to $30,000, and a gentleman capable of managing office affairs. It is the only concern of the kind in the Northwest, and the trade in this section is unlimited. Address, "Iron Co.," Room 7, Gilfillan Building, St. Paul, Minn.

FOR SALE.

A rare chance is offered for the purchase of one of the oldest Wholesale Hardware Stores in the South (established 1839); a clean, well assorted stock; no shop worn goods; stock will inventory $30,000; can be reduced if so desired; good reasons for selling. For particulars address
"BUSINESS," Box 234,
Office of *The Iron Age*, 66-68 Duane St., New York

EXCELLENT OPPORTUNITY.

An old established Hardware House wants a good smart business man to buy one-third interest and do the buying. Retail sales, $65,000, and can be grown to $100,000; located in center of city of 150,000 inhabitants in this State; this is a first-class opportunity for the right man to get in a safe and profitable business; no risks; capital required between $6000 and $7000. Address
"ROGERS,"

Y., and doing a thriving jobbing business, besides manufacturing a line of special mill machinery of which he owns the patents, desires a working partner with a capital of from $12,000 to $15,000, which amount can be doubled in three years, besides a good salary. Must be a practical machinist, and first class in every requirement. Address
"WORKING PARTNER,"
office of *The Iron Age*, 66-68 Duane Street, N. Y

A GOOD HARDWARE BUSINESS FOR SALE.

Wishing to retire from all active business, the undersigned offer for sale their valuable and thoroughly established business. The stock is clean and well selected. Waverly, New York, is a growing place, with considerable manufacturing, and surrounded by a good farming country; has good water, gas works and sewers, also five railroads radiating from it. The location of the store building is central, with every convenience, including hydraulic elevator, &c. The business has been conducted successfully as wholesale and retail; can be continued as we have conducted it, or else we can soon reduce the stock, and it can be conducted as a retail alone.

In negotiating sale, reference given and required.

MERRIAM BROS., Waverly, N. Y.

Steam Boilers, their defects, management and construction. Numerous illustrations and tables. By R. D. MUNRO.....$1.40

Journal of the Iron and Steel Institute, No. 2, 1887. Synopsis of Contents: The Metallurgical and Mechanical Exhibits at the Manchester Royal Jubilee Exhibition, by Thomas Ashbury. The Reduction of Ores of Iron in the Blast Furnace, by Sir Lowthian Bell. Notes on the Basic Open-Hearth Process, by J. W. Wailes. Electric Lighting in Works and Factories, by Prof. J. A. Fleming. Appendix. Notes on the Progress of the Home and Foreign Iron and Steel Industries. Statistics. Comparative Tables. Bibliography.....$6.00

A New Basis for Chemistry. By THOMAS STERRY HUNT.....$2.00

Principles of Dynamo-Electric Machines and practical directions for designing and constructing dynamos. With an appendix containing several articles on allied subjects, and a table of equivalents of units of measurement. 279 pages, with engravings. 12mo, cloth. By CARL HERING, $2.50

Coffee: its Culture and Commerce in all countries. Embracing the experience of cultivators in all parts of the world adapted to the crop. 264 pages with illustrations, 8vo, cloth. By C. G. W. LOCK..$4.00

Electricity and Magnetism. Vol. 2. Methods of Measurement and Applications. 8vo, cloth. By MASCART and JOUBERT.....$7.50

Mineral Physiology and Physiography; or Geological and Mineralogical Studies, with a general introduction. By PROF. T. STERRY HUNT...$5.00

Handbook of Modern Chemistry, Inorganic and Organic. Second edition, revised. London. By C. M. TIDY.....$5.50

Telegraphic Mining Code, Alphabetically Arranged, For the use of Mining Companies, Mining Engineers, and all persons interested in Mines. 349 pages, 8vo. By C. ALGERON MOREING. Cloth $4.25; Interleaved, $6.25.

Detail and Ornament of the Italian Renaissance. Folio. By G. J. OAKESHOTT.....$12.00

Electricity and Magnetism. A short text-book, with 165 explanatory engravings and diagrams. 240 pages, 12mo. By T. DUNMAN.....$0.40

Richards Steam Engine Indicator. A treatise on the development and application of force in the Steam Engine. Fourth edition revised and enlarged. By C. T. PORTER. 273 pages, 20 plates, 8vo, cloth.....$3.00

Flax Culture: An outline of the History and present condition of the Flax Industry in the United States, and a consideration of the influence exerted on it by legislation, with an Introduction by J. R. Leeson. E. A. WHITMAN. 102 pages, 8vo, cloth. $1.00

Notes for a History of Lead and an inquiry into the development of the manufacture of white lead and lead oxides. 389 pages, small 4to, cloth. By W. H. PULSIFER.....$4.00

Cotton Manufacturing. Describing the whole range of processes known as Cotton Manufacturing as at present conducted. 175 pages, with 80 illustrations. 12mo, cloth. By C. B. BROOKS.$2.25

A Text-Book on Steam and Steam Engines. Third edition. With numerous diagrams, four folding plates and examination questions. 402 pages, 8vo, cloth. By A. JAMIESON.....$3.00

A Manual of Practical Assaying. By JOHN MITCHELL. Edited by WM. CROOKES, F. R. S., &c. Sixth edition, partly re-written and considerably enlarged. Illustrated by 201 fine wood cuts Nearly 1000 pages. 8vo, cloth.....$10.00

The Gas Engineer's Chemical Manual. Second edition. Revised and enlarged. 12mo, cloth. By J. A. WANKLYN.....$2.00

The Manual Training School. Its Aims, Methods and Results, with detailed courses of instruction in Shopwork and Drawing. Illustrated. By PROF. C. M. WOODWARD.....$2.00

Elementary Text Books of Practical Metallurgy. 128 pages, 12mo. By A. R. Gower.....$1.20

The Theory and Practice of Modern Brewing. With numerous illustrations. Second edition. 400 pages. 8vo, cloth. By F. FAULKNER.....$8.50

Naval Annual 1887. 770 pages and upwards of 200 plates, illustrations, maps and charts. 8vo, cloth. By LORD BRASSY.....$3.00

Spons' Architect and Builder's Price Book (English prices). With useful memoranda and prices. Fifteenth edition, 310 pages, 12mo cloth. $1.50

Electrical Distribution by Alternating Currents and Transformers. By R. KENNEDY.....$0.80

American Street Railways: Their Construction Equipment and Maintenance. Containing over 200 pages of text, illustrated with cuts and detail plans of stables, car houses, track work, etc. 12mo, bound in leather. By A. W. WRIGHT.....$5.00

Steam Boilers. A practical treatise on boiler construction and examination. For the use of practical boiler makers, boiler users and inspectors. 73 engravings, 250 pages, 8vo, cloth. By JOSHUA ROSE.....$2.50

The Culture and Manufacture of Indigo: With a Description of a Planter's Life and Resources. Illustrated. 165 pages, crown 8vo. By W. M. REID.....$3.00

WILLIAM A. BAEDER. HOWARD R. KERN.

BAEDER FLINT PAPER CO.,

283 Pearl Street, New York.

P. O. Box 2014, New York City.

WORKS, ARLINGTON, N. J.

Extract from the "Daily Register," the New York Law Journal, July 7, 1888.

ANDREWS, J.

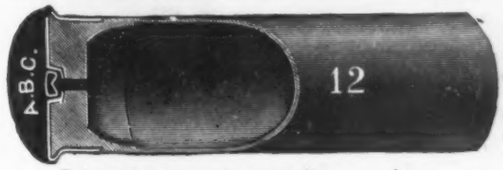
Baeder et al. v. Baeder et al. (two cases)—After a careful examination of the voluminous papers submitted in these cases I am of the opinion that Baeder, Adamson & Co. branded their **second quality** of flint paper with the word "**Baeders,**" for the express purpose, and with the effect of inducing the public to purchase such **second quality** of paper as and for the **first quality** of the flint paper of the plaintiffs, **William A. Baeder** and **Howard R. Kern**; and that the defendant, the Russell & Erwin Mfg. Co. have, knowingly and intentionally, actually sold such **second quality** paper of Baeder, Adamson & Co. as and for the **first quality** paper of said **William A. Baeder** and **Howard R. Kern.** These acts of Baeder, Adamson & Co., and of the Russell & Erwin Mfg. Co. are **clearly unlawful,** and the motion to continue until the trial of the action the **injunction,** heretofore granted by Mr. Justice Barrett, in the action brought against those parties by **Baeder & Kern** will be **granted,** with $10 costs. I do not think that the mark used by **Baeder & Kern** can be considered a simulation of Baeder, Adamson & Co.'s first quality mark, nor that it is intended or calculated to mislead or deceive purchasers into taking **Baeder & Kern's Paper** as and for the first quality paper of Baeder, Adamson & Co. The motion for an **injunction,** in the action brought by Baeder, Adamson & Co. against **William A. Baeder & Kern** will be **denied,** with $10 costs.

WE ARE NOT IN THE COMBINATION.

THE ALFORD & BERKELE CO., 77 Chambers St., New York, P. O. Box 2002.

Agents THE AMERICAN BUCKLE AND CARTRIDGE CO.,

MANUFACTURERS OF **PAPER SHOT SHELLS.**



We call your attention to our line of Paper Shot Shells as quoted below. These goods have been *much improved in quality, are guaranteed equal to any in the market* and we offer them at *lower than the combination prices.* All previous quotations are withdrawn. Samples and quotations will be furnished on application.

NEW BOOKS.

Watts' Dictionary of Chemistry. Revised and entirely rewritten. By W. F. Moreley and M. M. Pattison Muir. Assisted by eminent contributors. In four volumes. Vol I. 752 pages. 8vo, half morocco. By Hy. Watts.....$14.50

Text Book of Physics. Treating of Mechanics and Heat, Electricity and Magnetism, Acoustics and Optics. Adapted for Colleges, Technical Schools and Seminaries. Fully illustrated. By Prof. W. A. Anthony, of Cornell University and C. F. Brackett, of Princeton University, $4.00

Practical Treatise on Animal and Vegetable Fats and Oils; comprising both fixed and volatile oils. Edited chiefly from the German of Drs. Schaedler, Askinson and Brunner; with additions and lists of American patents, &c. With illustrations. By W. T. Brannt..... $7.50

The Principles of Dynamo-Electric Machines. Giving practical directions for designing and constructing Dynamos. Cloth, 279 pages, 50 Illustrations. By Carl Hering.....$2.50

Home Experiments in Science for Old and Young. A repertory of simple experiments with home-made apparatus. Illustrated. By T. O'Connor Sloane.....$1.50

Stair Building in its Various Forms, and The One Plane Method of Hand Railing as applied to drawing Face Moulds, unfolding the Center Line of Wreaths, and giving lengths of Balusters under all Wreaths. Numerous Designs and Plans of Stairs, Newels and Balusters for the use of Architects, Stair Builders and Carpenters. By James H. Monckton. Illustrated by 78 full-page plates of Working Drawings. 4to.....$6.00

Coal Tar and Ammonia; being the second and enlarged edition of a Treatise on the Distillation of Coal Tar and Ammoniacal Liquor. 756 pages, cloth. By G. Lunge.....$12.50

Civil and Mechanical Engineering popularly and socially considered. By J. W. C. Haldane..$4.50

Flour Manufacture; a Treatise on Milling, Science and Practice. Translated from the second enlarged and revised edition, with supplement, by H. H. Powles. 24 plates and 113 engravings. By F. Kick, London.....$10.00

Machine Construction and Mechanical Drawing; including spur and bevel gearing. For the use of students in science and technical schools. By T. Cryer and H. G. Jordan.....$1.00

Quantitative Chemical Analysis by Electrolysis according to original methods; authorized translation from the German of Dr. Alex. Classen. By Prof. Wm. Hale Herrick.....$2.50

The Design and Construction of Masonry Dams. Giving the method employed in determining the profile of the Quaker Bridge Dam. Illustrated by types showing the High Masonry Dams of the world. 58 plates. 4to, cloth. By E. Wegmann, Jr.....$5.00

The Engineer's Catechism. A practical treatise for the use of those in charge of steam plants. By Geo. L. Fowler.....$0.50

Petroleum Distillation and Modes of Testing Hydro-Carbons. An exhaustive treatise concerning old and new processes for separating and refining Minerals, Ores, &c. By Allen N. Leet. $2.00

The Practical Boiler Maker, Iron Ship Builder, and Mast Maker. Fourth edition, 150 pages, 12mo. By R. Knight.....$2.00

Photography Applied to Surveying. 4to, cloth By H. C. Reed.....$2.50

A Pocket-Book of Electrical Rules and Tables for use of Electricians and Engineers. Fifth edition, revised. 32mo, roan. By J. Munro and A. Jamieson.....$2.50

Journal of the Society of Telegraph Engineers and Electricians. No. 71. With Papers on Alternate-Current Transformers, by G. Kapp.—Distribution of Electricity by means of Secondary Generators or Transformers, by J. K. D. Mackenzie—Formulæ for Converters, by Prof. Geo. Forbes. 8vo, paper.....$1.40

Modern Theories of Chemistry. By Dr. Lothair Meyer. Translated from the German (5th edition), by P. Phillips Bedson and W. Carleton Williams, London.....$5.50

Treatise on Navigation and Nautical Astronomy. By W. R. Martin.....$6.50

Papers Literary, Scientific, &c. By Fleeming Jenkin, Edited by Sidney Colvin and J. A. Ewing, with a Memoir by R. L. Stevenson. 2 vols. Portrait and Diagrams. London.....$10.50

Text Book of Sound, Light and Heat. Revised and completed by Chapman Jones. With 135 explanatory engravings and designs, 170 pages, 12mo. $0.40

Rural Water Supply. Being a collection of short articles and letters contributed to scientific journals and intended for the use of those who have not the leisure to study more elaborate treatises. 46 pages. 8vo, paper. By Chas. L. Hett, A. M. I. C. E. $0.75

Management of Accumulators, and Private Electric Light Installations. Third edition, revised and enlarged. London. By Sir D. Salomons. $1.20

Sent, postpaid, on receipt of price, by

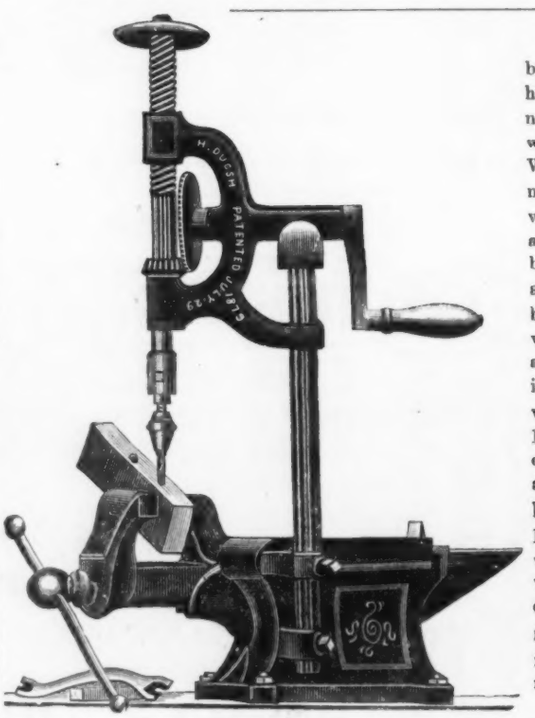
Agent—C. W. Bradley's Edge Tools, Axes, Coopers' Tools, Cleavers, Bush Hooks, Draw Knives, Ship-Carpenters' Tools, &c. Also a full stock of Planes, Brooks' Bright Wire Goods, Washita Stone and Taunton Tack Co.'s Rivets, &c.

ANVIL, VISE AND DRILL.



This machine was first made by a practical mechanic for his own use, as he could find nothing in the market that would answer his purpose. When finished, so many other mechanics wanted it that he was minded to get it patented and put it on sale. When brought to our notice we saw at once its great utility, and bought the patent for the whole United States. The anvil has a steel face, 4x8 inches. Vise Jaws 3½ inches wide, and steel faced. Steel Drill Press with adjustable chuck to hold ¼ inch drills and all smaller sizes. We have for sale Morse Twist Drills from ¼ to ¾ inches, with uniform ½ inch shanks, which justs fits into the spindle when the chuck is removed; one of these drills, for a sample, goes with each machine.

MILLERS FALLS CO.,

93 Reade Street, New York.

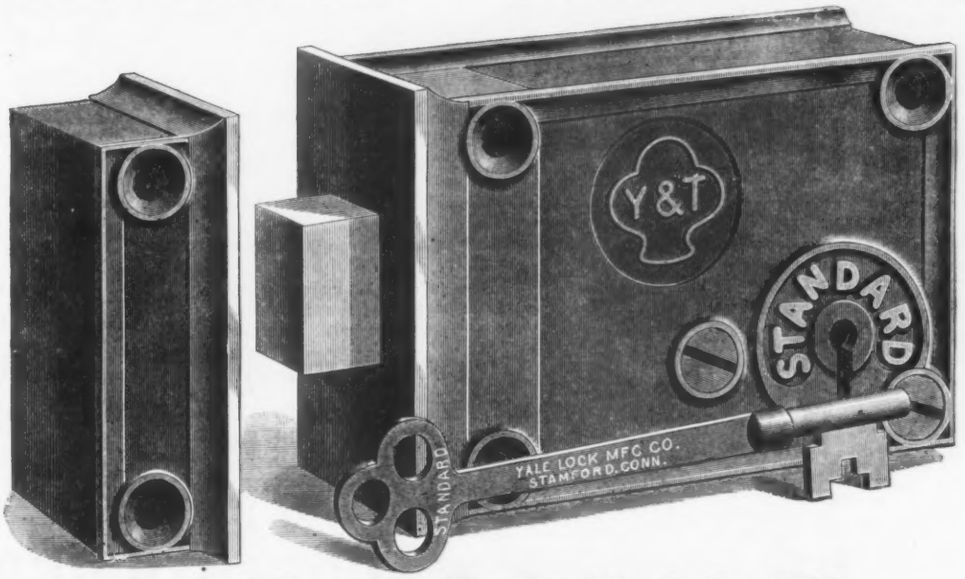
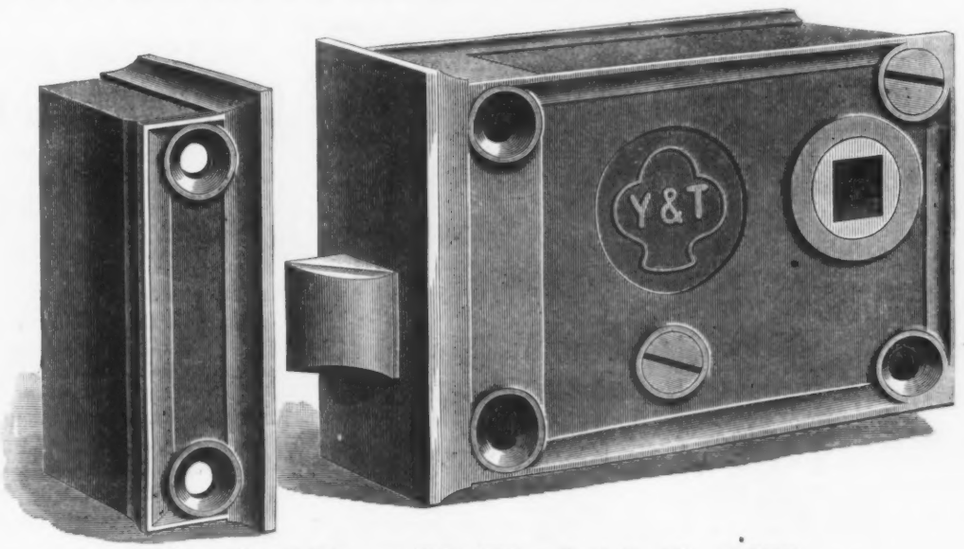
STANDARD RIM LOCKS.



Standard Reversible Rim Dead Lock, No. 4300.



Standard Reversible Rim Latch, No. 4000.

AT the request of many of the trade, and to meet the requirements for rim locks which are really locks, we offer a line of rim locks with our well-known Standard locking mechanism. They are in all respects of the same quality as our Standard mortise locks, and it is believed will find equal favor for situations where a mortise lock is not applicable. They may be had in either iron or bronze cases All locks are provided with three steel tumblers, heavy bronze bolts and steel keys.

Bucket Pump and Water Purifier.

FOR WELLS AND CISTERNS OF ANY DEPTH.

Warranted to purify a foul well or cistern in ten days' use. Does not freeze. It has no wooden tubing to wear out, decay and pollute the water; no iron tubing to rust; no suckers or valves to wear out; never has to be *primed, packed or thawed out*; has no *Leather, Rubber* or wood in contact with the water to contaminate it, and you do not have to pump out a pailful of water to get a *fresh, cool drink*, for every cup goes down full of air to the bottom and fills with cold water as the air escapes. A sample pump will be sent to any responsible dealer on 30 days' trial and if not satisfactory in every particular, and found superior to any pump on earth for domestic use, may be returned at our expense. Awarded *gold medal at World's Exposition*, New Orleans, and highest premiums at Alabama State Fair, St. Louis, Columbus, Iowa, Arkansas, Dayton, Omaha, Macon, Mobile and Cincinnati. An energetic dealer wanted in every town. For terms and discounts address

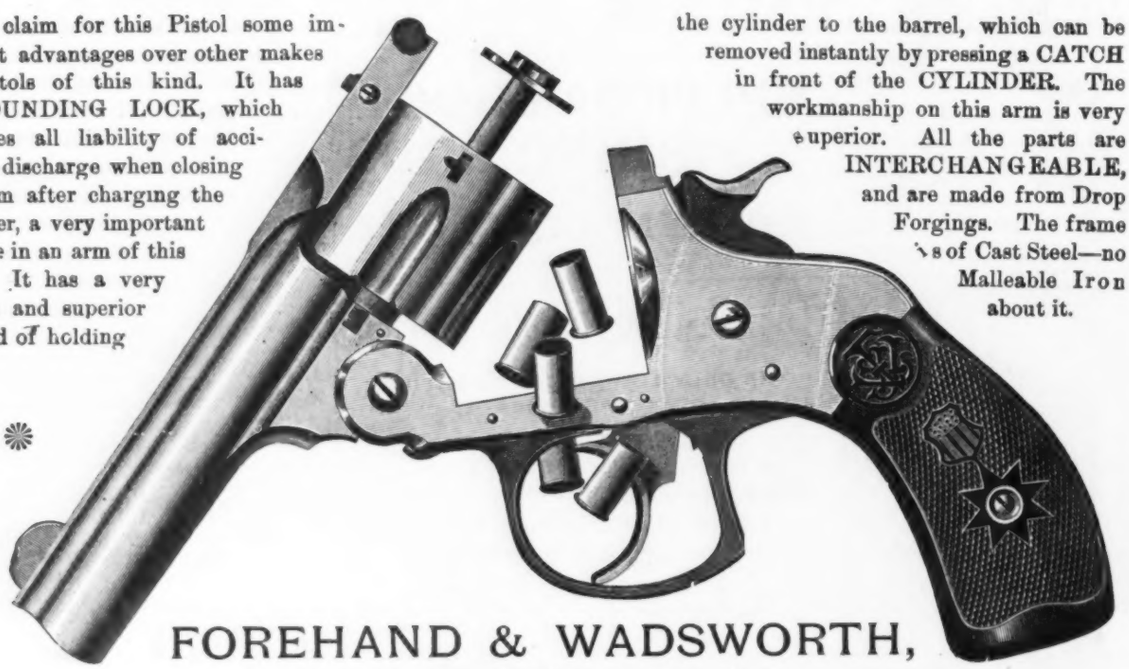
FOREHAND & WADSWORTH'S

New Model Automatic Shell-Extracting Revolver

32 and 38-100 Center Fire.

We claim for this Pistol some important advantages over other makes of pistols of this kind. It has REBOUNDING LOCK, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. It has a very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a CATCH in front of the CYLINDER. The workmanship on this arm is very superior. All the parts are INTERCHANGEABLE, and are made from Drop Forgings. The frame is of Cast Steel—no Malleable Iron about it.



FOREHAND & WADSWORTH,

Worcester, Mass, U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

LOVELL'S Hammerless, Automatic Shell-Ejecting REVOLVER.

38 Cal.
Using 38 S. & W. Central Fire Cartridge.

RETAIL PRICE, $10.00.

This Revolver has many improvements not to be found in any other make, including *Improved Automatic Shell Ejector, Rebounding Lock.* Improved method of instantly removing the Cylinder, and the *Safety Attachment* in forward part of Trigger which renders accidental discharges *absolutely impossible. It is the Safest Revolver Made.* Descriptive Circular and Prices to the Trade Furnished on Application.

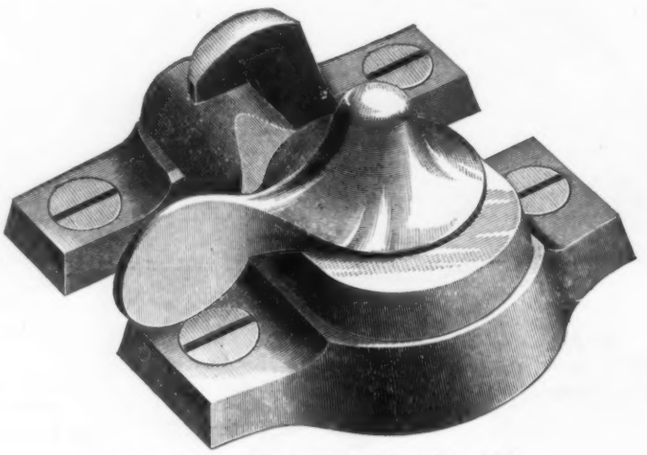
THE IVES PATENTED

SASH LOCKS AND MORTISE BOLTS

A very important feature of the Ives Sash Lock, is in its securely locking when closed and simultaneously drawing the meeting rails closely together All the movements are accomplished by cams without the instrumentality of springs, thus avoiding the possibility of getting out of order.



Ives' Patent Burglar Proof Sash Locks and Mortise Bolts are made under Twelve Patents, but are no more expensive than many of the more common bolts and sash fasteners now on the market.

ARE MANUFACTURED IN ALL

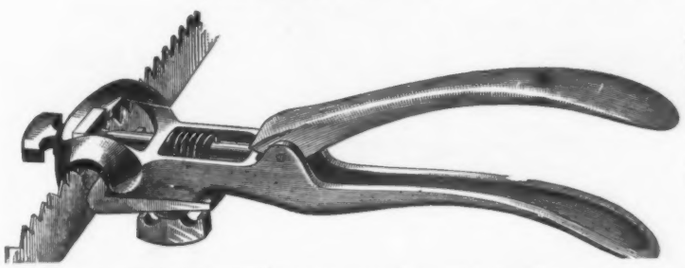
MORRILL'S PERFECT SAW-SETS.



On the application by the administratrix of the estate of the late Asa Farr, for the appointment of a receiver, the New York Supreme Court decided that the business in saw-sets carried on by Mr. Charles Morrill, at 64 College Place, since the death o Mr. Farr, belonged to the Farr estate—the court saying:

"After Farr's death Morrill could not seize upon the books office and assets of Farr's businessand by an usurpation of owner ship undertake to substitute himself in Farr's place in the busi ness the latter had built up."

Under the instructions of the court I shall continue the manufacture and sale of the Morrill saw-set.

UDELL WOODEN-WARE WORKS.

Indianapolis, Ind. 79 Reade St., New York,

MANUFACTURERRS OF

PATENT ROPE REEL.

Something That Every Hardware Dealer Needs.

The cut represents a practical and useful invention which makes the handling and selling of rope a pleasant, instead of a disagreeable task. All the vexations and unpleasantness of retailing rope overcome. No recoiling necessary. The rope is placed upon spools in the shape the coils come. Substantially built of HARD WOOD and the BEST MALLEABLE IRON, nicely finished and varnished, it makes, as well as a useful article, a very handsome and attractive sign. We have recently made a very valuable improvement, which keeps the spools perfectly steady at the top by means of an iron pivot, which drops from the cross-bars into top of each spool. This Reel may now be considered absolutely perfect.

Every Reel warranted to give satisfaction or it can be returned at our expense.

Also **Broom Stands, Step Ladders, Extension Ladders, Long Ladders, Clothes Bars** and the largest variety of **Wooden-ware** in the world.

Our No. 1 Towel Roller can't be beat. Send for our illustrated catalogue, and write for prices.

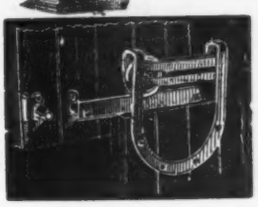
THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.



LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

THE BOSTON KNOB CO.,

MANUFACTURERS OF FINE DOOR KNOBS,

No. 169 HIGH STREET,

GEO. F. WHITING, (FORT HILL SQUARE.)

President and Manager.

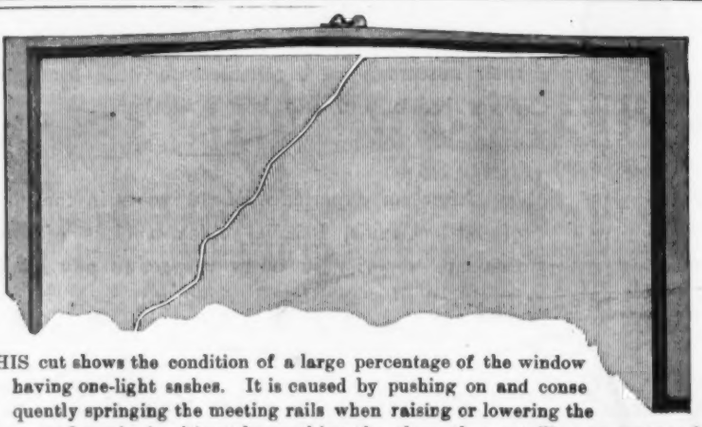
THE peculiar qualities of the Knobs made by the Boston Knob Company are, their great *strength, beauty* and *durability.*

Unlike all others, they improve in appearance, while bronze, brass or wooden knobs commence to depreciate as soon as used. The Knobs manufactured by this Company do not require cleaning or polishing.

They are furnished in a variety of colors to harmonize with the finish or decoration of rooms.

They are warranted to wear as long as any knob made. This Company use the *New Boston Spindle.*

Send to the office of the Company for prices, or to any leading wholesale hardware dealer.



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age.*

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

TO THE JOBBING TRADE.

ROMEO, MICH., July 31st, 1888.

The undersigned have this day sold to THE TAYLOR & BOGGIS FOUNDRY COMPANY, of Cleveland, O., THE KIDDER SLIDE DOOR HANGER PATENT, Patterns and Good Will of the business, and while thanking you for the liberal patronage extended to us, we would ask for our successors a continuance of same.

We do this knowing you will be promptly and satisfactorily served, as our successors have made all the goods we have sold for the past seven years.

Yours Truly,

THE KIDDER SLIDE DOOR HANGER CO.

GENTLEMEN:

In pursuance of the above "we make our bow" as the sole manufacturers of, and would solicit your early and liberal orders for, the KIDDER SLIDE DOOR HANGER.

We shall keep constantly on hand a large stock of both sizes, that orders may be promptly filled, and shall endeavor by quality of goods and fair dealing to secure you as *regular* customers, and induce you to keep these goods constantly in stock.

Yours Respectfully,

THE TAYLOR & BOGGIS FOUNDRY CO.,

65 Central Way, Cleveland, O.

SAFETY LIP "VICTOR"

Anti-Friction

Steel Door Hanger and Rail

COMPACT. SIMPLE.
CHEAP. DURABLE.

Send for Catalogue.

Dealers using bracket track are requested to try our Steel Moody Hanger and Rail, it being cheaper and as good as any Hanger of this class.

VICTOR MFG. CO.,

NEWBURYPORT, MASS.

Carrier's Anti-Friction Steel Barn-Door Hanger.

This hanger is made entirely of Steel (with exception of wheels), which have Steel axles.

The wheels are V shape, thereby preventing any friction, for the reason that the side of the groove cannot touch the track and grind on the edges, as a straight groove would do.

IT CANNOT BE THROWN FROM THE TRACK.

If for any reason the door should be raised, the wheels remain on the track and ready to receive the door when falling back. No oil required—never screeches or grinds, and guaranteed to work easier than any Hanger on the market.

We call special attention to our Double Braced Steel Track (as shown in cut), and which has commended itself to all who have examined its merits, and must become the universal favorite. Can be put up with 1 in. No. 9 screws, each bracket (which are 15 inches apart) sustaining over 1000 lbs. weight, thereby carrying heavy doors with perfect ease.

WRITE FOR PRICES.

STAR ❋ BRAND ❋ TACKLE ❋ BLOCKS,

For Railways, For Contractors, For Bridge Builders and General Trade.

We would particularly call attention to our

Self-Adjusting Five Roll Roller Bush Blocks

which for strength and durability cannot be equalled by any other make. These Roller Bushed Blocks *give twice the purchase* of the Iron Bushed Blocks, and are far more preferable to use on account of greater ease in hoisting. Try them and find out for yourselves. Call for the "Star Brand" SELF-ADJUSTING FIVE ROLL ROLLER BUSH BLOCKS.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW

THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S THE ONLY GENUINE LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the

ABSOLUTE PERFECTION

of the products.

THE WIDE AWAKE DEALER

is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

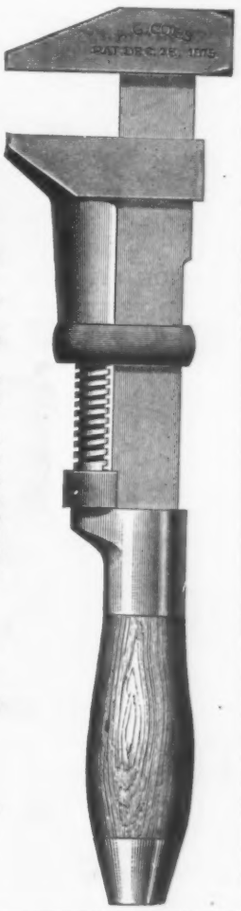
WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES'

PATENT

SCREW WRENCHES,



The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer than any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

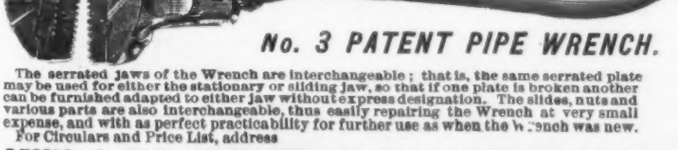
Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

This Wrench can be Furnished with Long Nut or Sleeve.



No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

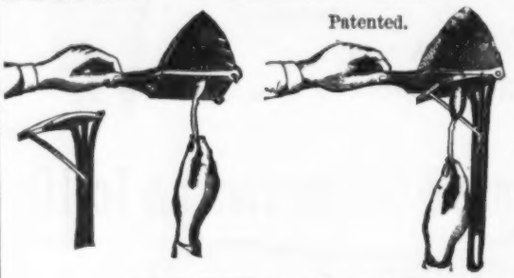
THE "DIEHL"
FRUIT PRESS AND STRAINER.


Patented.
We make this Press with *removable* plunger handle to permit the cups being *easily cleaned*. With the permanent handle it is a most *difficult* thing to *thoroughly clean* a press because the plunger invariably falls *directly in front* of the *cup* every time it is turned over to dump the matter out of it.
Without the plunger it makes a splendid *dipper strainer* for dipping and straining out of the pot. It is also a good *gravy, &c., &c. strainer*.
It makes a great, great improvement.

"RIVAL"
PATENT
Lawn Sprinkler.
Cheapest and Best in Use.

The Spray from it covers upwards of 100 sq. feet of lawn. It is the only patent adjustable Sprinkler which is adaptable to any water pressure. Being made of brass, and having no revolving parts to wear out, or small openings to clog up it can be operated with sandy or muddy water as well as clear, and will last for years. To operate, screw Sprinkler on end of hose, stick the rod into the ground in a vertical position, adjust the acorn to suit pressure and spray wanted and it is ready for use. It may be so regulated as to throw a spray as coarse as rain or as fine as mist, and will make one of the most beautiful fountains imaginable. It is unequaled in merit, requires no attention and is sold at a less price than any sprinkler in the market. Remember, the RIVAL is the only Sprinkler made by which the coarseness of the spray and the area to be wet can be regulated. They are packed 1 doz. in a box, and finished either plain or nickel-plated.

FAY'S COMBINED TRAY AND SIDE, BRACED AND BOLTED WHEELBARROW.

Classifying Wheelbarrows from the shape of that part which holds the load, there have been but three kinds which have come into general use. We may mention as the most important the Railroad, Dump or Tray Barrow, its principal uses being on Canals, Levees and Grades. Second is the Side, Garden or Farm Wheelbarrow for family use in Cities, Towns and Country. The third is the Hopper Wheelbarrow with a flat bottom and four flaring sides all stoutly fastened together, for Ore, Mortar, Shells and kindred uses. It will be seen from an examination of the cut that FAY'S WHEELBARROW combines all the advantages that may be claimed for the above styles, either jointly or separately. It has a larger range of usefulness than any of the old styles. It is superior to the tray wheelbarrow for the following reasons: It holds more; it can be filled faster; a larger load can be moved as easily; it dumps better. It is superior to the Side, Garden or Farm Wheelbarrow, for the following reasons: Its sideboards are as easily removed and replaced as in the old style; the size and shape of the box is such that it will not scatter the contents. Finally, it must be apparent to all who have given the cuts, explanations and claims a careful and thoughtful consideration that the "COMBINED WHEELBARROW" is the best for general use that has ever been invented. We manufacture Wheelbarrows of every description. If you are interested, we shall be pleased to send you our complete Catalogue and quote you prices.

ROOT'S HANDY CLOTH-BOUND HARDWARE PRICE CARDS.

COPYRIGHTED 1885.

THESE cards cover the lines having a large variety of sizes or numbers, save marking each package or article, in Retail stores, and are convenient for use in Wholesale Sample Rooms. They secure correct and uniform selling prices, for large and small buyers, save time, and are intended for years of constant use. Hence, no hardware dealer can afford to do without them, or spend the time to write and rule out cards by hand. They are printed in distinct type on the best paper, appropriately ruled with blue cross lines and red down rulings, for noting in pencil—List, Cost, Jobbing and Selling prices—as in specimen headings, shown herewith. Card A is mounted one side and B the other side of a tough, heavy card board, especially adapted for this use, protected on the edges by being *cloth-bound*, which saves framing. Two-thirds of them are 3 x 13½ inches. This size has been found convenient for hanging on a pilaster finish, or on any narrow surface, without hiding the goods. To hang or chain up each card, there is firmly inserted through the nickel-plated eyelet about ⅜ inch inside diameter. The comparative numbers of the different makers of cabinet and padlocks, rules, levels, etc., have been carefully corrected to the date of issue and many numbers added. Most houses require 6 to 12 cards extra, of **each Nos. 32 and 33**, to price lines not covered by the other numbers.

Bradley's HEATING FORGES

Established 1832

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep **Bradley's Cushioned Hammers** and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

WEST'S MOULDERS' TEXT BOOK

BEING PART II. OF AMERICAN FOUNDRY PRACTICE,

Giving the best methods and rules for obtaining good castings, with detailed description for making moulds. A thoroughly practical book that should be in the hands of every moulder.

PRICE, - Cloth, - 460 Pages, - - $2.50.

Sent, post-paid, on receipt of price by

DAVID WILLIAMS, Bookseller and Pulisher, 66 and 68 Duane St., New York.

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, postpaid, on receipt of the price, 75 cents, by

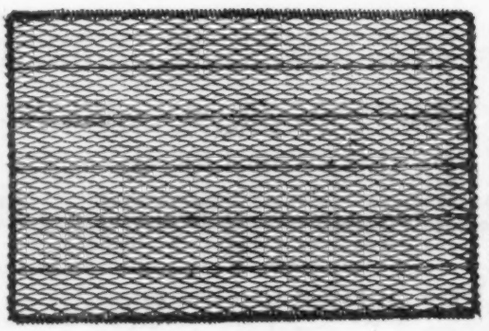
A. W. PARMELEE, Pres't. THE WIRE GOODS CO., WORCESTER, MASS.

The "FLEXIBLE" Steel Wire Mat.



This mat has heretofore been made by THE FLEXIBLE WIRE MAT COMPANIES of Chicago and Cincinnati, and was formerly known as the Stover Mat, proving itself a formidable competitor for public favor. The coil in body of fabric is flattened, thus giving an *increased scraping surface*, and is thoroughly supported by spring steel strips and braces passing from end to end. The close coils at each end render it sufficiently flexible to conform to uneven surfaces, and it is adapted to any place where a mat is required. This is our lowest priced mat, but it will be found entirely satisfactory, and is prefered by some to the other style.

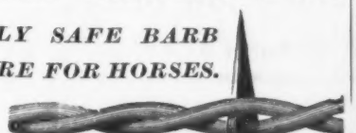
KELLY
BARB WIRE COMPANY,
SUCCESSORS TO
THORN WIRE HEDGE CO.,

ONLY SAFE BARB WIRE FOR HORSES.



A YIELDING BARB ROD to the POUND.

Sold only to One Dealer in a Place.

The great advantage of this style of barb is, that when an animal is pricked the barb will turn just enough to let him off without *tearing out the flesh.* It costs but little more per rod than the *hide-ripping wire usually sold. The Paint is warranted* to be as durable as galvanizing.

Country Merchants will find it to their advantage in securing the agency on a class of goods that is in demand and that has no competitor of its kind. We also make both *Two* and *Four-Point Wire Barbs.*

PRICE, $1.25, Postpaid.

A simple, clear and accurate presentation of the general laws, and of the laws of the several States relating to the rights of property, contracts, debts, partnerships, bankruptcy, insurance, corporations, marriage, divorce, &c., &c., with which are included correct copies of all legal instruments and forms, such as notes, deeds, mortgages, leases, wills, &c., and a dictionary of legal words and phrases.

DAVID WILLIAMS,

66 & 68 Duane St., New York

FINE CASTINGS

IN IRON OR BRASS,

ESPECIALLY FOR

Electrical Work, Lawn Mowers, Type Writers, Etc.

If you are looking for a foundry where you can depend upon obtaining really first-class castings, soft, clean, smooth and true to pattern, and are convinced it will pay you to use them, even at somewhat higher cost than cheap, hard castings, don't fail to correspond with

Springfield Foundry Co., 93 Liberty St., Springfield, Mass.

SYRACUSE

MALLEABLE IRON

WORKS,

SYRACUSE, - N. Y.

Mower and Reaper Castings and Carriage Irons a Specialty.

W. B. BURNS, PROPRIETOR.

SENSITIVE DRILLS

NEW STYLES.

GREAT IMPROVEMENTS.

Patented Gang Drills.

Two, Three and Four Spindles.

The spindles in these drills are driven with a single belt made endless no lacing; tightener pulleys for adjusting tension provided. No more trouble from slack belts, slippage, uneven motion from lacings, or time lost taking up belts.

ALWAYS READY FOR USE,

and superior to any multiple spindle drill made for drilling from .004 to ⅜ inch holes. Single Spindle Drills improved. Over 800 in use. Send for catalogue.

DWIGHT SLATE MACHINE CO.

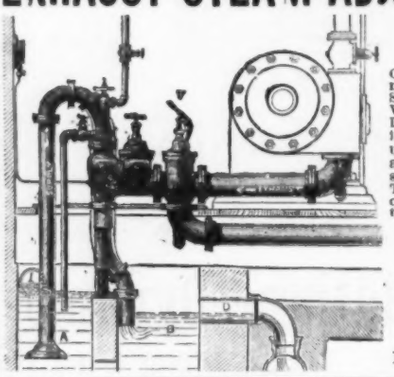
THE KORTING

EXHAUST-STEAM-ADJUSTABLE-CONDENSER,

FOR STEAM ENGINES AND PUMPS



This CONDENSER requires no Tank, no Pump, no Water Column of Thirty-four feet, or Hot Well, nor does it need any Foundation, and there is no continual waste of Steam to operate Air Pumps. It provides for its own Water Supply, whether lifting or from a fall of water. It will lift water Twenty Feet, and when a fall of water is available, only One Foot head is required The means used to accomplish this is the exhaust Steam Velocity, as it comes from Steam Engine Cylinder. The best results can be obtained without any cost of maintenance. The Price is lower than any other Condenser There is considerable saving in the use of Steam, and Twenty-five to Thirty per cent. increase in the Power of Engine.

Several Hundred of these Condensers are now in use.

SEND FOR COMPLETE ILLUSTRATED CIRCULAR.

THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.

Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady, only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

JAMES MANN & SONS, 22-30 Root St., Buffalo, N.Y.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject.

July, 1887.

WM. SELLERS & CO., Incorporated,
Philadelphia, Pa.

PATENT PORTABLE
ROPE HOIST.
ONE MAN SUFFICIENT.

The Best Quick Lift Hoist Made.

WILL HOLD A LOAD AT ANY POINT.

Ropes weigh less than chain. Can be used for long or short lifts. Without touching hand rope, the load may be quickly lowered by a slight steady pull on brake cord. Load rope can be pulled up or down by hand instead of pulling on hand rope to raise or lower empty hook. Send for descriptive circulars of specialties.

BELDEN'S
Upright Power Hammer.

This Hammer possesses advantages superior to any other in the market. It has neither cylinders, valves nor piston rods, consequently repairs are trifling. It takes up le ss space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.
It can be worked to strike good alternate blows on a 4-inch and 6-inch bar when a 100-pound hammer is used, and can be used on die work to a far greater advantage than any other hammer known. Manufactured by the
R. A. BELDEN COMPANY, Danbury, Conn.
Cut of #0 lb Hammer.

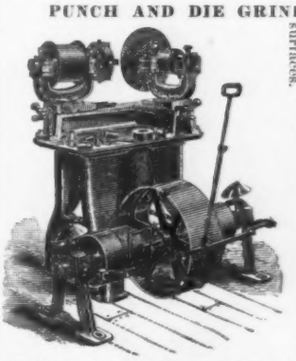
No. 3.—Surface Grinding Machine,

and No. 3 Column with Countershaft and Patent Belt Shifter combined.

A good all-around tool; complete in every detail; surface plate folds back out of the way when not used for surfacing; arranged for on bench or plain columns, with overhead counter, or counter on columns together as shown; 3 sizes; has large sale.

PUNCH AND DIE GRINDER.



This machine is used for grinding punches and dies, such as are used in making Bolts, Rivets, Screws and a large variety of square or circular pieces requiring one or more finished faces. It works equally well on hard steel, chilled iron or softer metals. It can be arranged to grind convex, concave or flat surfaces.

Work can be ground to any desired thickness or several pieces ground to the same thickness.

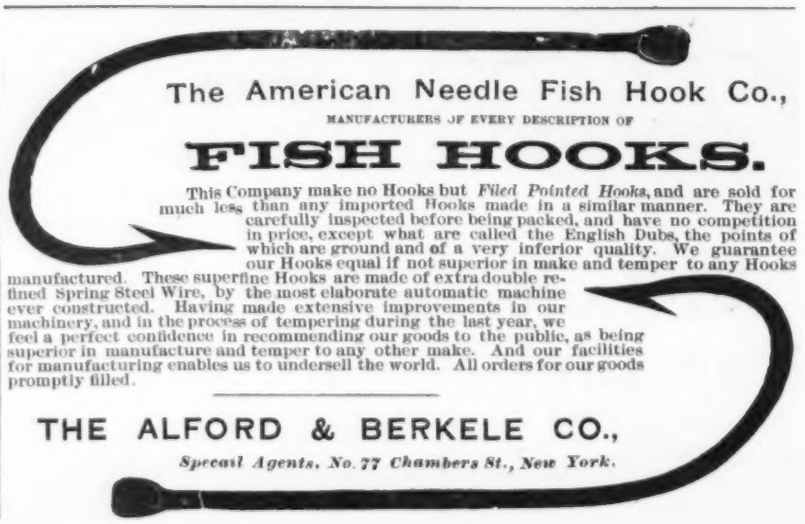
PEDRICK & AYER,
1025 Hamilton Street, - PHILADELPHIA, PA.



The American Needle Fish Hook Co.,
MANUFACTURERS OF EVERY DESCRIPTION OF
FISH HOOKS.

This Company make no Hooks but *Filed Pointed Hooks*, and are sold for much less than any imported Hooks made in a similar manner. They are carefully inspected before being packed, and have no competition in price, except what are called the English Dubs, the points of which are ground and of a very inferior quality. We guarantee our Hooks equal if not superior in make and temper to any Hooks manufactured. These superfine Hooks are made of extra double refined Spring Steel Wire, by the most elaborate automatic machine ever constructed. Having made extensive improvements in our machinery, and in the process of tempering during the last year, we feel a perfect confidence in recommending our goods to the public, as being superior in manufacture and temper to any other make. And our facilities for manufacturing enables us to undersell the world. All orders for our goods promptly filled.

THE ALFORD & BERKELE CO.,
Special Agents, No. 77 Chambers St., New York.

BARGAINS.

GENTLEMEN:—We have taken the following tools in exchange for those of our own manufacture, and are in a position to sell them low:

THE HENDEY

Geared Friction Planer.

16 inch x 16 inch x 4 feet.

For die work and use in tool rooms this planer is particularly adapted. It will plane accurately to a line and stroke can be quickly changed from one inch to full capacity of table (4 feet), maintaining at the same time a uniform cutting speed. It has a cone pulley for change of speed and automatic horizontal, vertical and angular feed. For above work it has proved a superior tool. For Planers, Shapers or Engine Lathes, address

THE HENDEY MACHINE CO.

Torrington, Conn.

FOR SALE.

VERTICAL ENGINES,

One 32 in. by 32 in.
One 15 in. by 11½ in.
Cylinder Boilers.
Steam Pumps.

H. M. SCIPLE,
Bordentown, N

COIL-BOILERS FOR THE UNITED STATES NAVY.—NAVY DEPARTMENT, Washington, D. C., August 2, 1888.—The Navy Department, having in view the possible decrease in weight of machinery in vessels of war by the use of tubulous, sectional or coil-boilers, has determined to adopt such boilers, if suitable can be found, for a portion of the steam-power of one or more of the vessels about to be built. To this end manufacturers who wish to offer such boilers for use by the Department are hereby invited to furnish plans of the same, adapted to an armored coast-defence vessel, on or before September 15, 1888. Plans must be accompanied by certificates that boilers of the same make are or have been in successful use at sea or on shore. Plans showing the space in the vessel available for boilers, particulars of the duty required and other information, may be obtained upon application to the Bureau of Steam Engineering. The boiler which appears to the Department, after investigation, to be the best for the purpose, taking into account the evaporative efficiency, the dryness of the steam, the weight of the boiler, the weight of the water contained, the accessibility for repairs, the ease of making repairs, the simplicity and interchangeability of the parts, the space occupied, the ease of firing and of regulating the feed, the suitability for working in battery, the capability of long-continued steaming without cleaning, and the durability, will be adopted in the coast-defense vessel above mentioned, provided that the price, which must be stated when the plans are submitted, is satisfactory to the Navy Department. Such boilers as appear to possess merit will be tested by the Navy Department, if the manufacturers so desire, to determine which is the more suitable for the purpose. Manufacturers who wish their boilers to be tested must furnish a boiler of the type of one of those proposed for the vessel and prepare it for test, either at their own works or at such place as may be arranged with the Department. The expense of the test of the accepted boiler will be borne by the Navy Department, and the cost of the fuel used in the test of the second best will also be borne by the Navy Department. All other tests must be at the expense of the parties offering boilers for competition.

WILLIAM C. WHITNEY,
Secretary of the Navy.

FOR SALE —Two 80 horse-power Locomotive Boilers, first-class condition, good for 75 lbs. econd-hand Iron Tanks, all sizes. Wrought and Cast Scrap, Red and Yellow Scrap, Brass, &c.

FACTORY LOCATIONS.

Correspondence invited from manufacturers seeking new locations, or from parties wishing to engage in manufacturing enterprises.

Full information given regarding the many advantages offered by our city as a manufacturing centre, among them being 16 lines of railroads; coal at 50 cents per ton, &c., &c,

Address,
J. E. CLAREY,
Acting Secretary,
The Commercial Exchange,
Des Moines, Iowa.

Do You "Catch On?"

Having one of the largest and most complete plants for the manufacture of AUGERS and AUGER BITS, we wish to arrange with some enterprising party for the extensive manufacture of these goods. Factory and machinery thoroughly equipped in all parts and ready for immediate resumption of the works. Several valuable Patented Specialties in the line in hand, which will insure the success and profit of the business. To the right man a rare and profitable investment is here offered. Should such be preferred, would sell the entire machinery, with or without the factory, at a great bargain.

GEO. F. STEARNS,
Chester, Conn.

FOR RENT.

VALLEY FORGE MILL AND WATER-POWER

With new Dam and Flood Gates,

Situated at Valley Forge, Pa., on the Phila. and Reading Railroad, 23 miles from Phila. The buildings consist of a four-story stone Mill, L shaped, with tin roof, 28 stone Tenant Houses and stone Dry and Dye House. The water-power is known as one of the best in the State. The property was occupied for many years as a Woolen and Cotton Manufactory, but is adapted to general manufacturing purposes.

For particulars, address
J. B. CARTER, Hardware Manfg. Agent,
504 Commerce St. P adelphia.

"WESTERN CITY,"
Office of *The Iron Age*, 66-68 Duane St., N. Y.

Valuable Manufacturing Property FOR SALE.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 h.-p. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.

The property can be divided and sold in parcels if desired.

Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

FOR RENT!!! "Water Power," "Water Power."—The nearest available water power to New York City at Boonton, New Jersey. Constant all the year around! This magnificent water power will be leased in small or large quantities to suit the tenant. Suitable buildings erected for all kinds of manufacturing purposes. Splendid shipping facilities! On the line of railroad and canal. Only 50 minutes from New York City by train. This power will be leased at a great reduction on steam. Address LORD ESTATE, 68 Wall Street

A GOOD HARDWARE BUSINESS FOR SALE.

Wishing to retire from all active business, the undersigned offer for sale their valuable and thoroughly established business. The stock is clean and well selected. Waverly, New York, is a growing place, with considerable manufacturing, and surrounded by a good farming country; has good water, gas works and sewers, also five railroads radiating from it. The location of the store building is central, with every convenience, including hydraulic elevator, &c. The business has been conducted successfully as wholesale and retail; can be continued as we have conducted it, or else we can soon reduce the stock, and it can be conducted as a retail alone.

In negotiating sale, reference given and required.

MERRIAM BROS., Waverly, N. Y.

Handbook of Modern Chemistry, Inorganic and Organic. Second edition, revised. London. By C. M. TIDY.....$5.50

Telegraphic Mining Code, Alphabetically Arranged, For the use of Mining Companies, Mining Engineers, and all persons interested in Mines. 349 pages, 8vo. By C. ALGERON MOREING. Cloth $4.25; Interleaved, $6.25.

Detail and Ornament of the Italian Renaissance. Folio. By G. J. OAKESHOTT.....$12.00

Electricity and Magnetism. A short text-book, with 165 explanatory engravings and diagrams. 240 pages, 12mo. By T. DUNMAN.....$0.40

Richards Steam Engine Indicator. A treatise on the development and application of force in the Steam Engine. Fourth edition revised and enlarged. By C. T. PORTER. 273 pages, 20 plates, 8vo, cloth.....$3.00

Inorganic Chemistry, Theoretical and Practical, with an introduction to the principles of chemical analysis, inorganic and organic. Ninth edition, rewritten and enlarged. 12mo, cloth. By W. JAGO.....$0.80

A Text Book on Roofs and Bridges. Part I. Stresses in Simple Trusses. By PROF. M. MERRIMAN $2.50

Steam Boilers, their defects, management and construction. Numerous illustrations and tables. By R. D. MUNRO.....$1.40

Steam Heating: An Exposition of the American Practice of Warming Buildings, with addenda. By A. R. WOLFF. New edition, by ROBERT BRIGGS. 50 cents

Machine Construction and Mechanical Drawing, including Spur and Bevel Gearing. Second edition, revised. By THOMAS CRYER and H. G. JORDAN.....$1.00

An Elementary Course in Descriptive Geometry. By SOLOMON WOOLF, Professor of Descriptive Geometry and Drawing in the College of the City of New York. Illustrated by nearly 300 fine diagrams. 8vo, cloth.....$3.00

Boiler and Factory Chimneys; their draught-power and stability, with a chapter on lightning conductors. London. By R. WILSON.....$1.40

A Manual of Practical Hygiene. Seventh edition enlarged by F. de Chaumont, M.D. Illustrated. By E. A. PARKES.....$4.50

A Treatise on Mine Surveying. With numerous diagrams. 314 pages, 12mo, cloth. By B. H BROUGH.....$2.50

Dynamo Tenders' Hand-Book. Showing how to operate and care for electric light installations. 100 pages, with 70 illustrations. 18mo, cloth. By F. B. BADT.....$1.00

Tables of the Properties of Saturated Steam and Other Vapors. By CECIL H. PEABODY, Assistant Professor of Steam Engineering, Mass. Institute of Technology. 8vo, cloth.....$1.00

Astronomy for Amateurs. A practical manual of Telescopic Research in all latitudes adapted to the powers of moderate instruments. Illustrated. By J. A. W. OLIVER.....$2.25

Practical and Analytical Chemistry. Third edition, revised, enlarged and illustrated. By J. MUTER.....$2.00

Some Details of Water Works Construction. By WM. R. BILLINGS.....$2.00

Rural Water Supply, being a collection of short articles and letters contributed to scientific journals and intended for the use of those who have not the leisure to study more elaborate treatises. By CHARLES L. HETT, A.M.I.C.E. 8vo, paper.$0.75

Short Lectures to Electrical Artisans. Second edition. By J. A. FLEMING. Illustrated, crown 8vo, cloth.....$1.50

Practical Notes on Pipe Founding. With 15 folding plates. 8vo, cloth. By JAS. W. MACFARLANE.....$4.00

The Fundamental Principles of Chemistry practically taught by a new method. With 71 woodcuts and numerous exercises and answers. 12mo, cloth. By ROBT. GALLOWAY.....$1.75

Elementary Introduction to Chemical Theory Together with selected problems. 8vo, cloth. By H. MACAN.....$0.40

Publisher of THE MANUFACTURERS' EXCHANGE.

A. MUGFORD, Hartford, Conn.

NEW BOOKS.

Journal of the Society of Telegraph Engineers and Electricians. No. 72. With Papers on—The present state of Fire Telegraphy, by R. von Fischer Truenfeld. Electrical Stress, by Prof. A. W. Rucker. Abstracts, etc. 90 pages, with illustrations. 8 vo, paper.....$1.00

Watts' Dictionary of Chemistry. Revised and entirely rewritten. By W. F. Moreley and M. M. Pattison Muir. Assisted by eminent contributors. In four volumes. Vol I. 752 pages. 8vo, half morocco. By Hv. Watts.....$14.50

Text Book of Physics. Treating of Mechanics and Heat, Electricity and Magnetism, Acoustics and Optics. Adapted for Colleges, Technical Schools and Seminaries. Fully illustrated. By Prof. W. A. Anthony, of Cornell University and C. F. Brackett, of Princeten University, $4.00

Practical Treatise on Animal and Vegetable Fats and Oils; comprising both fixed and volatile oils. Edited chiefly from the German of Drs. Schaedler, Askinson and Brunner; with additions and lists of American patents, &c. With illustrations. By W. T. Brannt..... $7.50

The Principles of Dynamo-Electric Machines. Giving practical directions for designing and constructing Dynamos. Cloth, 279 pages, 59 Illustrations. By Carl Hering.. .....$2.50

Home Experiments in Science for Old and Young. A repertory of simple experiments with home-made apparatus. Illustrated. By T. O'Connor Sloane..... .....$1.50

Stair Building in its Various Forms, and The One Plane Method of Hand Railing as applied to drawing Face Moulds, unfolding the Center Line of Wreaths, and giving lengths of Balusters under all Wreaths. Numerous Designs and Plans of Stairs, Newels and Balusters for the use of Architects, Stair Builders and Carpenters. By James H. Monckton. Illustrated by 78 full-page plates of Working Drawings. 4to.....$6.00

Coal Tar and Ammonia; being the second and enlarged edition of a Treatise on the Distillation of Coal Tar and Ammoniacal Liquor. 756 pages, cloth. By G. Lunge.....$12.50

Civil and Mechanical Engineering popularly and socially considered. By J. W. C. Haldane..$4.50

Flour Manufacture; a Treatise on Milling, Science and Practice. Translated from the second enlarged and revised edition, with supplement, by H. H. Powles. 24 plates and 113 engravings. By F. Kick, London..... ..$10.00

Machine Construction and Mechanical Drawing; including spur and bevel gearing. For the use of students in science and technical schools. By T. Cryer and H. G. Jordan.....$1.00

Quantitative Chemical Analysis by Electrolysis according to original methods; authorized translation from the German of Dr. Alex. Classen. By Prof. Wm. Hale Herrick $2.50

All Matter Tends to Rotation: or, The Ultimate Source of all Motion. Vol. I, 8vo, cloth, By L. L. C. Hamilton.....$3.00

Elements of Dynamics. (Kenetics and Statics') 12mo, cloth. By J. L. Robinson..... ...$2.40

The Design and Construction of Masonry Dams. Giving the method employed in determining the profile of the Quaker Bridge Dam. Illustrated by types showing the High Masonry Dams of the world. 58 plates. 4to, cloth. By E. Wegmann, Jr.....$5.00

The Engineer's Catechism. A practical treatise for the use of those in charge of steam plants. By Geo. L. Fowler.....$0.50

Petroleum Distillation and Modes of Testing Hydro-Carbons. An exhaustive treatise concerning old and new processes for separating and refining Minerals, Ores, &c. By Allen N. Leet. $2.00

The Practical Boiler Maker, Iron Ship Builder, and Mast Maker. Fourth edition, 150 pages, 12mo. By R. Knight..... ....$2.00

Photography Applied to Surveying. 4to, cloth By H. C. Reed..... ....$2.50

A Pocket-Book of Electrical Rules and Tables for use of Electricians and Engineers. Fifth edition, revised. 32mo, roan. By J. Munro and A. Jamieson. $2.50

Journal of the Society of Telegraph Engineers and Electricians. No. 71. With Papers on Alternate-Current Transformers, by G. Kapp.—Distribution of Electricity by means of Secondary Generators or Transformers, by J. K. D. Mackenzie—Formulæ for Converters, by Prof. Geo. Forbes. 8vo, paper..... ...$1.40

Modern Theories of Chemistry. By Dr. Lothair Meyer. Translated from the German (5th edition), by P. Phillips Bedson and W. Carleton Williams, London..... .....$5.50

Treatise on Navigation and Nautical Astronomy. By W. R. Martin.....$6.50

Papers Literary, Scientific, &c. By Fleeming Jenkin, Edited by Sidney Colvin and J. A. Ewing, with a Memoir by R. L. Stevenson. 2 vols. Portrait and Diagrams. London.....$10.50

Text Book of Sound, Light and Heat. Revised and completed by Chapman Jones. With 135 explanatory engravings and designs, 170 pages, 12mo. $0.40

Rural Water Supply. Being a collection of short articles and letters contributed to scientific journals and intended for the use of those who have not the leisure to study more elaborate treatises. 46 pages. 8vo, paper. By Chas. L. Hett, A. M. I. C. E. $0.75

Management of Accumulators, and Private Electric Light Installations. Third edition, revised and eniarged. London. By Sir D. Salomons. $1.20

Our 2d Improved BARBER

is the best Brace on the market. The socket will not spread. The jaws are pinned in so they will not drop out. The sleeve is heavier and will not split open by the pressure of the jaws. We make two sizes of socket, which has never been done before. The 2d Improved BARBER, with Eclipse Ratchet attachment, is the best Ratchet made. We make the Amidon Corner Brace, Globe Jaw Brace, and all the other improved styles of BARKER Braces. Catalogues cheerfully supplied on application. AMIDON & BASTEDO, 135 Main St., Buffalo, N. Y.

Also a Full Line of

IRON AND BRASS PUMPS,

Cistern, Well and Force Pumps, Yard Drive Well, Garden Engine and Steam Boiler Pumps, Hydraulic Rams, &c., and all with the most modern improvements.

UNION SPIRAL SPRING HINGES.

We beg to call the attention of Architects, Builders, Dealers, and all interested parties, to our Spiral Spring Hinge, knowing it to be an effectual and durable one, neat in appearance, easy to put on, and not liable to get out of order. The Springs are made from wire made expressly for us and for this particular purpose, with the view of great elasticity, durability and power. They produce a continuance pressure from the point where the door is wide open until it is closed, and then hold it perfectly in position. It has a solid pintal in connection with short hollow ones, causing little or no friction, the whole power of the Spring being exerted in swinging the door. It is Fast Joint, and can be used for either right or left hand, allowing the dealer to carry less stock, and the builder will never get the wrong hand.

NEW CHAMPION FORCE PUMP

HAS

Vacuum Chamber and Air Chamber,

Producing a continuous flow of water, both in suction and discharge. Works smoother and easier than any other force pump in the market. Has Seamless Drawn Brass Cylinders and no stuffing boxes. Never freezes in winter, and is not liable to get out of order. With Hose Attachment it is valuable as a fire protection, and for sprinkling lawns, gardens, &c. It is specially adapted for all kinds of wells—dug, drilled or driven—and for pumping water long distances from springs.

—AND—
CALIBRE 38, WEIGHT 18½ OZ.,
NOW READY.

SUPERIORITY IN EVERY POINT UNIVERSALLY CONCEDED.

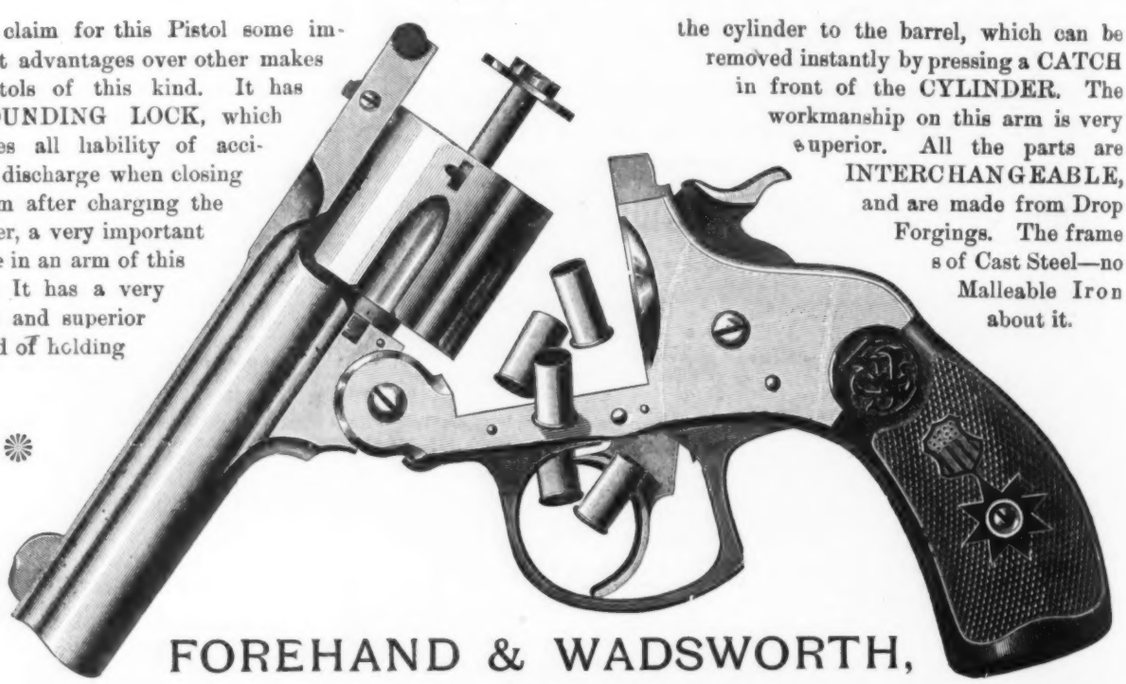
SEND FOR DESCRIPTIVE CIRCULAR.

FOREHAND & WADSWORTH'S

New Model Automatic Shell-Extracting Revolver

32 and 38-100 Center Fire.

We claim for this Pistol some important advantages over other makes of pistols of this kind. It has REBOUNDING LOCK, which obviates all liability of accidental discharge when closing the arm after charging the cylinder, a very important feature in an arm of this kind. It has a very simple and superior method of holding the cylinder to the barrel, which can be removed instantly by pressing a CATCH in front of the CYLINDER. The workmanship on this arm is very superior. All the parts are INTERCHANGEABLE, and are made from Drop Forgings. The frame is of Cast Steel—no Malleable Iron about it.



FOREHAND & WADSWORTH,

Worcester, Mass., U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

LOVELL'S Hammerless, Automatic Shell-Ejecting REVOLVER.

38 Cal.
Using 38 S. & W. Central Fire Cartridge.

RETAIL PRICE, $10.00.

This Revolver has many improvements not to be found in any other make, including *Improved Automatic Shell Ejector, Rebounding Lock.* Improved method of instantly removing the Cylinder, and the *Safety Attachment* in forward part of Trigger which renders accidental discharges *absolutely impossible. It is the Safest Revolver Made.* Descriptive Circular and Prices to the Trade Furnished on Application.

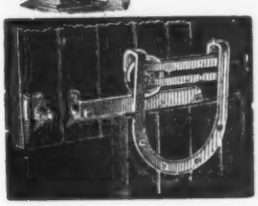
The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.



LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

THE BOSTON KNOB CO.,

MANUFACTURERS OF FINE DOOR KNOBS,

No. 169 HIGH STREET,

GEO. F. WHITING, (FORT HILL SQUARE.)

President and Manager.

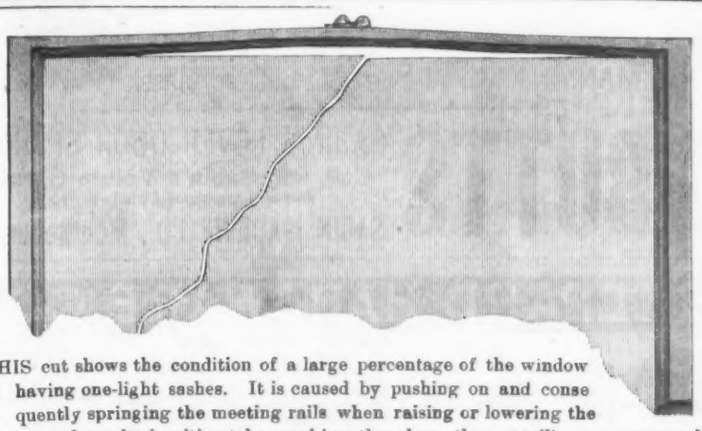
THE peculiar qualities of the Knobs made by the Boston Knob Company are, their great *strength, beauty* and *durability.*

Unlike all others, they improve in appearance, while bronze, brass or wooden knobs commence to depreciate as soon as used. The Knobs manufactured by this Company do not require cleaning or polishing.

They are furnished in a variety of colors to harmonize with the finish or decoration of rooms.

They are warranted to wear as long as any knob made. This Company use the *New Boston Spindle.*

Send to the office of the Company for prices, or to any leading wholesale hardware dealer.



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age.*

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

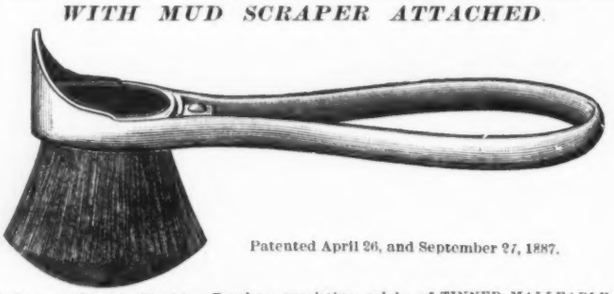
Send for Circular and Price List.

THE ROYAL DAUBER.

WITH MUD SCRAPER ATTACHED



Patented April 26, and September 27, 1887.

An entirely new thing in Blacking Brushes, consisting solely of TINNED MALLEABLE IRON and PURE BRISTLES. **SOLID, ROUND-FACED, INDESTRUCTIBLE.**

SOLID.—Not bored and drawn, nor secured with pitch or cement. Not several small knots, but ONE SOLID KNOT OF PURE BRISTLES. NO HORSEHAIR.

ROUND-FACED.—Takes Blacking from the box on its centre instead of its edges, and will therefore spread it evener, smoother and thinner, ensuring a better polish than any flat-faced brush.

INDESTRUCTIBLE.—Because the only materials used are tin-coated iron and bristles, put together to stay, the knot of bristles being held IN ONE SOLID MASS, BY COMPRESSION, IN A GRIP OF IRON, and fastened with an iron rivet. Warranted not to "spread" or "clog" with blacking.

WILL OUTLAST A DOZEN OF ANY OTHER KIND.

This DAUBING BRUSH is made WITH A SCRAPER FOR REMOVING MUD FROM THE CREVICES OF THE SHOES. The utility of this is too apparent to need a word of commendation.

PEABODY & PARKS, MFRS., TROY, N. Y.

METAL-PLATE WORK; ITS PATTERNS AND THEIR GEOMETRY. Also notes on metals, and rules in mensuration for the use of tin, iron and zinc plate workers, coppersmiths, boiler-makers and others. By C. T. MILLIS. **$3.00.** Sent, postpaid, on receipt of price, by DAVID WILLIAMS, Publisher and Bookseller, 66 & 68 Duane Street, New York

Warning to the Trade Against a Dangerous Device.

Experience has taught the trade and the consumer that only a *safe* and *reliable* Horse and Cattle Tie is desirable, and that the *fatal danger* of the *loop shirring* up and *choking the animal* is the *great fault* to be *guarded against.* This has been fully accomplished by the *Covert Patent Thimble*, which has a screw with a centrally located eye and a *point* which *passes through the rope* and renders all *slipping* or *shirring impossible.*

At the time the *Covert* Thimble was placed upon the market the only thimbles then being sold were the *Wiard Socket Patent* and the Sargent-Hull Thimble.

To both of these great objections were made, on account of their liability to shirr and choke the animal, and as soon as the Covert Thimble appeared on the market the *sales of the others rapidly decreased* and in a *few years ceased entirely.* At this juncture Sargent & Co., of New York and New Haven, placed upon the market a thimble which was a *direct infringement* upon the Covert Patent.

Their course in the matter has been fully exposed in our Bulletins and the Trade Journals, and is well-known to the trade.

After suffering considerable damage and loss through their infringements several suits were commenced against the infringers in the United States Court, one of which was on thimbles, and a decree was entered against Sargent & Co. sustaining the validity of the Covert patent and granting a perpetual injunction against the infringers.

To avoid the decree and the consequences they would suffer should they disobey it, they began the manufacture of a *thimble without the point of the screw* or pin, in this respect going back to the *old, obsolete, worthless design of the "Wiard Socket."*

That a thimble *without the penetrating point* is acknoledged to be *dangerous* and *worthless* is proven by the *testimony taken in the suit* above referred to, from which we quote the substance, as follows :

Witness Hull testified as to the *worthlessness* of the *Wiard Socket.*

Witness Turner testified that the firm by whom he was employed had not purchased the Wiard Socket for ten years and had not purchased the Sargent-Hull Cattle Tie Iron for 12 years, that the Covert Thimble which was considered better and more practical, displaced such goods.

Witness Byrne testified that his firm had not bought the *Wiard Socket* for over ten years because they were *unsalable.* That they carried some of the "Wiard Sockets and Screws" in stock for years because *they could not sell them.* He also testified that he heard objections made to the use of the "Wiard Socket and Screw" on Cattle Ties, that they *would slip* on account of the *end of the screw being blunt,* and that the customers and users of horse and cattle ties, and the trade generally made such objections, that he did not think the "Wiard Socket and Screw" practicable because the screw is *liable to be turned* and *one turn* of the screw *would loosen it.*

Witness Leeds testified that his firm had the Wiard Socket and Screw in stock in the store for nine or ten years to his knowledge, because there was *no sale for them.*

Witness Osborne testifies that his firm had the Sargent-Hull Cattle Tie Iron in stock as long as he had been a salesman in the store, which was over ten years, because there was *no sale for them,* and because Covert's Thimble displaced them.

The above witnesses are representatives of some of the largest and most responsible jobbing houses in the United States.

From this testimony it will be seen that any dealer who purchases a thimble *without* a *pointed screw* is almost certain to have the goods *remain upon his hands* as soon as his customers discover the fact, and should he sell them the consumer runs the great risk and danger of having his animals *choked* to *death.*

We therefore *caution* all dealers and consumers to *carefully examine* all the *thimbles* and *rope goods* before purchasing, and be *positive* that the *necessary point is on the screw, or our Trade-Mark on every label or tag.*

By so doing they will *protect themselves against loss and damage* and guard against imposition.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883 NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S THE ONLY GENUINE LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the ABSOLUTE PERFECTION of the products.

THE WIDE AWAKE DEALER is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

Coes Wrench Co.,

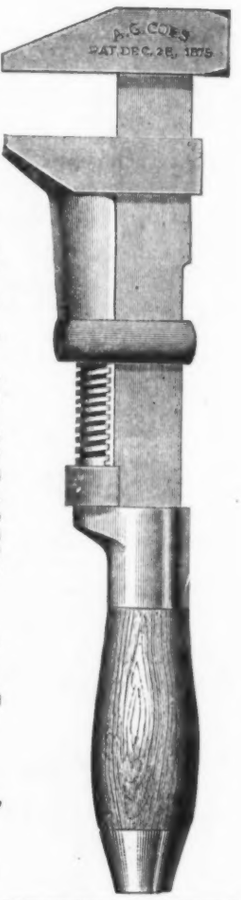
WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES'

PATENT

SCREW WRENCHES,



The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer thar any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped,

A. G. COES & CO.

Warehouse:
113 Chambers
and 95 Reade Sts.,
NEW YORK.

JOHN H. GRAHAM & CO., Agts.

Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL COMPANY, Springfield, Mass.

This Wrench can be Furnished with Long Nut or Sleeve.

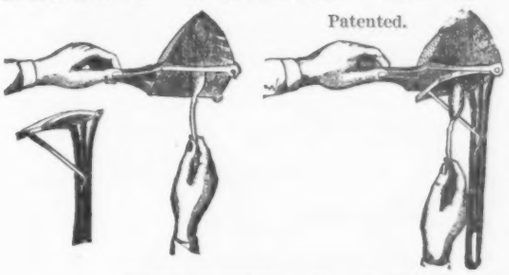
THE "DIEHL"

FRUIT PRESS AND STRAINER.

Patented.



We make this Press with *removable* plunger handle to permit the cups being *easily cleaned*. With the permanent handle it is a most *difficult* thing to *thoroughly clean* a press because the plunger invariably falls *directly* in *front* of the *cup* every time it is turned over to dump the matter out of it.

Without the plunger it makes a splendid *dipper strainer* for dipping and straining out of the pot. It is also a good *gravey, &c., &c. strainer.*

It makes a great, great improvement.

ORDER A LOT AT ONCE.

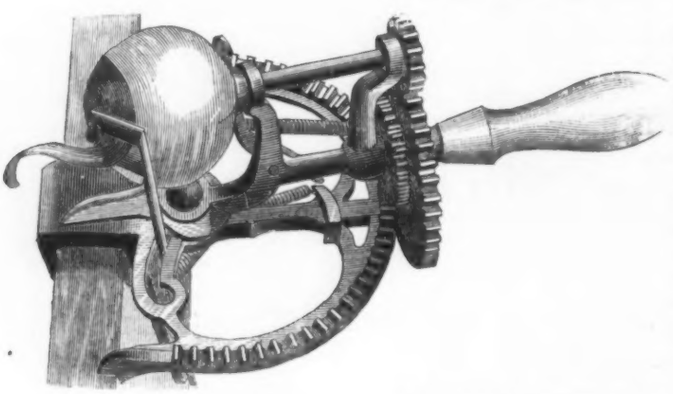
NEW LIGHTNING APPLE PARER.



Will pare an apple quicker and do better work on rough and irregular shaped apples than any other family machine ever invented.

Is strong and well made and for paring only it is the best family Parer we make.

The "Pomona" and "Turn Table" do the same work and cost less.

For paring, coring and slicing we have the "White Mountain," "Family" and "Imp'd Bay State,' all strong and durable good working machines at medium price.

The "Eureka" pares, cores and slices 25 apples per minute. Will pare and core without slicing 35 per minute and can be used to pare only if desired. It is made expressly for evaporating factories and can be used with equal success by hand or power.

We have prices and kinds to suit. Send for catalogue.

WILLIAM A. BAEDER. HOWARD R. KERN.

BAEDER FLINT PAPER CO.,

283 Pearl Street, New York.

P. O. Box 2014, New York City.

WORKS, ARLINGTON, N. J.

Extract from the "Daily Register," the New York Law Journal, July 7, 1888.

ANDREWS, J.

Baeder et al. v. Baeder et al. (two cases)—After a careful examination of the voluminous papers submitted in these cases I am of the opinion that Baeder, Adamson & Co. branded their second quality of flint paper with the word "Baeders," for the express purpose, and with the effect of inducing the public to purchase such second quality of paper as and for the first quality of the flint paper of the plaintiffs. William A. Baeder and Howard R. Kern; and that the defendant, the Russell & Erwin Mfg. Co. have, knowingly and intentionally, actually sold such second quality paper of Baeder, Adamson & Co. as and for the first quality paper of said William A. Baeder and Howard R. Kern. These acts of Baeder, Adamson & Co., and of the Russell & Erwin Mfg. Co. are clearly unlawful, and the motion to continue until the trial of the action the injunction, heretofore granted by Mr. Justice Barrett, in the action brought against those parties by Baeder & Kern will be granted, with $10 costs. I do not think that the mark used by Baeder & Kern can be considered a simulation of Baeder, Adamson & Co.'s first quality mark, nor that it is intended or calculated to mislead or deceive purchasers into taking Baeder & Kern's Paper as and for the first quality paper of Baeder, Adamson & Co. The motion for an injunction, in the action brought by Baeder, Adamson & Co. against William A. Baeder & Kern will be denied, with $10 costs.

WE ARE NOT IN THE COMBINATION.

A Treatise on Belts and Pulleys.

Embracing full explanations of Fundamental Principles; proper Disposition of Pulleys; Rules for determining widths of leather and vulcanized rubber belts, and belts running over covered pulleys; Strength and Proportions of Pulleys, Drums, &c. Together with the principles and necessary rules for Rope Gearing and transmission of power by means of Metallic Cables. By J. Howard Cromwell, Ph. B., author of a Treatise on Toothed Gearing. 12mo, cloth. $1.50.

"This is a very complete and comprehensive treatise, and is worthy of the attention of all Mechanics who have anything to do with the management of belts and Pulleys, &c."—*National Car Builder.*

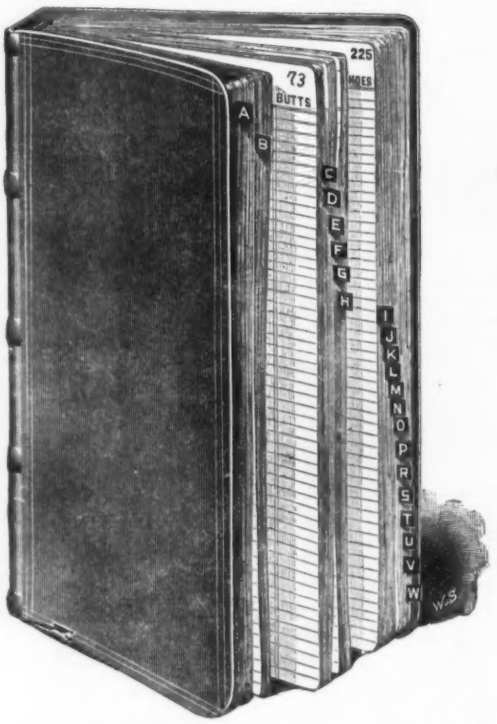
LAMBERSON'S
HARDWARE PRICE BOOKS.



POCKET EDITION,

4 x 7 inches, 250 pages.

BOUND IN LEATHER.

PRICE, · $4.00.

LARGE SIZE,

FOR

OFFICE USE.

6 x 9½ inches, 500 pages.

BOUND IN LEATHER,

PRICE, · $8.00.

THE illustration serves to show the general appearance of the Large Price Book. Dealers who have copies of the first edition will observe that the old classification is abandoned and the alphabetical arrangement adopted in its place. The names of different articles are printed at the upper corner of each page. The index cut on the front edge of the book gives a ready reference to the beginning of each letter, and by turning the corners of the pages any item desired in that division can be very quickly found.

On the first page opened to by the index letter will be found a list of articles beginning with that particular letter, arranged with two spaces after each item for additions of other goods in proper alphabetical order.

Sizes of leading lines are printed, and in case of Rules and Planes comparative numbers are given. Lists are omitted for the obvious reason that they are liable to change, but forms are arranged so that lists may be added with pencil. Useful tables are inserted on Strap Hinges, Nuts, Washers, Wire, Rivets, Stocks and Dies, Rope and Nails. The book is intended primarily for ***Salesmen,*** but it is no less useful to ***Buyers*** or ***Stock*** and ***Entry Clerks,*** and can be adapted to any purpose for which a price book may be desired. The general plan of the Pocket Edition is the same as in the large book, but the ruling and printing are on a smaller scale. The book is small enough to be carried in the pocket without inconvenience, but the arrangement is so perfect that it will cover a very complete line of hardware.

Sent, Charges Prepaid, on Receipt of the Price by

Ives H. B. & Co., New Haven, Conn.

Sash Pulleys.
Palmer Hardware Mfg. Co, Troy, N. Y.

Saws, *Makers of.*
Atkins, E. C. & Co., Indianapolis, Ind.
Blake & Johnson, Waterbury, Ct.
Wheeler, Madden & Clemson Mfg. Co., Middletown, N. Y.

Saw Sets.
Truax, Chauncey S., 64 College Place, N. Y.

Scales. *Manufacturers of.*
Buffalo Scale Co., Buffalo, N. Y.
Chatillon John & Sons, Cliff, N. Y
Howe Scale Co., Rutland, Vt.
Riehle Bros., Philadelphia.
Troemner, Henry.

Screw Cutting Machinery.
Wells Bros. & Co., Greenfield, Mass
Wiley & Russell Mfg. Co., Greenfield, Mass.

Screw Drivers.
Brown, R. H. & Co., New Haven, Ct.
Decatur Coffin Co., Decatur, Ill.
Ehrich Hdw. Mfg. Co., Plantsville, Conn.

Screw Plate and Pipe Cutter.
Jarecki Mfg. Co., Erie, Pa.

Screws, *Makers of.*
Wm. H. Haskell Co., Pawtucket.
Miles F. S., 205 Quarry, Philadelphia
Worcester Machine Screw Co., Worcester, Mass.

Scroll Saws.
Seneca Falls Mfg. Co., Seneca Falls N. Y.
King, O'Connor & Co., Baltimore, Md.

Scythe Stones and Whetstones.
A. F. Pike Mfg. Co., Pike Stat'n, N.H.
Cleveland Stone Co., Cleveland, O.
Lake Huron Stone Co., Detroit and Chicago.

Shafting, *Makers of.*
Cresson Geo. V., Philadelphia, Pa.
Pierson & Co 24 to 27 West, N. Y.
Wood, Thos. & Co., Phila., Pa.

Shears, Iron.
E. W. Bliss Co., Brooklyn, N. Y.

Shears and Scissors.
Acme Shear Co., Bridgeport, Conn.
Henry Seymour Cutlery Co., N. Y.
Schollhorn & Co., New Haven, Ct.

Sheep Shears.
Henry Seymour Cutlery Co., N. Y.

Shovels, Spades and Scoops.
Hussey, Binns & Co., Pittsburgh, Pa.
Rowlands Sons, T., Philadelphia, Pa.

Shutter Worker.
Dodd Shutter Worker Co., 26 Church, N. Y.

Sinks.
Douglas W. & B., Middletown, Conn.

Smelting Works.
Reeves Paul S., 760 S. Broad, Phila.

Speaking Tubes.
Ostrander W. R. & Co., N. Y.
Walsh Owen, 105 Walker, N. Y.

Sporting Goods.
Field, J. B. & Co., Detroit, Mich.

Spelter.
Manning & Squier, 111 Liberty, N. Y.

Springs.
Dunbar Bros., Bristol, Conn.
Morgan Spring Co., Worcester, Ma
Sabin Machine Co., Montpelier, Vt
Titus & Babcock, Rochester, N. Y.

Spring Hinges.
Stover Mfg. Co., Freeport, Ill.
Union Mfg. Co., 103 Chambers, N. Y.
Van Wagoner & Williams Co., N. Y.

Stamping Works.
Niagara Stamping and Tool Co., Buffalo, N. Y.

Strops.
Torrey J. R. & Co., Worcester, Mass.

Steam Hammers, &c., *Makers of*
Dienelt & Eisenhardt, Philadelphia.
Dudgeon Richard 24 Columbia, N. Y.
Duncan W. P. & Co., Bellefonte Pa.

Steam Heating.
Broomell & Sanas, York, Pa

Steam Pumps, &c., *Manufacturers.*
Goulds Mfg. Co., 60 Barclay, N. Y.
Hooker-Coiville Steam Pump Co., St. Louis, Mo
Hughes Steam Pump Co., Cleveland, O.
McGowan John H. &Co., Cincinnati.
Norwalk Iron Wks. Co., So. Norwalk.

Steam Traps.
Aller Amos, 109 Liberty, N. Y.

Steel Figures and Alphabets.
Stutsman J. M., 181 William, N. Y.

Steel Importers.
Abbott Jere & Co., N.Y. & Boston.
Hobson Francis & Son, 97 John, N. Y.
Jessop Wm. & Sons, Sheffield, England, or 91 John, N. Y.
Lindsay, Parvin & Co., Philadelphia, Pa.
Montgomery & Co., 105 Fulton, N. Y.
Newton & Shipman, 83 John, N. Y.
Page, Newell & Co., Boston, Mass.
Pierson & Co., 24 to 27 West, N. Y.
Whitney A. R. & Co., B'dway, N. Y.

Steel (Mushet's Special).
Jones H. M. & Co., Boston.

Steel Manufacturers.
Bellaire Nail Works, Bellaire, Ohio.
Boker, C. F., N. Y.
Chester Steel Castings Co., Phila.
Chrome Steel Works, Brooklyn, N.Y.
Frankford Steel Co., Philadelphia.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Hartman Steel Co., Ltd., Pittsburgh, Pa.

Moss F. W., 83 John, N. Y.
Naylor & Co., 99 John, N. Y.
Pennsylvania Steel Co., Steelton, Pa.
Pottstown Iron Co., Pottstown, Pa.
Pottsville Iron and Steel Co., Pottsville, Pa.
Rowland Wm. & Harvey, Frankford Philadelphia.
Singer, Nimick & Co., Pittsburgh.
Smith Bros. & Co., Pittsburgh, Pa.
Standard Steel Works, Philadelphia.
Troy Steel and Iron Co., Troy, N.Y.
Wardlow S. & C., Sheffield, Eng.
Wetherell Bros., 115 Liberty, N. Y.
Wilmot & Hobbs Mfg. Co., Bridgeport, Conn.
Wilson Hawksworth, Ellison & Co., Sheffield, England.

Steel, *Manufacturers' Agents.*
Beavor-Webb, J., 145 Broadway.
Hicks & Dickey, Philadelphia, Pa.

Steel Nails
Bellaire Nail Works, Bellaire, O. io.

Steel, Sheet.
Standard Iron Co., Bridgeport, O.

Steel Spiral Springs, *Manufacturers.*
Cary & Moen, 234 W. 29th, N. Y.
Chatillon John & Sons, N. Y.
Rowland Wm. & Harvey, Frankford.

Steel, Tool.
Bolton Steel Co., Canton, O.
Frankford Steel Co., Philadelphia.
Jessop Wm. & Sons, Sheffield, Eng. 91 John, N. Y.
Leng John S., 4 Fletcher N. Y.
Smith Bros. & Co., Pittsburgh, Pa.

Steel Wire.
Hartman Steel Co., Ltd., Pittsburgh, Pa.

Stocks and Dies.
Billings & Spencer Co., Hartford, Conn.
Butterfield & Co., Derby Line, Vt.
Hart Mfg. Co., Cleveland, O.
Saunder's Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.

Stove Linings.
Ostrander Jas. & Son, Troy, N. Y.

Strap Hinges.
Mann Jas. & Sons, Buffalo, N. Y.

Strops
J. R. Torrey & Co., Worcester, Mass.

Swaging Machines.
Excelsior Needle Co., Torrington.

Tack and Nail Machinery.
Sweetser W. A., Brockton, Mass.

Tacks, Brads, Staples, &c.
A. Field & Sons, Taunton, Mass.
American Tack Co., Fairhaven, Mass.
Auburn Tack Co., Auburn, N. Y.
Florence Tack Co., Florence, Mass
Disosway & Henderson, 165 Greenwich, N. Y.
Dunbar, Hobart & Co., 39 Warren St., New York.
Phillips, E. & Sons, South Hanover
Plymouth Mills, Plymouth, Mass.
Trufant, W. E., Whitman, Mass.

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield, Mass.
Worswick Mfg. Co., Cleveland, Ohio.

Testing Machines.
Riehlé Bros., Philadelphia.

Thill Springs.
Stiles Frost, Boston, Mass.

Toe Calks, Steel.
Burke P. F., Boston, Mass.

Tool Grinders.
Hall Mfg. Co., Phila., Pa.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins E. C. & Co., Indianapolis, Ind.
Brown, R. H. & Co., New Haven, Conn.
Bullock O. W., Springfield, Mass.
Ehrich Hdw. Mf. Co., Plantsville, Ct.
Hosgue, J. H & Co., Chicopee, Mass
Humphrey Tool Co., Warren, Mass.
Stanley Rule & Level Co., 29 Chambers, New York.
Starrett L. S., Athol, Mass

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Steam and Gas Fitters.
Curtis & Curtis, Bridgeport, Conn.
Saunders' Sons, D., Yonkers, N. Y.

Transom Lifters.
Reiher F. A. & Co., Chicago, Ill.
Wollensak J. F., Chicago, Ill.

Trimmings, Refrigerator, &c.
Brainerd & Co., 97 Chambers, N. Y.

Trucks. *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Riehle Bros., 9th St., Phila.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.

Tubes, Seamless Drawn Copper.
Bridgeport Brass Co., 19 Mur'y, N. Y.

Tubes, Steel.
Leng John S., Fletcher, N. Y.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn

Turnbuckles.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Twist Drills, *Masers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Valves, Gas, Water and Steam.
Chapman Valve Mfg. Co., Boston.
Leng John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
McNab & Harlin Mfg. Co., N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y
Prentiss Vise Co., 29 Dey St., N. Y
Tower & Lyon, 95 Chambers St. N. Y.

Vulcanized Fibre.
Vulcanized Fibre Co., 14 Dey St., N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.

Washers.
Lanman, E. B., Columbus, O.
Mason Iron Co., Philadelphia, Pa.

Washing Machines.
Wayne, Anthony, Mfg. Co., Fort Wayne Ind.

Water Filters.
Gate City Stone Filter Co., 46 Murray street, New York.

Water Motors.
Tuerk Water Meter Co., Syracuse, N. Y

Well Machinery.
American Well Works, Peoria, Ill.
Goulds & Austin, Chicago, Ill.

Wheelbarrows.
Pugsley & Chapman, 8 Liberty, N Y

Whiffletree Hooks,
Head's Iron Foundry, Utica, N. Y.

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis John T. & Bros., Phil.

Wheels.
Quincy Metal Wheel Co., Quincy, Ills.
I. A. Weston & Co., Syracuse, N. Y

Window Cleaners.
Bosley, D. W. & Co., Chicago.

Window Cord, *Makers of.*
Tolman, J. P. & Co., Boston, Mass.

Window Screens.
Darby, Edw. & Sons, Philads., Pa.
Queen Anne Screen Co., Burlington Vt.

Wire, *Manufacturers of.*
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren St., N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Hartman Steel Co., Ltd, Pittsburgh, Pa
Howard & Morse, 45 Fulton, N. Y.
Leicester Wire Co., Leicester, Mass.
Palmer Wire Mfg. Co., Palmer, Mass.
Prentiss Geo. W. & Co., Holyoke.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg Co., Worcester.
Worcester Wire Co., Worcester, Mass

Wire Cloth.
Clinton Wire Cloth Co., Clinton, Mass.
Darby Edward & Sons, Philadelphia.
Estey W. S., 71 Fulton, N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.

Wire Cutters.
King, J. M. & Co., Watertown, N. Y

Wire Door Mats.
Barnum E. T, Detroit, Mich.

Wire Fences.
Howard & Morse, 45 Fulton, N. Y.

Wire Goods, *Manufacturers of.*
Brooks M. S & Sons, Chester, Conn.
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville
Howard & Morse, 45 Fulton, N. Y.
Knapp & Hague, New York.
S. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Wire Goods Co., Worcester.
Wickwire Bros., Cortland, N. Y.

Wire Machinery.
Adt John & Son, New Haven, Conn.

Wire Nail and Tack Machines.
Sweetser, W. A., Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Birmingham Wire Nail Co., Birmingham, Ct
Dunbar, Hobart & Co., 39 Warren, N. Y
Field A. & Sons, Taunton, Mass.
Hartman Steel Co. Ltd., Pittsburgh Pa.
Phillips E. & Sons, South Hanover
Phillips, Townsend & Co., Phil., Pa

Bradley's HEATING FORGES

Established 1832

Pat. Aug. 30, 1887

With a manufacturing experience of over half a century, we recommend these machines to be the best, simplest, most durable and combining all the essential elements.

For hard coal or coke. Indispensable in all shops to keep Bradley's Cushioned Hammers and men fully employed and reduces cost of production.

BRADLEY & CO., Syracuse, N. Y.

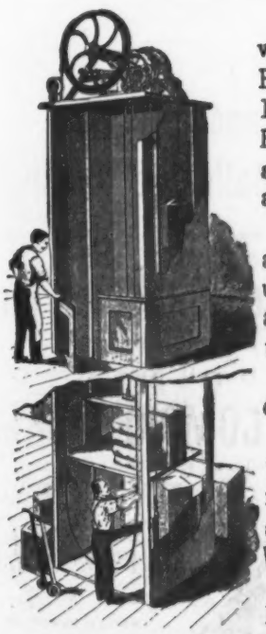
BRADLEY'S UPRIGHT CUSHIONED HELVE HAMMER

Combines all the best elements essential in a first-class Hammer. Has more good points, does more and better work and costs less for repairs than any other **Hammer** in the **World.**

BRADLEY & CO. Syracuse, N.Y.

THE HUMPHREY PONY HAND ELEVATOR.

(Patent Applied for.)



For light Store and Factory work, Hospitals and Public Buildings. For Trunk and Invalid lifts. For carrying Coal, Flour, Ashes and other heavy substances in Tenements, Flats and Private Dwellings.

So simple in construction, and price so low that it can be used in many places instead of a dumb waiter, and has many times the lifting capacity.

Capacity 500 pounds. Price of fixtures, $36 per set.

We are also manufacturers of the New York Safety Dumb Waiter fixtures, the most complete, simple and absolutely safe Dumb Waiter fixtures ever made.

Send for Descriptive Catalogue.

THE EDWARD STORM SPRING CO., Limited, Poughkeepsie, N. Y.

or JOHN H. GRAHAM & CO., Sole Mfrs.' Agents, 113 Chambers Street, New York.

WEST'S MOULDERS' TEXT BOOK

BEING PART II. OF AMERICAN FOUNDRY PRACTICE,

Giving the best methods and rules for obtaining good castings, with detailed description for making moulds. A thoroughly practical book that should be in the hands of every moulder.

PRICE, - Cloth, - 460 Pages, - - $2.50.

Sent, post-paid, on receipt of price by

DAVID WILLIAMS, Bookseller and Pulisher, 66 and 68 Duane St., New York.

STANLEY'S PATENT Roofing Bracket.

STANLEY

Rule & Level Co.
New Britain, Conn.

SOLD BY ALL HARDWARE DEALERS.

The parts are of Spring Steel, firmly riveted together. Push the beveled ends up under two layers of shingles, already nailed down; the Bracket has two separate bearings on the roof, and is so formed that any increase of pressure from above, increases its stability.

One dozen per minute can be placed in position, or removed; and great economy in lumber and nails will be found. There are no loose parts to get lost; and no nail-holes are made in the roof.

No. 1. Roofing Brackets, 8 inch, ½ dozen in box. Per Doz., $3.00
No. 2. Roofing Brackets, 10 inch, ½ dozen in box. Per Doz., 4.00

GATE CITY STONE FILTER CO.,

46 Murray St., New York.

Open Cut shows Filter Disc used in our Filters, and Separate Patent Ice Chamber.

☞ Fine China and Gray Stone-ware Jars to hold the Water.

☞ A NATURAL STONE for a Filtering Medium.

☞ Fitted with separate Patent Ice Chambers to cool the water.

☞ As easily cleaned as a Water Pitcher.

☞ No objectionable material used in the construction of this Filter

All water is filled with impurities during the rainy season.

☞ This Filter will ABSOLUTELY CLEAN IT

Address as above for Descriptive Price List. Mention *The Iron Age.*

A MAN OF SAMPLES.

Something About the Men he Met "On The Road."

BY WM. H. MAHER.

Should be read by every business man in the country.

It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.

The merchant who stays at home can see how men work on the road.

The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.

The stock clerk can get some points about shipping goods and filling orders.

Those who advertise can learn from one of the best advertisers in the United States.

Actual names of men and houses are given, but not a line in the book has been paid for in any way.

If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, postpaid, on receipt of the price, 75 cents, by

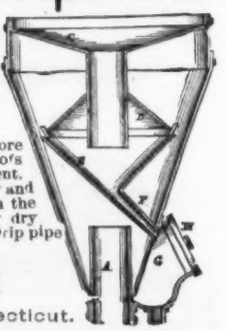
LYMAN

Steam Condensing Exhaust Pipe Head

For the protection of Roofs and Walls of Buildings from the Hot and Greasy Condensation emitted from Exhaust Pipes.



The water of Condensation from Exhaust Pipes of Steam Engines when discharged above roofs and alongside of walls will, in a short time, cause considerable damage in the rotting of roofs and also wash away the mortar in brick walls, as the condensation is always hot and therefore very destructive. This Exhaust Pipe Head will effectually keep the roofs and walls entirely dry and avoid the repairs on roofs formerly so frequent. Another advantage in the use of this Head is in protecting the passers-by and sidewalks from a shower of greasy water which invariably happens when the exhaust pipe is exposed near the street. The escape steam is perfectly dry and noiseless, and there is no back pressure on the Exhaust pipe. The Drip pipe conveys away the condensation wherever desired. Send for Circulars.

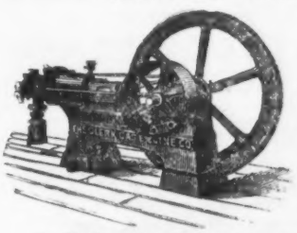
THE CLERK GAS ENGINE.

Highest Award for Gas Engines at American Institute Fair, New York, 1883.



Makes an ignition at every revolution of the Fly Wheel. Is started with ease, and gives full power immediately. No danger from fire; no extra insurance nor skilled engineer required. Runs perfectly steady; only uses gas when required. Workmanship of the best description and guaranteed. Indicated power considerably larger than in any other Gas Engine of the same size, each Engine giving from 1 H.-P. to 4 H.-P. more than named. Is unsurpassed by any other Gas Engine for running any kind of machinery or electric light, arc or incandescent. Has means for regulating to suit any coal or water gas.

No Boiler, Coal, Ashes or Engineer. Made in Sizes of 4, 8, 10, 15 and 25 H.-P.

THE CLERK GAS ENGINE CO., 1012-1016 Filbert St., Philadelphia.

Branch Offices: 142 Chambers St., New York; 4 West 14th St., New York; 76 Dearborn St., Chicago.

HIGH-SPEED POWER TRAVELING CRANES.

We are now prepared to build **High-Speed Power Traveling Cranes** for any capacity of load, any length of runway and any width of span, with one or with two trolleys on the bridge, these trolleys to work either slow or fast, together or independently, in like or in opposite directions, horizontally or vertically, while the bridge can be traversing slow or fast at the same time in either direction. The speeds of bridge on runway are 100 *feet and* 200 *feet per minute;* the speeds of trolleys on bridge are 50 *feet and* 100 *feet per minute;* and there are four hoisting speeds of 5, 10, 20 *and* 40 *feet per minute;* all can be varied quickly without the least shock or jar from zero to maximum or to any intermediate speed. *The load is always automatically sustained, thus avoiding absolutely the great danger and anxiety which are inseparable from the use of those cranes which require the operator to apply the brake.* We have had one of these Cranes of 26 tons capacity in constant use in our foundry for nearly two years, and we offer them with full confidence for the greatest range of service. We invite the correspondence of parties interested in the subject.

July, 1887.

BELDEN'S
Upright Power Hammer.

This Hammer possesses advantages superior to any other in the market. It needs neither cylinders, valves nor piston rods, consequently requires no steam. It takes up less space, less power to drive, strikes much harder and truer blows than hammers with double the weight of ram.

It can be worked to strike good alternate blows on a 4-inch and ¾-inch bar of iron. A 100 pound hammer is used and can perform the same work to a far greater advantage than any other hammer known. Manufactured by the

Hooker-Colville Steam Pump Co., St. Louis, Mo.:

GENTLEMEN:—We have been using one of your No. 4 Piston Pumps for nearly a year to our entire satisfaction. We have not had any trouble with it since it started. We are more than pleased with the Pump, it is **always ready** and does its work to perfection, and we unhesitatingly recommend it to any one needing Steam Pumps.

Very respectfully,
THE HIGGINSVILLE MILLING CO.,
L. T. LAND, Manager.

FRANK McSWEGAN & SONS,
Bridge Store, Dover St. and Franklin Sq., New York.

COIL-BOILERS FOR THE UNITED STATES NAVY.—NAVY DEPARTMENT, Washington, D. C., August 2, 1888.—The Navy Department, having in view the possible decrease in weight of machinery in vessels of war by the use of tubulous, sectional or coil-boilers, has determined to adopt such boilers, if suitable can be found, for a portion of the steam-power of one or more of the vessels about to be built. To this end manufacturers who wish to offer such boilers for use by the Department are hereby invited to furnish plans of the same, adapted to an armored coast-defence vessel, on or before September 15, 1888. Plans must be accompanied by certificates that boilers of the same make are or have been in successful use at sea or on shore. Plans showing the space in the vessel available for boilers, particulars of the duty required and other information, may be obtained upon application to the Bureau of Steam Engineering. The boiler which appears to the Department, after investigation, to be the best for the purpose, taking into account the evaporative efficiency, the dryness of the steam, the weight of the boiler, the weight of the water contained, the accessibility for repairs, the ease of making repairs, the simplicity and interchangeability of the parts, the space occupied, the ease of firing and of regulating the feed, the suitability for working in battery, the capability of long-continued steaming without cleaning, and the durability, will be adopted in the coast-defense vessel above mentioned, provided that the price, which must be stated when the plans are submitted, is satisfactory to the Navy Department. Such boilers as appear to possess merit will be tested by the Navy Department, if the manufacturers so desire, to determine which is the more suitable for the purpose. Manufacturers who wish their boilers to be tested must furnish a boiler of the type of one of those proposed for the vessel and prepare it for test, either at their own works or at such place as may be arranged with the Department. The expense of the test of the accepted boiler will be borne by the Navy Department, and the cost of the fuel used in the test of the second best will also be borne by the Navy Department. All other tests must be at the expense of the parties offering boilers for competition.

WILLIAM C. WHITNEY,
Secretary of the Navy.

Valuable Manufacturing Property
FOR SALE.

The real estate and buildings now occupied by the Watertown Steam Engine Co., of Watertown, N. Y., will be offered for sale. The property covers about four acres; has an unfailing water power on the Black River estimated at 225 h.-p. Consists of machine shop, foundry, boiler shop, blacksmith shop, store houses and tenements. The buildings are equipped with line shafting, and could be adapted to a large variety of manufacturing purposes. Moderate cost of labor, combined with low freight rates and nearness to raw material, with an abundant water power, make Watertown an exceptionally good point for manufacturing. It is essentially a manufacturing town.
The property can be divided and sold in parcels if desired,
Address WATERTOWN STEAM ENGINE CO., Watertown, N. Y.

FOR RENT!!! "Water Power," "Water Power."—The nearest available water power to New York City at Boonton, New Jersey. Constant all the year around! This magnificent water power will be leased in small or large quantities to suit the tenant. Suitable buildings erected for all kinds of manufacturing purposes. Splendid shipping facilities! On the line of railroad and canal. Only 50 minutes from New York City by train. This power will be leased at a great reduction on steam. Address LORD ESTATE, 68 Wall Street

A GOOD HARDWARE BUSINESS FOR SALE.

Wishing to retire from all active business, the undersigned offer for sale their valuable and thoroughly established business. The stock is clean and well selected. Waverly, New York, is a growing place, with considerable manufacturing, and surrounded by a good farming country; has good water, gas works and sewers, also five railroads radiating from it. The location of the store building is central, with every convenience, including hydraulic elevator, &c. The business has been conducted successfully as wholesale and retail; can be continued as we have conducted it, or else we can soon reduce the stock, and it can be conducted as a retail alone.
In negotiating sale, reference given and required.
MERRIAM BROS., Waverly, N. Y.

FOR SALE.

AN UNUSUAL OFFER.

An old established Hardware Business doing the leading wholesale and retail trade in one of the best towns in Minnesota. This is an opportunity seldom offered. Reason for sale, death of proprietor. Address

EXECUTOR'S SALE OF VALUABLE ORE PROPERTY.—Will be sold at public sale, on Saturday, September 15, 1888, at the public house of Alfred S. Adam, situate about one-half mile from said premises, in Perry Township, Berks County, and State of Pennsylvania, the following described real estate, viz.: All that certain messuage, tenement and tract of land, situate partly in Maidencreek and partly in Perry townships, adjoining lands now or late of John DeTurck, deceased, William Hieter, James Heffley, Jacob Adams, John Greth, Elizabeth Hoffman and others, containing

154 ACRES and 46 PERCHES,

more or less. The improvements consist of a two-story weather-boarded

PLANK OR LOG HOUSE,

two tenant houses with stables,

SWISS BARN, WAGON SHED,

pig sty and other outbuildings; 18 acres are woodland and 12 are meadow. The said premises contain a rich deposit of hematite iron ore, large deposits of a very high quality having been mined and taken from the same. A stream of running water flows through the tract that can be readily adapted or used for mining or farming purposes. The property also abounds with fruit trees of various kinds, and deposits of clay suitable for brick manufacture, and is situate about one mile from Evansville station on the Berks and Lehigh Railroad. Sold as the estate of Jacob Baily, late of Maidencreek Township, deceased. Sale to commence at one o'clock in the afternoon, when due attendance will be given and terms of sale made known by

JACOB D. HOFFMAN, Executor.

ADAM H. SCHMEHL, Attorney.

AN EXCELLENT OPPORTUNITY.

A Profitable Scrap Iron, Rag and Metal Business for Sale or Partner Wanted.

The rag, iron and metal business sucessfully conducted by S. Simons & Son since 1870 at Detroit, Mich. Owing to the death of Mr. S. Simons and the inability of the surviving partner to give the necessary attention, this offer is made. The property used for that business consists of large yard Nos. 365 to 371 Atwater St, having best R. R. facilities, a massive four-story stone and brick building and other buildings and everything necessary to conduct the business, constituting the best equipped plant in the country for that business, together with the good will of a large established trade. Will be sold for the lowest value of the property, or a suitable partner, a smart business man having a good reputation and knowledge of the business, will be accepted. For particulars address to

S. SIMONS & SON, Detroit, Mich.

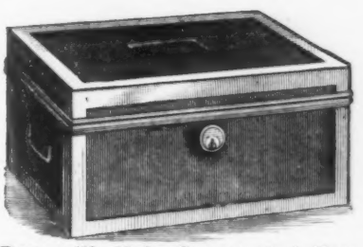
TIN CASH AND BOND BOXES

WITH YALE COMBINATION LOCKS

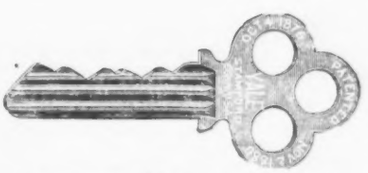
—AND—

WITH YALE CORRUGATED KEY LOCKS.

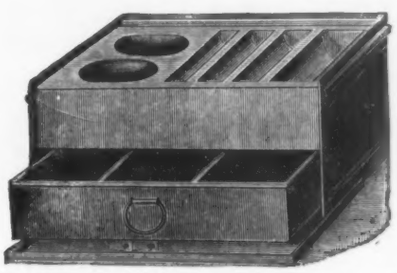
Box, with Yale Combination Lock.



Box, with Yale Corrugated Key Lock.



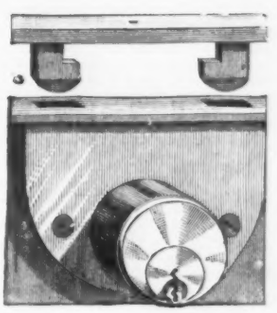
Full Size of Yale Corrugated Key.



Open position, showing Cover and Front underneath.

MPROVED CASH BOX,

With Coin Till and Bill Drawer, With Yale Combination Lock.



Yale Corrugated Key Lock, used on Boxes.

THE tin boxes which we illustrate are designed to fill a want which has long existed for a line of boxes thoroughly well made in themselves, and fitted with locks of good quality.

We are prepared to supply the trade with boxes in all sizes, and fitted either with Yale combination locks or with Yale locks with corrugated keys.

For some purposes, as, for instance, for boxes which are deposited in safe deposit vaults, and not frequently opened, we should recommend the combination locks; while for boxes which are frequently locked and unlocked, the key lock perhaps offers somewhat greater convenience.

Purchasers can rely absolutely on the security, durability and quality of workmanship of all the boxes and of both styles of locks.

Price lists and discounts on application.

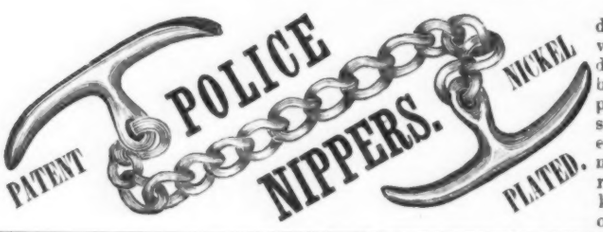
POLICE CHAIN TWISTERS OR NIPPERS.

Under Patent granted to A. P. Baldwin, July 7, 1874.



The attention of the Hardware Trade is called to the decision rendered in my favor in U. S. Circuit Court, So. Dist. of N. Y., Baldwin *vs* J. G. Conway Co., Limited, *et als*, wherein I prosecuted the defendants for selling Police Chain Twisters or Nippers, manufactured by Bean, of Boston, which are proved to be an infringement on my patent. We therefore warn the Trade and public generally against selling or using such Police Chain Nippers or Twisters, or any others, except those made by Jos. Baldwin & Co., and the improved patterns made by us exclusively for Tower & Lyon, N. Y., who have always respected our claims, and by whom our Police Chain Twisters are kept for sale. All such are stamped with our name or initials. All others are infringements. **JOS. BALDWIN & CO., Newark, N.J.**

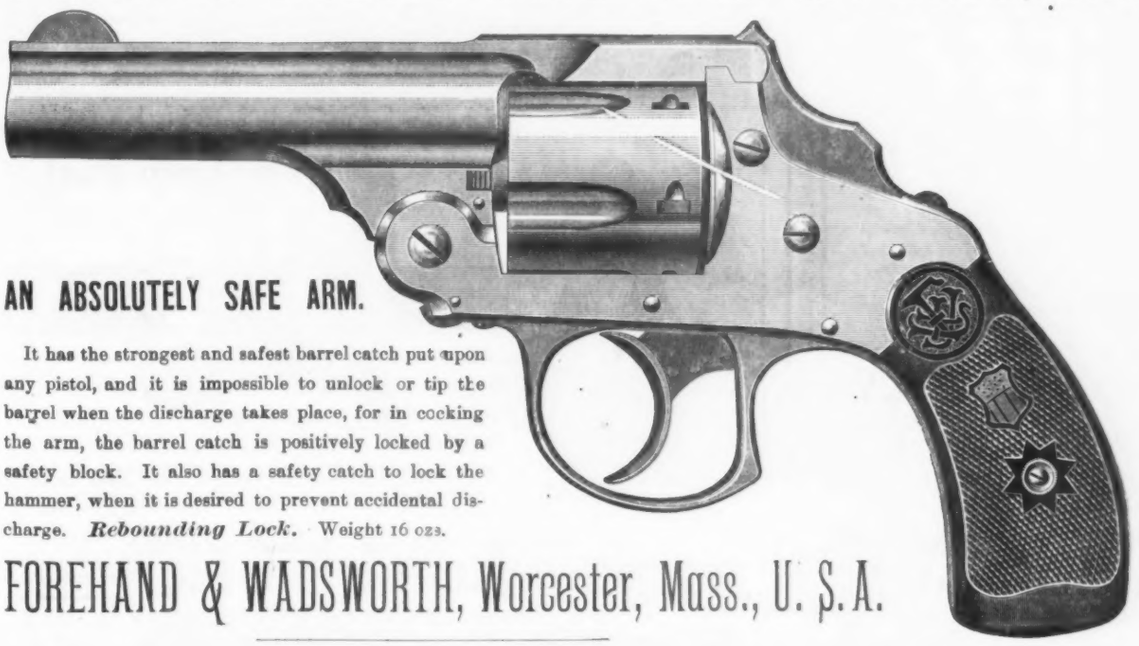
32 and 38 Centre Fire S. & W. Cartridge.



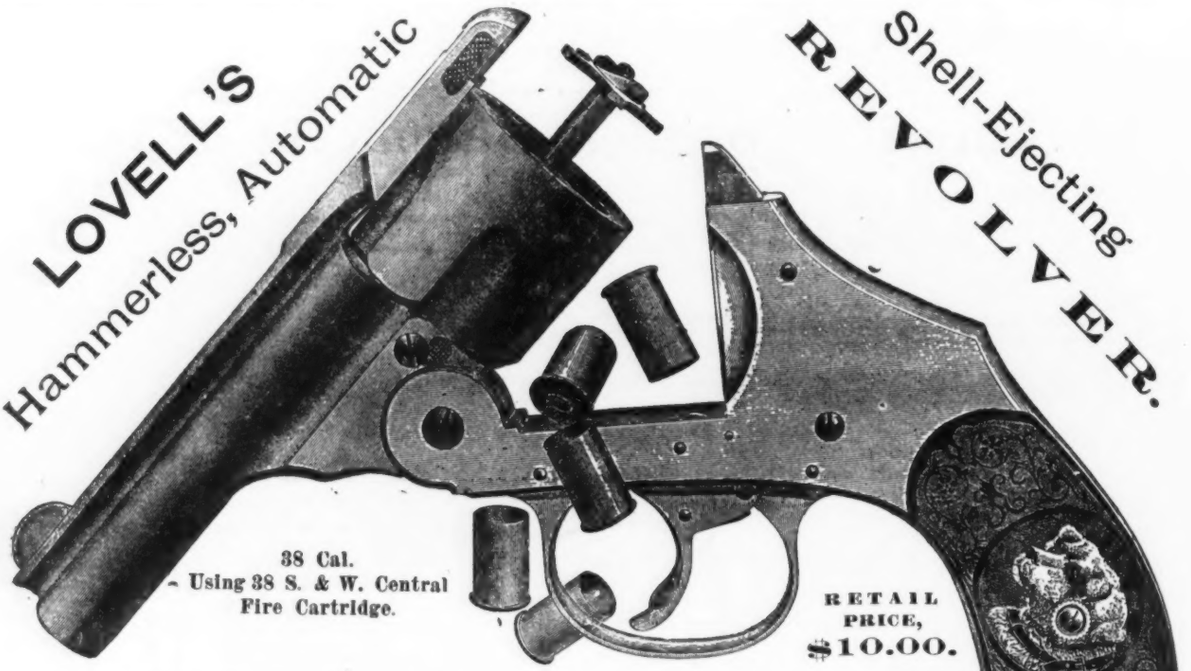
AN ABSOLUTELY SAFE ARM.

It has the strongest and safest barrel catch put upon any pistol, and it is impossible to unlock or tip the barrel when the discharge takes place, for in cocking the arm, the barrel catch is positively locked by a safety block. It also has a safety catch to lock the hammer, when it is desired to prevent accidental discharge. ***Rebounding Lock.*** Weight 16 ozs.

FOREHAND & WADSWORTH, Worcester, Mass., U. S. A.

Sold by all Dealers in Arms generally throughout the United States.

LOVELL'S Hammerless, Automatic Shell-Ejecting REVOLVER.



38 Cal.
Using 38 S. & W. Central Fire Cartridge.

RETAIL PRICE, $10.00.

This Revolver has many improvements not to be found in any other make, including *Improved Automatic Shell Ejector, Rebounding Lock.* Improved method of instantly removing the Cylinder, and the *Safety Attachment* in forward part of Trigger which renders accidental discharges *absolutely impossible. It is the Safest Revolver Made.* Descriptive Circular and Prices to the Trade Furnished on Application.

Peter Wright's Patent Solid Wrought Anvil.

PETER WRIGHT PATENT SOLID WROUGHT

Fac-simile of Trade Mark.

Fac-simile of Green Label.

By Royal Letters Patent.

V. R.

PETER WRIGHT'S

SOLID WROUGHT

ANVIL

Made of Best Scrap Iron!

THE BICK FACE AND END ALL IN ONE SOLID PIECE!

The high reputation attained by these Anvils has led makers of an inferior anvil to imitate the brand, with the view of thereby more readily marketing their goods. The trade is cautioned in buying to see that each anvil is stamped with the full trade mark on one side and has the green label affixed to the other; fac-similes of both are shown above.

Cronk's Patent Wire Cutter and Bender.

8 in. per doz. pair, - - - - - - - - - $15.00
10 in. " " - - - - - - - - - - - 21.00

This surpasses any Plier in the market for Cutting and Bending Wire, and can also be used in place of Hill's Hog Ringer. Is especially adapted to farmers' use in building Wire Fence, &c.

Our reasons for claiming that we have the best Pliers in the Market are:

FIRST.—We use the best Tool Steel and they are nicely finished.

SECOND.—We combine both Flat and Round Nosed Pliers in one, the concave and convex circles between the handles are used for bending wire in any desired shape.

THIRD.—The cupping in the Nose is used for pulling tacks, Brads or nails, and can also be used in place of Hill's Hog Ringer.

FOURTH.—We can cut Barb Wire, Barb Belt or any kind of Wire used for Fencing purposes. We also claim that we have the only Plier made that the Cutting Jaws cannot be broken.

By passing the Wire through the Pliers it makes a very handy cut and also holds the Wire after it is cut.

CRONK HANGER CO., Elmira, N. Y.

J. C. McCARTY & CO., General Agents, 97 Chambers St., New York.

WORKSHOP RECEIPTS,

FOR MANUFACTURERS, MECHANICS AND SCIENTIFIC AMATEURS.

COMPLETE IN FOUR VOLUMES.

VOL. I. Containing receipts for those interested in mechanical processes.

VOL. II. Devoted mainly to subjects having more or less intimate connection with chemical industries and bearing some relation to each other.

VOL. III. Properties and uses of all the important metals, with a description of the various electrical devices and their application.

VOL. IV. Describing the principal handicrafts—chemical and mechanical. With a general index to the four volumes.

Each volume contains about 450 pages, fully illustrated where necessary, and comprise in compact form an indispensable assistant for every one interested in Mechanics or Chemistry.

THE SWIFT MILL.

ESTABLISHED 1845.

The annexed cut shows one of the many styles of Coffee Mills of our manufacture, especially adapted to Grocers' use and all retailers of coffee. They are highly ornamental, and workmanship of the very best. We make more than 30 styles.

Lane's Measuring Faucet.

LANE'S PATENT STEEL DOOR HANGER.

The most perfect Anti-Friction Hanger in the Market, because

It is made of steel throughout, except the wheel, which has a steel axle. It will not break. It is practically free from wear. It is almost noiseless in action. It requires no oil. It has a broad bearing on the door, and keeps in line. It is by far the most durable. It may be used with any track. It is always in order. **LANE'S PATENT TRACK** is made of steel and is easily put in position. Catches and holds no snow or ice. Door hung thereon cannot jump the track. Is not subject to decay. Requires no fitting, but is ready at once. May be used with hangers of other manufacture. Send for circulars.

Manufactured by LANE BROS., Poughkeepsie, N. Y.

JOHN H. GRAHAM & CO., General Agents, 113 Chambers Street, NEW YORK.

TOWER & LYON, GENERAL AGENTS, 93 CHAMBERS STREET, NEW YORK.

THE BOSTON KNOB CO.,
MANUFACTURERS OF FINE DOOR KNOBS,
No. 169 HIGH STREET,

GEO. F. WHITING, (FORT HILL SQUARE.)
President and Manager.

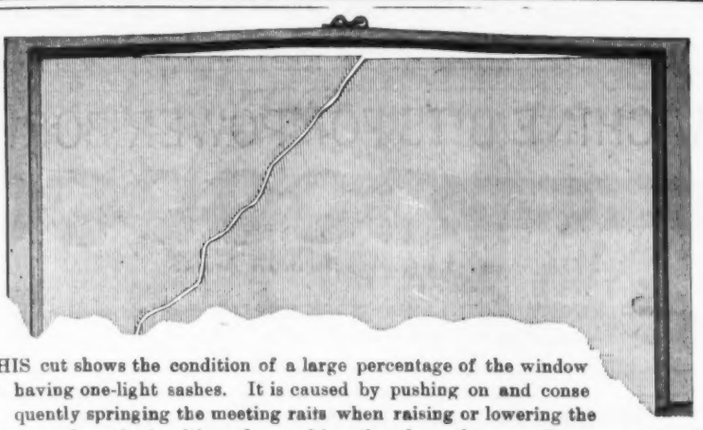
THE peculiar qualities of the Knobs made by the Boston Knob Company are, their great *strength, beauty* and *durability.*

Unlike all others, they improve in appearance, while bronze, brass or wooden knobs commence to depreciate as soon as used. The Knobs manufactured by this Company do not require cleaning or polishing.

They are furnished in a variety of colors to harmonize with the finish or decoration of rooms.

They are warranted to wear as long as any knob made. This Company use the *New Boston Spindle.*

Send to the office of the Company for prices, or to any leading wholesale hardware dealer.



THIS cut shows the condition of a large percentage of the window having one-light sashes. It is caused by pushing on and consequently springing the meeting rails when raising or lowering the windows, and results in ultimately cracking the glass, thus entailing an expense for repairs greater than the cost of applying Wigger's Patent Sash Lifters. These Sash Lifters obviate this trouble and also prove a great convenience in operating this class of windows, as previously described in the columns of *The Iron Age.*

The steadily increasing demand for these goods proves their utility, and also that both Architects and their Clients appreciate their merits, and that many Architects have specified them on buildings to be completed this fall. We shall be pleased, therefore, to send samples, sample cards and circulars (with blank space for dealers' name), on application, as the goods will be supplied exclusively through the Builders' Hardware Trade.

THE STRONGEST GLUE IN THE WORLD.

2 GOLD MEDALS AWARDED LONDON 1883. NEW ORLEANS 1885.

RUSSIA CEMENT CO. Gloucester, Mass.

SOMETHING NEW THE PATENT ADJUSTABLE BRUSH.

Our new Patent Can can be carried in the pocket and used without danger of soiling from the can or brush; all superfluous glue is removed on wiper. This style is made in three sizes, half pint, gill and half gill. Our regular cans are half pint, pint, quart, two quart and gallon. Bottles, two sizes as heretofore.

At the New Orleans Exposition (where a Gold Medal was awarded) a piece of Georgia pine butted, one inch square, on a Testing Machine, registered 1620 lbs. before parting.

Does not set quickly like the old style Glues, and has FOUR TIMES the strength.

No Heating required.

No other Glues have the RECORD of 1620 lbs. to the square inch.

The fact that the sales of

LEPAGE'S THE ONLY GENUINE LIQUID GLUE

has greatly increased during the past year, so that we have been unable to manufacture the goods as fast as called for is the best proof that the public appreciates A GOOD THING.

To meet this demand we have recently greatly increased the capacity of our works, and have now the most scientifically arranged glue plant in the world, no expense having been spared which would in any way contribute toward the ABSOLUTE PERFECTION of the products.

THE WIDE AWAKE DEALER is not slow to see that it pays him to keep in stock those goods which are sure of QUICK SALES. Don't be cajoled into buying the various Liquid Glues now in the market for which claims are made that cannot be substantiated.

That the Dealer and Public may be sure that they are not deceived in making their purchases we have commenced putting the autograph below on all the Genuine LePage Glues.

Russia Cement Co.
GLOUCESTER, MASS.

These Glues are used in the Smithsonian Institute, at Washington for all its works of mounting specimens, by the Government Arsenals and Department Buildings, by the Pullman Palace Car Co., Mason & Hamlin Organ and Piano Co., and by thousands of first-class manufacturers and mechanics throughout the world, for all kinds of fine work.

MANUFACTURED ONLY BY THE

Coes Wrench Co.,

WORCESTER MASS.,

MANUFACTURERS OF

A. G. COES'

PATENT

SCREW WRENCHES,

The Strongest Wrench made, and the only successful re-enforced bar.

The Ferrule is firmly secured in place by a nut screwed on the bar.

Particular attention is called to the way in which the handle is made and fastened to the shank.

This Handle is made better and stronger than heretofore by using our new Cup Tip at the end which encloses the wood and keeps it from splitting. This is the only wrench which has the wood handle firmly secured and held together at each end, and it will stand more rough usage and last longer than any now made. It is not affected heat, cold or moisture.

None Genuine unless Stamped.

A. G. COES & CO.

Warehouse:

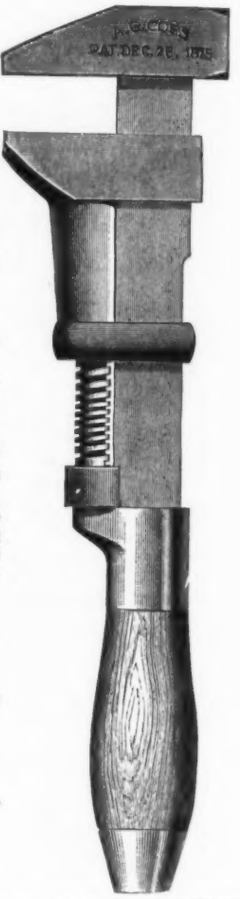
JOHN H. GRAHAM & CO., Agts.



Bemis & Call Hardware & Tool Co.

PATENT COMBINATION WRENCH.

Case-Hardened Throughout. Parts Interchangeable.

This Wrench not only combines the superior qualities of a Gas Pipe Wrench but also all the requisite combinations of a regular Nut Wrench, thus, making a combination which has no equal.

No. 3 PATENT PIPE WRENCH.

The serrated jaws of the Wrench are interchangeable; that is, the same serrated plate may be used for either the stationary or sliding jaw, so that if one plate is broken another can be furnished adapted to either jaw without express designation. The slides, nuts and various parts are also interchangeable, thus easily repairing the Wrench at very small expense, and with as perfect practicability for further use as when the Wrench was new.

For Circulars and Price List, address

BEMIS & CALL HARDWARE & TOOL COMPANY, Springfield, Mass.

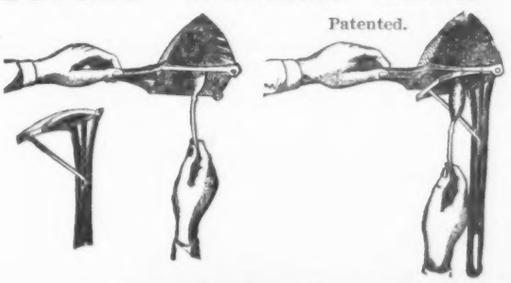
THE "DIEHL"

FRUIT PRESS AND STRAINER.

Patented.



We make this Press with *removable* plunger handle to permit the cups being *easily cleaned*. With the permanent handle it is a most *difficult* thing to *thoroughly clean* a press because the plunger invariably fails *directly* in *front* of the cup every time it is turned over to dump the matter out of it.

Without the plunger it makes a splendid *dipper strainer* for dipping and straining out of the pot. It is also a good *gravey*, &c., &c. *strainer*.

It makes a great, great improvement.

DROP-FORGED

STEEL LATHE DOGS.

These Dogs are forged from mild steel, giving the greatest strength and toughness for the least weight, while they are also heavier than other Dogs of corresponding sizes made elsewhere.

The cross section is shaped similarly to an ogee, forming a rib, as it were, on the back, by which the metal is utilized to its greatest advantage at the point of severest strain.

The screws are made of steel to the U. S. Standard Gauge; the points are hardened, and they are from one-sixteenth to one-eighth of an inch larger in diameter than those generally used in Lathe Dogs offered for sale.

Twelve sizes, from ⅜ inch to 4 inch inclusive.

FLOUR

A MAN OF SAMPLES.

Something About the Men He Met "On the Road."

BY WM. H. MAHER.

Should be read by every business man in the country.
It is a book full of keen points about business men and business methods, from the pen of a successful merchant who has not only been "on the road" but has been book-keeper, buyer and head of a house doing a large trade.
The merchant who stays at home can see how men work on the road.
The book-keeper can learn how his letters and drafts are looked upon by the men he writes to.
The stock clerk can get some points about shipping goods and filling orders.
Those who advertise can learn from one of the best advertisers in the United States.
Actual names of men and houses are given, but not a line in the book has been paid for in any way.
If men were complimented, it was because the author felt that they deserved it, and others are condemned fearlessly.

IT IS A BRAINY BOOK.

Sent, Postpaid, on Receipt of the Price, 75 cents,

WILLIAM A. BAEDER. HOWARD R. KERN.

BAEDER FLINT PAPER CO.,

283 Pearl Street, New York.

P. O. Box 2014, New York City.

WORKS, ARLINGTON, N. J.

Extract from the "Daily Register," the New York Law Journal, July 7, 1888.

ANDREWS, J.

Baeder et al. v. Baeder et al. (two cases)—After a careful examination of the voluminous papers submitted in these cases I am of the opinion that Baeder, Adamson & Co. branded their **second quality** of flint paper with the word "**Baeders,**" for the express purpose, and with the effect of inducing the public to purchase such **second quality** of paper as and for the **first quality** of the flint paper of the plaintiffs, **William A. Baeder** and **Howard R. Kern**; and that the defendant, the Russell & Erwin Mfg. Co. have, knowingly and intentionally, actually sold such **second quality** paper of Baeder, Adamson & Co. as and for the **first quality** paper of said **William A. Baeder** and **Howard R. Kern.** These acts of Baeder, Adamson & Co., and of the Russell & Erwin Mfg. Co. are **clearly unlawful,** and the motion to continue until the trial of the action the **injunction,** heretofore granted by Mr. Justice Barrett, in the action brought against those parties by **Baeder & Kern** will be **granted,** with $10 costs. I do not think that the mark used by **Baeder & Kern** can be considered a simulation of Baeder, Adamson & Co.'s first quality mark, nor that it is intended or calculated to mislead or deceive purchasers into taking **Baeder & Kern's Paper** as and for the first quality paper of Baeder, Adamson & Co. The motion for an **injunction,** in the action brought by Baeder, Adamson & Co. against **William A. Baeder & Kern** will be **denied,** with $10 costs.

WE ARE NOT IN THE COMBINATION.

COLD PUNCHED NUTS AND WASHERS

FOR ALL PURPOSES.

23 Hermon St., Worcester, Mass.

ROOT'S HANDY CLOTH-BOUND HARDWARE PRICE CARDS.

COPYRIGHTED 1885.

THESE cards cover the lines having a large variety of sizes or numbers, save marking each package or article, in Retail stores, and are convenient for use in Wholesale Sample Rooms. They secure correct and uniform selling prices, for large and small buyers, save time, and are intended for years of constant use. Hence, no hardware dealer can afford to do without them, or spend the time to write and rule out cards by hand. They are printed in distinct type on the best paper, appropriately ruled with blue cross lines and red down rulings, for noting in pencil—List, Cost, Jobbing and Selling prices—as in specimen headings, shown herewith. Card A is mounted one side and B the other side of a tough, heavy card board, especially adapted for this use, protected on the edges by being *cloth-bound*, which saves framing. Two-thirds of them are 3 x 13½ inches. This size has been found convenient for hanging on a pilaster finish, or on any narrow surface, without hiding the goods. To hang or chain up each card, there is firmly inserted through the nickel-plated eyelet about ⅝ inch inside diameter. The comparative numbers of the different makers of cabinet and padlocks, rules, levels, etc., have been carefully corrected to the date of issue and many numbers added. Most houses require 6 to 12 cards extra, of **each Nos. 32 and 33**, to price lines not covered by the other numbers.

PIECED WARE. [Card No. 26-A.]

DESCRIPTION AND PRICES.

Card No.		Size and Price per Card.
1	**A—Bar Iron,** Weight of Round, Square and Flat, per Foot and Tire per set. Western Classification and Prices of Extras on American, Norway and Swedes. **B—Bar Steel,** All kinds and Sizes with Prices of Extras. Horse and Mule Shoes, Size, Weight, No. in Keg. Toe Calks. Cut Nails, List of Extras.	5½x18 in. 40 Cts.
2	**A—Cut Tacks,** exact size cuts. Length. Number in a lb. **B—Large Head Carpet Tacks.** Gimp and Lace Tacks. Hungarian Nails, Hob Nails, Blued and Tinned, American and Swedes. Exact size cuts shown of all the above.	3x13½ in. 30 Cts.
3	**A—Shoe Nails.** Cigar Box Nails. Copper Tacks, Double-Pointed Tacks and Cuts, Glaziers' Points and Cuts. Barbed Blind Staples. **B—Patent Brads.** Finishing Nails. Blued Clout Nails. Tinned Clout Nails.	3x13½ in. 30 Cts.
4	**A—Iron Wood Screws.**	6x16 in. 40 Cts.
5	B—Iron Wood Screws (contd.) Iron Machine Screws.	
6	**A—Standard Carriage Bolts.** B—Standard Carriage Bolts (continued.) Plow Bolts. **A—Machine Bolts.**	3x13½ in. 30 Cts.
7	**B—Standard Tire Bolts.** Round and Flat Head Stove Bolts.	3x13½ in. 30 Cts.
8	**A—Philadelphia Carriage Bolts.** **B—Philadelphia Carriage and Tire Bolts.**	3x13½ in. 30 Cts.
9	**A—Square and Hexagon Nuts.** Wrought Washers. Size of Bolt, size of Hole, Width, Thickness, number in 100 lbs. **B—Coach or Lag Screws.** Superior and Norway Axle Clips.	3x13½ in. 30 Cts.
10	**A—Bright Screw Hooks.** Belt Hooks. Blake's Belt Studs. **B—Bright Screw Eyes.** Gate Hooks and Eyes. Cornice Hooks and Eyes.	3x13½ in. 30 Cts.
11	**A—Plate Casters and Bed Casters.** **B—Wrought Hooks and Staples.** Trap Door Rings. Hasps and Staples, and Staples only.	3x13½ in. 30 Cts.
12	**A—Saws.** Hand, Panel and Rip. Combination and Back. Disston's and W. M. & C.'s corresponding numbers and "Our Brand." **B—Saws.** Back, Compass, Pruning, Kitchen, Butchers' Bow and Blades. Framed Wood Saws and Blades.	3x13½ in. 30 Cts.
13	**A—Chisels.** Slicks, Socket Framing, Socket and Tanged Firmer, Corner. B—Turning Chisels and Gouges, Socket and Tanged Firmer Gouges	3x13½ in. 30 Cts.
14	A—Cast Steel Augers and Bits. Boring Machine Augers. Jennings' Auger Bits. B—Bit Stock Drills, Gimlet Bits, German Pattern, Double Cut and Countersink. Center Bits. Clark's Expansive Bits.	3x13½ in. 30 Cts.
15	**A—Hammers.** Adze Eye, Bell Face, Joiners', Steel Face and Claw, Riveting, Farriers', Blacksmiths', Machinists', Engineers. **B—Hammers.** Tack, Masons', Sledges, Miscellaneous. **Hatchets,** Shingling, Lath, Half, Claw, Broad or Bench, Hunters'.	3x13½ in. 30 Cts.
16	**A—Files.** Bastard, Mill, Flat, Hand, Half-round, Round, Square, Knife, Warding. Second Cut, Mill, Flat, Hand, Half-round. Smooth, Flat and Hand. **B—Files.** Smooth, Half-round, Round, Cabinet, Pit Saw, Hook Tooth, Gin Saw, Band Saw, Cant, Taper, Stubb's Taper. **Rasps,** Cabinet, Wood, Shoe, Horse.	7x15 in. 50 Cts.
17	A—Rubber and Hemp Packing. Gaskets or Rings. Rubber Hose. B—Leather and Rubber Belting.	3x13½ in. 30 Cts.
18	**A—Window Glass.** List Prices and Number Lights in a Box. Also ruled columns for other Wholesale and Retail rates. **B—Sash, Doors and Blinds.** List Prices.	6x18½ in. 40 Cts.
19	**A—Hinges.** Strap, Light and Heavy. T, Light, Heavy and Extra Heavy. Hinge Hasps, Screw Hook and Strap. **B—Screw Hook and Eye Hinges.** Barn Door Hangers. Checked Back. Kidder's, Anti-Friction, Wrought Frame. Barn Door Stay Rollers, Rail, Pulls, Latches. Sliding Door Rail.	3x13½ in. 30 Cts.
20	**A—Wrought Butts.** Narrow, Loose Pin, Light Inside Blind. **B—Loose Pin Butts.** Plain, Japanned and Plated Tips.	3x13½ in. 30 Cts.
21	A—Loose Joint Butts, Plain, Japanned and Plated Tips. B—Table Hinges, Bronzed Iron Blind Butts. Brass Butts, Narrow, Middle, Broad and Desk. Width when open, given of all.	3x13½ in. 30 Cts.
22	**A—Door Bolts,** Barrel, Square Spring, Foot, Chain. B—**Door Bolts,** Flush, Neck and Miscellaneous kinds.	3x13½ in. 30 Cts.
	A—Screw Drivers, Flat and Round Blade, Ratchet, Clark's. Screw Driver Bits. Countersinks, Reamers', Belt or Saddlers' Punches. **B—Rules. Wrenches.**	3x13½ in. 30 Cts.

Card No.		Size and Price per Card.
23	**A—Hooks,** Coat and Hat, Wardrobe, School-house, Harness, Clothes-line. **B—Shelf Brackets. Drawer Pulls.**	3x13½ in. 30 Cts.
24	**A—Wood Planes.** Plane Irons, Cut and Double. B—**Patent Planes.** Patent Plane Irons.	3x13½ in. 30 Cts.
25	A—**Woodenware and Baskets.** Alphabetically arranged. B—**Woodenware** (contd.) Alphabetically arranged.	7x22 in. 60 Cts.
26	**A—Pieced Tinware.** Alphabetically arranged. **B—Stamped Tinware.** Alphabetically arranged.	7x22 in. 60 Cts.
27	**A—Japanned Tinware.** Alphabetically arranged. **B—Granite or Agate Ironware.** Planished Ware. Stove and Hollow Ware. All Alphabetically arranged.	7x22 in. 60 Cts.
28	**A—Mortise Door Locks,** Latches, Knobs and Escutcheons. **B—Rim Door Locks,** Latches, etc. **A—Padlocks,** Japanned, Wrought Iron, Bronzed Iron, Brass and Jail.	7x22 in. 60 Cts.
29	**B—Complete Comparative List of Corresponding Numbers of Padlocks,** Mallory, Wheeler Co., Wm. Wilcox Mfg. Co., Russel & Erwin Mfg. Co., Norwich Lock Mfg. Co., Nimick & Brittain Mfg. Co. Revised to July, 1885.	6½x22½ in. 60 Cts.
30	**A—Cabinet Locks,** Drawer, Chest, Cupboard and Trunk. Cabinet Keys. **B—Complete Comparative List of Corresponding Numbers of Cabinet Locks,** Eagle, Corbin, Parker, Gaylord. Revised to July, 1885.	7x24 in. 60 Cts.
31	**A—Length and number of Nails to the pound.** Number of feet in a bundle of Hoop, Scroll and Band Iron Number of feet of Wire in a pound. Coil or Cable Chain, weight per 100 feet and proof in tons. Bright Coil and Halter Chain and corresponding No. of Wire. Sash weights and line required for common sized window. **B—Miscellaneous Tables.** Showing Nnmber of Copper Rivets and burs in a pound. Size of Skates compared with Shoes. Scale Beams, poise or weight needed for each. Brass Kettles, size, weight and capacity. Strap and T Hinges, weight and number packed in a barrel. Comparative Nos. of leading makers of Rules and Levels. Revised to July, 1885. Manilla Rope, feet in a pound, weight of coils, breaking strain, etc.	6x22 in. 60 Cts.
32	Is adapted for filling in with any line of goods. It is ruled both sides with columns headed respectively—"Description," "Size or No.," "List," "Cost," "Job," "Sell."	4x14 in. 20 Cts.
33	As No. 32, but half size, for *smaller* lines of goods.	4x7 in. 10 Cts.
34	**A—Wire Nails,** Exact Size Cuts. **B—Wire Nails,** List Prices and Number in a pound.	5½x9½ in. 30 Cts.
35	**A—Gas Pipe,** Black and Galvanized. List Prices, Weight per foot and number threads per inch of screw. Also Malleable Pipe Fittings *illustrated*. B—Is ruled similar to No. 32, and is adapted for any line of goods.	5½x9½ in. 30 Cts.
36	**A—Tin Plates and Metals.** Sizes of Tin, Number of Sheets in Box, Weight and Gauge, Block Tin, Lead, Solder, Antimony, Slab and Sheet Zinc. **B—Sheet Iron and Copper.** Iron, Common, Smooth, Galvanized, American and genuine Russia. Copper, Sheathing, Planished and Copper Bottoms and Soldering coppers.	5½x9½ in. 30 Cts.
37	**A—Malleable Iron.** *Illustrated.* Whiffletree Ferrules. Tongues, Hooks, Couplings and Plates. T and Shaft Irons. Shaft, Body, Perch and Neck-yoke Loops. **B—Malleable Iron.** *Illustrated.* Pole and Neck-yoke Tips. End or Tail Board Plates. Washers and Nuts. Stake Rings and Irons. Wagon Box Spring Irons. Check and Footman Loops. Corner Irons. Spring and Axle Blocks.	5½x18 in. 40 Cts.
38	**A—Malleable Iron.** *Illustrated.* Axle Yokes. Wear Irons. Wrenches. Carriage Rim Bands. Oar or Row Locks. **B—Malleable Iron.** *Illustrated.* Step Plates, Carriage, Wagon and Cutter Steps. Thumb Nuts. Sand Bands.	5½x18 in. 40 Cts.
39	**A—Handles.** *Illustrated.* Auger, Cross-Cut Saw, Axe, Adze, Hatchet, Hammer, Pick, Sledge. B—Is ruled similar to No. 32, and is adapted for any line of goods.	5½x9½ in. 30 Cts.
40	**A—Wire Cloth and Netting.** *Illustrated.* Plain, Painted and Galvanized. B—Is ruled similar to No. 32, and is adapted for any line of goods.	5½x9½ in. 30 Cts.

Less than a Set Priced at the above Rates.

PRICES IN SETS.—**Set No. 1** includes numbers 1 to 40 inclusive, price, $11.50 per Set; **Set No. 2** includes the following ten very best selling numbers, to Retail Trade: **Nos. 2, 3, 9, 11, 12, 13, 15, 18, 19, 32,** price, $2.50 per Set; **Set No. 3,** for Dealers in Tinware and House Furnishing Goods, consists of Cards Nos 25, 26, 27, price, $1.50 per Set. Sent, *charges prepaid*, on receipt of price, by

Taps and Dies.
Butterfield & Co., Derby Line, Vt.
Manning, Maxwell & Moore, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield Mass.
Worswick Mfg. Co., Cleveland, Ohio.

Testing Machines.
Riehlé Bros., Philadelphia.

Thill Springs.
Stiles Frost, Boston, Mass.

Toe Calks, Steel.
Burke P. F., Boston, Mass.

Tool Grinders.
Hall Mfg. Co., Phila., Pa.

Tools.
Am. Bit Brace Co., Buffalo, N. Y.
Atkins E. C. & Co., Indianapolis, Ind.
Brown, R. H. & Co., New Haven, Conn.
Bullock O. W., Springfield, Mass.
Ellrich Hdw. Mf. Co., Plantsville, Ct.
Hoague, J. H & Co., Chicopee, Mass
Humphrey Tool Co., Warren, Mass.
Stanley Rule & Level Co., 29 Chambers, New York.
Starrett L. S., Athol, Mass

Tools and Machines (Tinners').
Niagara Stamping and Tool Co., Buffalo, N. Y.

Tools, Steam and Gas Fitters.
Curtis & Curtis, Bridgeport, Conn.
Saunders' Sons, D., Yonkers, N. Y.

Transom Lifters.
Reiher F. A. & Co., Chicago, Ill.
Wollensak J. F., Chicago, Ill.

Trimmings, Refrigerator, &c.
Brainerd & Co., 97 Chambers, N. Y.

Trucks, *Manufacturers of.*
Boston & Lockport Block Co., Boston, Mass., and Lockport, N. Y.
Richie Bros., 9th St., Phila.

Tube Scrapers.
Chalmers-Spence Co., 419 8th, N. Y.

Tubes, Seamless Drawn Copper
Bridgeport Brass Co., 19 Murray, N. Y.

Tubes, Steel.
Leng John S., Fletcher, N. Y.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn

Turnbuckles.
Cleveland City Forge and Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D

Twist Drills, *Makers of.*
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Standard Tool Co., Cleveland.

Type Writers.
Hammond Type Writer Co., 75-77 Nassau, N. Y.

Valves, Gas, Water and Steam
Chapman Valve Mfg. Co., Boston.
Leng John S., 4 Fletcher, N. Y.
Ludlow Valve Mfg. Co., Troy, N. Y.
McNab & Harlin Mfg. Co., N. Y.

Vises.
Howard Iron Works, Buffalo, N. Y.
Prentiss Vise Co., 83 Dey, N. Y.

Vulcanized Fibre.
Vulcanized Fibre Co., 14 Dey St., N. Y.

Wagon Jacks.
Boston & Lockport Block Co., Boston Mass., and Lockport, N. Y.

Washers.
Lanman, E. B., Columbus, O.
Mason Iron Co., Philadelphia, Pa.

Water Filters.
Gate City Stone Filter Co., 46 Murray street, New York.

Well Machinery.
American Well Works, Peoria, Ill.
Goulds & Austin, Chicago, Ill.

Wheelbarrows.
Pugsley & Chapman, 8 Liberty, N. Y

White Lead.
Atlantic White Lead and Linseed Oil Co., 287 Pearl, N. Y.
Lewis John T. & Bros., Phil.

Wheels.
Quincy Metal Wheel Co., Quincy, Ills.
L. A. Weston & Co., Syracuse, N. Y

Window Cleaners.
Bosley, D. W. & Co., Chicago.

Window Screens.
Darby, Edw. & Sons, Philada., Pa
Queen Anne Screen Co., Burlington Vt.

Wire, *Manufacturers of.*
Cary & Moen, 234 W. 29th, N. Y.
Emmons, F. R. & Bro., 21 Warren St., N. Y.
Gautier Steel Department of Cambria Iron Co., Johnstown, Pa.
Hartman Steel Co., L'd, Pittsburgh Pa
Howard & Morse, 45 Fulton, N. Y.
Leicester Wire Co., Leicester, Mass.
Palmer Wire Mfg. Co., Palmer, Mass.
Prentiss Geo. W. & Co., Holyoke.
Salem Wire Nail Co., Salem, O.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg Co., Worcester.
Worcester Wire Co., Worcester, Mass

Wire Cloth.
Clinton Wire Cloth Co., Clinton, Mass.
Darby Edward & Sons, Philadelphia
Estey W. S., 71 Fulton, N. Y.
Howard & Morse, 45 Fulton, N. Y.
Wickwire Bros., Cortland, N. Y.
W. S. Tyler Wire Works Co., Clev'd.

Wire Cutters.
Cronk Hanger Co., Elmira, N. Y.
King, J. M. & Co., Watertown, N. Y

Wire Door Mats.
Barnum E. T, Detroit, Mich.

Wire Fences.
Howard & Morse, 45 Fulton, N. Y.

Wire Goods, *Manufacturers of*
Brooks M. S & Sons, Chester, Conn.
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., N. Y.
Hollow Cable Mfg. Co., Hornellsville
Howard & Morse, 45 Fulton, N. Y.
Knapp & Hague, New York.
E. Jenckes Mfg. Co., Pawtucket, R. I.
Ludlow-Saylor Wire Co., St. Louis.
Wire Goods Co., Worcester.
Wickwire Bros., Cortland, N. Y.

Wire Machinery.
Adt John & Son, New Haven, Conn.

Wire Nail and Tack Machines.
Sweetser, W. A., Brockton, Mass.

Wire Nails.
American Tack Co., Fairhaven.
Birmingham Wire Nail Co., Birmingham, Ct.
Dunbar, Hobart & Co., 39 Warren, N. Y
Field A. & Sons, Taunton, Mass.
Hartman Steel Co. Ltd., Pittsburgh Pa.
Phillips E. & Sons, South Hanover
Phillips, Townsend & Co., Phil., Pa
Pittsburgh Wire Nail Co., Pittsburgh Pa.
Plymouth Mills, Plymouth, Mass.
Salem Wire Nail Co., Salem, O.
Wire Goods Co., Worcester.
Trufant W. E., Whitman, Mass.
Whitney A. R. & Co., New York City.

Wire Rods, Steel.
Whitney A. R. & Co., N. Y.

Wire Rope, Iron and Steel, *Makers.*
Broderick & Bascom, St. Louis, Mo.
Hazard Mfg. Co., Wilkesbarre, Pa.
A. Leschen & Sons Rope Co., St Louis, Mo.
Upson, Walton & Co., Cleveland, O.
Washburn & Moen Mfg. Co., Worcester, Mass.
Williamsport Wire Rope Co., Williamsport, Pa.

Wood Engravers and Electrotypers.
Mugford A., Hartford, Conn.

Woodenware.
Tucker & Dorsey Mfg. Co., Indianapolis, Ind.

Wood Working Machinery.
Seneca Falls Mfg. Co., Seneca Falls N. Y.

Wrenches, *Manufacturers of.*
Bemis & Call Hardware & Tool Co Springfield, Mass.
Billings Spencer & Co., Hartford Conn.
Coes Wrench Co, Worcester, Mass.
Utility Wrench Co, N. Y.
Williams, J. H., Brooklyn, N. Y.

Wrench Jaws.
Atwater, H. W., E. Orange, N. J.

Wringers.
Empire Wringer Co., Auburn, N. Y
